

A wide-angle photograph of a sunset over a calm body of water, likely a lake or sea. The sky is filled with soft, pastel-colored clouds transitioning from blue to orange and yellow. In the distance, dark silhouettes of mountains are visible against the horizon. The overall atmosphere is peaceful and inspiring.

Hegel the Abbe de Sieyes Burke Wollstonecraft Charles Fourier Karl Marx Proudhon and Peter Kropotkin Many themes persist from an earlier period as does the influence of Christianity and the Roman Law but there are also many innovations In general the authority of God and the natural law recedes and the themes of utility and securing general welfare became more prominent In the wake of Locke labour though sometimes in the form of past labour that is capital attains a new prominence For its admirers a newly unfettered private property is the means of securing personal freedom constraining authoritarian governments promoting the arts and sciences and delivering an unprecedented improvement in the material condition of the whole population For its critics private property is the central component in a new political economy of systemic and unlimited class exploitation It penetrates everywhere and corrupts everything that it touches With these arguments we are clearly on the terrain of modernity witnessing a set of arguments and counter arguments with which we all still struggle

Epstein, 2019-03-27 The materials in this collection are drawn from many disciplines including economics law philosophy and political science Yet they are all directed to a topic that is worthy of examination from multiple perspectives Liberty Property and the Law Stated in this general form this topic is as broad as law itself The relationship of liberty and property to the law surfaces whenever and wherever people interact with each other under the command and control of the sovereign Those who hold sovereign power may choose to protect liberty and property or to undermine it But the regrettably high frequency of political abuse throughout the world does not justify the exercise of arbitrary legal power nor does it limit human aspirations for a sound legal and social order to block political excesses First Published in 2000
