## **Passion For Difference Essays In Anthropology And Gender:**

**A Passion for Difference** Henrietta L. Moore, 2013-05-13 In this new book Henrietta Moore examines the nature and limitations of the theoretical languages used by anthropologists and others to write about sex gender and sexuality Moore begins by discussing recent feminist debates on the body and the notion of the non universal human subject She then considers why anthropologists have contributed relatively little to these debates and suggests that this has much to do with the history of anthropological thought with regard to the conceptualization of persons and selves cross culturally Moore develops a specific anthropological approach to feminist post structuralist and psychoanalytic theory In subsequent chapters Moore pursues a series of related themes including the links between gender identity and violence questions of gender and identity in the context of intra household resource allocation the construction of domestic space and its relationship to bodily practices and the internationalization of relations of difference and the links between the gender of the anthropologist and the writing of anthropology This volume demonstrates anthropology s contribution to current debates in feminist theory

*A Passion for Difference* Henrietta L. Moore, 1994 In this new book Henrietta Moore examines the nature and limitations of the theoretical languages used by anthropologists and others to write about sex gender and sexuality Moore begins by discussing recent feminist debates on the body and the notion of the non universal human subject She then considers why anthropologists have contributed relatively little to these debates and suggests that this has much to do with the history of anthropological thought with regard to the conceptualization of persons and selves cross culturally Moore develops a specific anthropological approach to feminist post structuralist and psychoanalytic theory In subsequent chapters Moore pursues a series of related themes including the links between gender identity and violence questions of gender and identity in the context of intra household resource allocation the construction of domestic space and its relationship to bodily practices and the internationalization of relations of difference and the links between the gender of the anthropologist and the writing of anthropology This volume demonstrates anthropology s contribution to current debates in feminist theory

**Gender and Agency** Lois McNay, 2013-05-29 This book reassesses theories of agency and gender identity against the backdrop of changing relations between men and women in contemporary societies McNay argues that recent thought on the formation of the modern subject offers a one sided or negative account of agency which underplays the creative dimension present in the responses of individuals to changing social relations An understanding of this creative element is central to a theory of autonomous agency and also to an explanation of the ways in which women and men negotiate changes within gender relations In exploring the implications of this idea of agency for a theory of gender identity McNay brings together the work of leading feminist theorists such as Judith Butler and Nancy Fraser with the work of key continental social theorists In particular she examines the work of Pierre Bourdieu Paul Ricoeur and Cornelius Castoriadis each of whom has explored different aspects of the idea of the creativity of action McNay argues that their thought has interesting implications for

feminist ideas of gender but these have been relatively neglected partly because of the huge influence of the work of Michel Foucault and Jacques Lacan in this area She argues that despite its suggestive nature feminist theory must move away from the ideas of Foucault and Lacan if a more substantive account of agency is to be introduced into ideas of gender identity This book will appeal to students and scholars in the areas of social theory gender studies and feminist theory **Gender**

**Responsive Investment Handbook** Vanessa Erogbogbo, Esther Eghobamien, Elizabeth Pimentel, 2013 Women account for between 25 40 per cent of SMEs worldwide and their earning power is estimated to reach US 18 trillion by 2014 more than double the estimated 2014 GDP of China and India combined Yet there remain structural and cultural barriers to the effective delivery of financial services to women in the global marketplace meaning that a high percentage is unbanked and receive a low proportion of credit As women entrepreneurs grow in number they need financial products and services beyond microfinance and gender responsive budget initiatives that will allow them to expand their businesses Gender Responsive Investment is a process of ensuring gender equitable access to financial services and investment resources through rigorous assessment of the differing needs of women and men It recognises that a more equitable allocation of resources will make a greater impact on sustainable economic development with long term benefits for the whole economy This Handbook supports policy makers to identify the policies laws and regulations that hinder womens access to finance and assists financial institutions to identify opportunities to deliver inclusive well designed products and services for women Agency and

Gender in Gaza Aitemad Muhanna, 2016-04-01 Drawing on rich interview material and adopting a life history approach this book examines the agency of women living in insecure and uncertain conflict situations It explores the effects of the Israeli policy of closure against Gaza and the resulting humanitarian crisis in relation to gender relations and gender subjectivity With attention to the changing roles of men in the household and community as a result of the loss of male employment the author explores the extension of poor women s mobility particularly that of young wives with dependent children for whom the meaning of agency has shifted from being providers in the domestic sphere to becoming publicly dependent on humanitarian aid Without conflating women s agency with resistance to patriarchy Agency and Gender in Gaza extends the concept of agency to include its subjective and intersubjective elements shedding light on the recent distortion of the traditional gender order and the reasons for which women resist the masculine power that they have acquired as a result An empirically grounded examination of the attempt to maintain the meaning of social existence through the preservation of socially constructed images of masculinity and femininity this book will be of interest to social scientists with interests in gender studies masculinities and the sociology of the family **The Kaleidoscope of Gender** Joan Z. Spade, Catherine G. Valentine, 2011 An accessible timely and stimulating introduction to the sociology of gender The Kaleidoscope of Gender

the complex evolving pattern of gender is constructed interpersonally institutionally and culturally and challenges students to question how gender shapes their daily lives Like the prior edition the Third Edition maintains a focus on contemporary contributions to the field while incorporating classical and theoretical arguments to provide a broad framework Integrating a cross cultural focus and intersectional inquiry this unique text reader vividly illustrates that gender is a malleable continuum of prisms patterns and possibilities

Beyond Common Sense: Sexuality And Gender In Contemporary Japan Wim Lunsing, 2015-12-22 First published in 2001 This volume is based on the author's visit to Japan in Summer 1986 on his findings about some of the questions he was asked whilst there He was 25 and these questions centred around asking if he was married or had a girlfriend when in his homeland of the Netherlands he openly identified as gay This research is an investigation of how gay and lesbian people women's and men's liberationists singles and other people such as transsexuals transvestites and hermaphrodites whose ideas feelings or lifestyles are at variance with Japanese constructions of marriage and inherently the construction of life live in Japan

*Beyond Bodies* Todd Sanders, 2008-12-15 For over a century the Ihanzu of north central Tanzania have conducted rainmaking rites As with similar rites found across sub Saharan Africa these rites are replete with gender sexual and fertility motifs Social scientists have typically explained such things as symbolizing human bodies and the act of procreation But what happens when our interlocutors deny such symbolic explanations when they insist that rain rites and the gender and sexual motifs in them do not symbolize anything but rather aim simply to bring rain *Beyond Bodies* examines Ihanzu sensibilities about gender through a fine grained ethnography of rainmaking rites It considers the meaning of ritual practices in a society in which gender is not as bound to the body as it is in the Euro American imagination Engaging with recent anthropological and gender theory this book crucially calls into question how social scientists have explained gender symbolism in myriad ethnographic and historical studies across Africa

Racing Romance Kumiko Nemoto, 2009-07-10 Despite being far from the norm interracial relationships are more popular than ever *Racing Romance* sheds special light on the bonds between whites and Asian Americans an important topic that has not garnered well deserved attention until now Incorporating life history narratives and interviews with those currently or previously involved with an interracial partner Kumiko Nemoto addresses

the contradictions and tensions a result of race class and gender that Asian Americans and whites experience Similar to black white relationships stereotypes have long played crucial roles in Asian American white encounters Partners grapple with media representations of Asian women as submissive or hypersexual and Asian men are often portrayed as weak laborers or powerful martial artists Racing Romance reveals how allegedly progressive interracial relationships remain firmly shaped by the logic of patriarchy and gender inherent to the ideal of marriage family and nation in America even as this ideal is juxtaposed with discourses of multiculturalism and color blindness

**Gender Pluralism** Michael G. Peletz, 2009-06-01  
Choice Outstanding Academic Title 2009 This book examines three big ideas difference legitimacy and pluralism Of chief concern is how people construe and deal with variation among fellow human beings Why under certain circumstances do people embrace even sanctify differences or at least begrudgingly tolerate them and why in other contexts are people less receptive to difference sometimes overtly hostile to it and bent on its eradication What are the cultural and political conditions conducive to the positive valorization and acceptance of difference And conversely what conditions undermine or erode such positive views and acceptance This book examines pluralism in gendered fields and domains in Southeast Asia since the early modern era which historians and anthropologists of the region commonly define as the period extending roughly from the fifteenth to the eighteenth centuries

**Handbook of Ethnography** Paul Atkinson, Sara Delamont, Amanda Coffey, John Lofland, Lyn Lofland, 2007-04-25 I wish the Handbook of Ethnography had been available to me as a fledgling ethnographer I would recommend it for any graduate student who contemplates a career in the field Likewise for experienced ethnographers who would like the equivalent of a world atlas to help pinpoint their own locations in the field Journal of Contemporary Ethnography No self respecting qualitative researcher should be without Paul Atkinson s handbook on ethnography This really is encyclopaedic in concept and scope Many big names in the field have contributed so this has to be the starting point for anyone looking to understand the field in substantive topic theoretical tradition and methodology SRA News Ethnography is one of the chief research methods in sociology anthropology and other cognate disciplines in the social sciences This Handbook provides an unparalleled critical guide to its principles and practice The volume is organized into three sections The first systematically locates ethnography firmly in its relevant historical and intellectual contexts The roots of ethnography are pinpointed and the pattern of its development is demonstrated The second section examines the contribution of ethnography to major fields of substantive research The impact and strengths and

weaknesses of ethnographic method are dealt with authoritatively and accessibly The third section moves on to examine key debates and issues in ethnography from the conduct of research through to contemporary arguments The result is a landmark work in the field which draws on the expertise of an internationally renowned group of interdisciplinary scholars The Handbook of Ethnography provides readers with a one stop critical guide to the past present and future of ethnography It will quickly establish itself as the ethnographer s bible

**Revolutionary Struggles and Girls' Education** Thera Mjaaland,2021-07-27 Revolutionary Struggles and Girls Education At the Frontiers of Gender Norms in North Ethiopia argues that at the base of girls poorer performance than boys at secondary school level when puberty has set in is the symbolic violence entailed in sanctioned femaleness Informed by the modesty of Virgin Mary in Orthodox Christian veneration it instructs girls to internalize a holding back which impinges on her self efficacy and ability to be an active learner Neoliberally informed educational policies and plans which have co opted liberal feminism also in Ethiopia do not address hard lived gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity Despite women s courageous contribution at a literal frontier during the Tigrayan liberation struggle 1975 91 where they fought on equal terms with men and despite the tendency that girls outnumber boys at secondary level in the present context sanctioned femaleness constitutes a frontier for girls educational success and transition to higher education In fact when teaching learning continues to be based on memorization rather than critical thinking the very transformative potential of education is undermined also in a gendered sense

*Gender, Agency and Change* Victoria Goddard,2003-12-16 In response to global change people create new opportunities and conditions and in their responses they are influenced by both gender and age In Gender Agency and Change the contributors illustrate the complexities involved in the constitution and performance of agency Such agency may be reflected in strategies of accommodation and adaption that can nevertheless produce new institutional arrangements Alternatively they may be directed towards the outright rejection of these processes The cases examined in this volume explore the ways in which different subjects engage in the reformulation of spaces roles and identities redefining the boundaries between and the content of the public and the private The examples also provide an account of how gendered discourses are deployed to convey new meanings a new sense of place and time confirming or challenging ideas of tradition and modernity This collection will be of particular interest to students of anthropology and gender studies

*Gender* J. Germon,2009-12-07 This book offers a rigorous analysis of the contemporary ideologies of gender and places the work of controversial sexologist John Money at the center of its analysis demonstrating the influence of his ideas of what it means to be a sexed subject

Exploring Sex and Gender in Bioarchaeology Sabrina C. Agarwal,Julie K. Wesp,2017-04 Archaeologists have long used skeletal remains to identify gender As the contributors to this volume reveal combining skeletal data with contextual information can provide a richer understanding of life in the past

**Consensus and Dissent** Anne Storch,2017-03-10 This

book is the result of intensive and continued discussions about the social role of language and its conceptualisations in societies other than Northern European American ones. Language as a means of expressing as well as evoking both interiority and community has been in the focus of these discussions led among linguists, anthropologists and Egyptologists and leading to a collection of essays that provide studies that transcend previously considered approaches. Its contributions are in particular interested in understanding how the attitude of the individual towards societal processes and strategies of norming is negotiated emotionally and how individual interests and attitudes can be articulated. Discourses on public spaces are in the focus in order to analyse those strategies that are employed to articulate dissent for example in the sense of face threatening acts. This raises a number of questions on the spatial and public situatedness of emotions and language. How is the public space dealt with and reflected in language as property, heritage and as a part of ascribed identities? Which role do emotions play in this space? How is emotion employed there as part of place making in relation to identity constructions? What is the connection between emotion performance and emblematic spaces and places? Which opportunities of the violation of norms and transgression do such public spaces offer to actors and speakers? These questions intend to address the communicative representation of core cultural processes and concepts.

**Unmasking the Masculine** Alan R.

Petersen, Professor Alan Petersen, PH., 1998-07-08 Postmodernism and poststructuralism have undermined the assumptions upon which established identities have been constructed such as the concept of stable bodies and stable selves. Sex, gender, sexuality and race are no longer viewed as merely descriptive aspects of experience but also as constructions of identity. Drawing on current debates in postmodern feminism, feminist philosophy of science, anti-racist postcolonial studies and queer theory, this book considers the way in which discourse fabricates the ideal male body, sexual identity and sexual politics. Alan Petersen explores the possibilities of developing new models of identity not so closely linked to the sex/gender system and examines the prospects of creating a new or reconceptualized identity politics.

*Children of the Rainforest* Camilla

Morelli, 2023-06-16 *Children of the Rainforest* explores the lives of children growing up in a time of radical change in Amazonia. The book draws on ethnographic fieldwork conducted with the Matsigenka, a group of hunter-gatherer forest dwellers who have lived in voluntary isolation until fairly recently. Having worked with them for over a decade, returning every year to their villages in the rainforest, Camilla Morelli follows closely the life trajectories of Matsigenka children, watching them shift away from the forest-based lifestyles of their elders and move towards new horizons crisscrossed by concrete, paved, lit by the glow of electric lights and television screens and centered around urban practices and people. The book uses drawings and photographs taken by the children themselves to trace the children's journeys lived and imagined from their own perspectives, proposing an ethnographic analysis that recognizes children's imaginations, play and shifting desires as powerful catalysts of social change.
