100 Western Women Jan Cleere, 2025-03-12 History books record scant contributions women made in settling and developing the new territory of Arizona Yet women were an integral part of civilizing the rough rowdy often dangerous land For more than ten years Jan Cleere has written about the women who influenced the growth and development of Arizona in her column *Western Women* that appears monthly in the Arizona Daily Star newspaper The famous infamous and those not so well known are featured each with a compelling story of surviving and thriving under less than ideal circumstances Warriors basket weavers ranchers artists innkeepers schoolteachers politicians and entrepreneurs from a remarkable variety of backgrounds and cultures influenced the growth

of Arizona Read about Larcena Pennington who had to crawl down a mountain to escape her Indian captors Hopi artist Nampeyo continued to make exquisite pots even after she started losing her eyesight Carmen Vasquez built a theater and brought in shows from as far away as Spain Elizabeth Hudson Smith ran a successful hotel until the color of her skin turned a town against her And Sarah Gorby allowed injured animals to live in her home until they could return to their desert habitats The 100 Western women featured between these pages are just a handful of those who came before and after them as the territory emerged and flourished into an amazing and diverse state unlike any other in the nation *Women Writers of the American West, 1833-1927* Nina Baym, 2012-08-17 This book recovers the names and works of women who wrote about the American West during the nineteenth and early twentieth centuries some of them long forgotten and others better known such as Willa Cather and Mary Austin Holley It reveals how the authors showed women making lives for themselves in the West how they represented the diverse region and how they represented themselves *Of Rock and Rivers* Ellen Wohl, 2009-06-08 This deeply personal collection of essays paints a progressive view of the American West as seen by a geologist The author traces her twenty years of living and conducting research in the natural landscapes of the West as she investigates the conflict between environmental history and widely held romanticized views of the region **The Frontiers of Women's Writing** Brigitte Georgi-Findlay, 2022-05-10 Although the myth of the American frontier is largely the product of writings by men a substantial body of writings by women exists that casts the era of western expansion in a different light In this study of American women's writings about the West between 1830 and 1930 a European scholar provides a reconstruction and new vision of frontier narrative from a perspective that has frequently been overlooked or taken for granted in discussions of the frontier Brigitte Georgi Findlay presents a range of writings that reflects the diversity of the western experience Beginning with the narratives of Caroline Kirkland and other women of the early frontier she reviews the diaries of the overland trails letters and journals of the wives of army officers during the Indian wars professional writings focusing largely on travel by women such as Caroline Leighton from the regional publishing cultures that emerged in the Far West during the last quarter of the century and late nineteenth and early twentieth century accounts of missionaries and teachers on Indian reservations Most of the writers were white literate women who asserted their own kind of cultural authority over the lands and people they encountered Their accounts are not only set in relation to a masculine frontier myth but also investigated for clues about their own involvement with territorial expansion By exploring the various ways in which women writers actively contributed to and at times rejected the development of a national narrative of territorial expansion based on empire building and colonization the author shows how their accounts are implicated in expansionist processes at the same time that they formulate positions of innocence and detachment Georgi Findlay has drawn on American studies scholarship feminist criticism and studies of colonial discourse to examine the strategies of women's representation in writing about the West in ways that most theorists have not She critiques generally accepted stereotypes and assumptions

both about women's writing and its difference of view in particular and about frontier discourse and the rhetoric of westward expansion in general as she offers a significant contribution to literary studies of the West that will challenge scholars across a wide range of disciplines *Independent Spirits* Patricia Trenton, Sandra D'Emilio, 1995 A rich compendium of Western art by women this book also contains essays which examine the many economic social and political forces that have shaped the art over years of pivotal change The women profiled played an important role in gaining the acceptance of women as men's peers in artistic communities Their independent spirit resonates in studios and galleries throughout the country today Photos
