Passion For Plants Contemporary Botanical Masterworks:

A Passion for Plants Shirley Sherwood, 2001 A wonderful showcase of botanical artists from all over the world with over 80 works of beautiful paintings *Botanical Illustration* Valerie Oxley, 2013-08-01 Botanical Illustration is an introduction to the marrying of art and science in the aesthetic and accurate portrayal of plant material This book builds on the work of illustrators of the past ranging from Elizabeth Blackwell whose drawings helped to release her husband from debtors prison through to the exceptional scientific drawings of Beatrix Potter It deals with the practical art and the related botany of the subject Introduction to basic botany preparation of plant material for drawing use of pencil watercolour coloured pencil and pen and ink suggested topics for further study correcting mistakes and finishing touches Invaluable for beginners and skilled artists alike and an excellent reference book for teachers Superbly illustrated with 216 colour illustrations Valerie Oxley is a freelance tutor who has inspired students worldwide with her enthusiasm for natural history and plant illustration

Merleau-Ponty at the Gallery Véronique M. Fóti, 2020-03-01 Merleau Ponty s phenomenological ontology engages deeply with visual art and this aspect of his work remains significant not only to philosophers but also to artists art theorists and critics Until recently scholarly attention has been focused on the artists he himself was inspired by and wrote about chiefly C zanne Klee Matisse and Rodin Merleau Ponty at the Gallery expands and shifts the focus to address a range of artists Giorgio Morandi Kiki Smith Cy Twombly Joan Mitchell and Ellsworth Kelly whose work came to prominence in the second half of the twentieth century and thus primarily after the philosopher s death V ronique M F ti does not confine her analyses to Merleau Ponty s texts which now importantly include his late lecture courses but also engages directly with the art Of particular concern to her is the art s ethical bearing especially as related to animal and vegetal life The book s concluding chapter addresses the still widespread rejection of beauty as an aesthetic value *Botanical Illustration* Valerie Price, 2021-11-11 An introduction to botanical illustration in ten step by step lessons This practical introduction to botanical illustration is formed of ten graded lessons where each teaches you new skills to build upon the last From mushrooms and orchids to hawthorn berries and leaves once you ve completed these lessons in drawing and painting botanical subjects you will have all the techniques you need in order to tackle far more complex arrangements Even if you are still an uninitiated illustrator learn how to produce accurate and beautiful results with step by step instructions for each individual project With advice on drawing accurately measuring and recording your subject as well as preparing a well composed botanical plate this book covers everything you need to know to get ahead in botanical illustration *The Art of Plant Evolution* W. Severin Roesen was a prolific painter whose impact on the American still life tradition of the mid to late 1800s was far reaching. His work is representative of the European tenets brought to the United States by himself and other German painters who fled to this country at mid century. The quality of Roesen's work has caused him to be represented in virtually every discussion of American still life painting and his works are in numerous prestigious collections both public and private. This book outlines the known biographical information on an elusive somewhat itinerant artist who was active in this country from 1848 when he arrived in New York City until 1872 when he disappeared without a trace from the city of Williamsport, Pennsylvania where he had been living since 1860. Roesen's exact birthdate is unknown but the year of his birth has been established as 1815 or 1816 through United States census records which document his age as forty four in 1860 while he was living in Huntington, Pennsylvania. It is likely that he is the same Severin Roesen listed as having exhibited a floral piece in Cologne in 1847. Records of the American Art Union in New York give evidence of Roesen's participation in exhibitions and sales from 1848 until 1852 when the Union closed. City directories list his address until 1858. His wife Wilhelmina and three children continued to be listed in subsequent directories after the artist left. Roesen visited a number of communities in Pennsylvania before settling in Williamsport in 1860 where he worked for twelve years, the longest period that he would work in any American city. He had many patrons in this booming lumber town, often living by the barter system. He also held classes and had both young and old students. Roesen is not listed in the 1871-72 Williamsport city directory and the last dated extant painting was completed in 1872. No record of his death has come to light in that community or any other where oral tradition claims he may have gone. Thus it is only through the quality and quantity of his works that we can truly recall this artist. Roesen's paintings of lush floral and fruit still lifes can be analyzed in the context of the Dutch tradition with regard to the tastes of Victorian America and in the light of the writings of John Ruskin. His early training in Germany may have been in the decorative arts as a painter on porcelain. Evidence of this in his American works on canvas and board include his pristine rendering of detail, heightened palette, repetition of motifs and exclusive use of still life themes as subject matter. His ebullient and lavish compositions parallel the sentiments expressed by the grand landscapes of the concurrent Hudson River School artists which celebrate the splendor of America's natural resources as a source of national pride. As a teacher both directly and indirectly, Roesen had an impact on American painters who turned to the still life tradition in significant numbers late in the century. Of special note is the itinerant portraitist John Francis who also worked in rural Pennsylvania and is now better known for his still lifes. A comparison of Roesen's artistic relationship to other immigrant artists such as Charles Baum and
