Passion Fish:

New York Magazine, 1993-02-15 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

Indie Michael Z. Newman, 2011 By locating the American indie in the historical context of the Sundance Miramax era, the author considers indie cinema as an alternative American film culture.

Passion Fish Alison Oburia, Jessica McQuinn, 2010-01-01 With 3 million for the Santa Barbara Museum of Art on the line, curator Eve Carwyn hardly has time to focus on the state of her love life. Struggling to escape the clutches of a creepy ex and looking to add some adventure to her personal life, Eve is off on a much needed escape and a business trip to Boston. But before she goes, her pack of dedicated girlfriends plan a send off party that includes mind bending kisses from not one but two sensational yet anonymous partners. Will a chance encounter and a searing kiss somehow end in a love match? Will her career take off or lie in ruins when the grant results are in? Join Eve on her whirlwind journey through intrigue and ingenuity, terror and true love. Once the passion fishing starts, her life will never be the same. *Passion Fish* is one part romance and one part heart pounding thriller. An innocent game of sexy distraction ignites a spark of love and a dangerous obsession in this exciting debut novel from Alison Oburia and Jessica McQuinn. Oburia and McQuinn offer an intriguing suspenseful spin on the games people play when it comes to love and the surprising lengths to which they'll go to earn it and to keep it.

John Sayles David R. Shumway, 2012-03-15 John Sayles is the very paradigm of the contemporary independent filmmaker. By raising much of the funding for his films himself, Sayles functions more independently than most directors, and he has used his freedom to write and produce films with a distinctive personal style and often clearly expressed political positions. From *The Return of the Secaucus Seven* to *Sunshine State*, his films have consistently expressed progressive political positions on issues including race, gender, sexuality, class, and disability. In this study, David R. Shumway examines the defining characteristic of Sayles's cinema: its realism. Positing the filmmaker as a critical realist, Shumway explores Sayles's attention to narrative in critically acclaimed and popular films such as *Matewan*, *Eight Men Out*, *Passion Fish*, and *Lone Star*. The study also details the conditions under which Sayles's films have been produced, distributed, and exhibited, affecting the way in which these films have been understood and appreciated. In the process, Shumway presents Sayles as a teacher who tells historically accurate stories that invite audiences to consider the human world they all inhabit.

John Sayles, Filmmaker Jack Ryan, 1998-01-01 In 1980, art house audience word of mouth about an unusual new movie, *Return of the Secaucus Seven*, launched the career of director John Sayles, and with him, the era of the independent filmmaker. Sayles has remained a maverick, writing, directing, editing, and even acting in his own films. He has directed such diverse films as *The Brother from*

Another Planet Matewan Eight Men Out Passion Fish and Lone Star and received two Academy Award nominations Here is the chronicle of Sayles career including the story of his inauspicious beginning as a second string actor and his work in fiction theatre music videos and television The author argues that the importance of Sayles signature plain visual style has been overlooked A chapter is devoted to each of Sayles feature films offering background material on production funding a plot sketch an analysis of important characters and a look at the language setting and politics Each chapter also traces Sayles technical development his camera work editing musical arrangement and mise en scene The book includes a complete filmography and a bibliography

Cinema of Outsiders Emanuel Levy,1999-09 The most important development in American culture of the last two decades is the emergence of independent cinema as a viable alternative to Hollywood's safe and innocuous entertainment Indeed while Hollywood studios devote much of their time and energy to churning out big budget star studded event movies a renegade independent cinema that challenges mainstream fare continues to flourish with strong critical support and loyal audiences

Visualizing Difference Elzbieta H. Oleksy,2017-02-17 In the wealth of literature on intersectionality as a concept theory political option and methodology little has been written on how it might be taught Proceeding from theory to practice Visualizing Difference fills in this lacuna and offers an original approach to a visual pedagogy that recognizes the necessity of integrating difference whilst also inspiring the reader to convey meanings from visuals that directly bear influence upon their lives This innovative volume proposes a novel approach to empirical investigation of the visual So far it has not been demonstrated how interconnections between various social differentials such as gender disability sexuality race ethnicity and nationality intersect in a particular lived experience and shape the reception of visual texts Oleksy thus focuses on documenting how critical analysis of films empowers students and gives them incentive to oppose normalizing power effects Through students personal narratives the reader will witness how subjectivity is indicative of the retrospective look at their own lives which classroom experiences of watching and discussing the films have stimulated This intriguing book will appeal to undergraduate and postgraduate students and postdoctoral researchers interested in Film Audience Intersectionality Sociology Pedagogy and Gender Studies

The Encyclopedia of Film Composers Thomas S. Hischak,2015-04-16 For more than a century original music has been composed for the cinema From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition music has been an integral element of most films By the late 1930s movie studios had established music departments and some of the greatest names in film music emerged during Hollywood's Golden Age including Alfred Newman Max Steiner Dimitri Tiomkin and Bernard Herrmann Over the decades other creators of screen music offered additional memorable scores and some composers such as Henry Mancini Randy Newman and John Williams have become household names The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world It not only provides facts about these artists but also explains what makes each composer notable and

discusses his or her music in detail Each entry includes Biographical material Important dates Career highlights Analysis of the composer s musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years In addition to composers from the United States and Great Britain artists from dozens of other countries are also represented A rich resource of movie music history The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores
