Disrupting Homelessness Laura Stivers, 2011-04-01 Disrupting Homelessness unmask the futile assumptions of our present approaches to homelessness and suggests ways in which Christians and Christian communities can create a prophetic social movement to end poverty and homelessness Some Christian organizations focus on fixing the person and the behaviors that contribute toward homelessness Others promote home ownership for low income households Stivers criticizes both approaches and assesses to what extent these approaches buy into our culture's dominant ideologies on housing and homelessness and whether they promote justice and liberation for the least well off She then outlines an advocacy approach for churches to address the multiple causes of homelessness and prophetically to aim to make a home for all in God's just and compassionate community

Brave New World Order Jack Nelson-Pallmeyer, 2017-01-05 In the aftermath of the Cold War Jack Nelson Pallmeyer offers his most challenging book to date a probing assessment of the meaning and implications of what U.S. leaders have called a new world order While the end of the Cold War and the mobilization of sanctions against Iraq opened the possibility of a truly new world order Nelson Pallmeyer argues that the Gulf War was used to serve a very different purpose United States elites in the national security establishment instead sought to make the world safe for future wars to derail the post Cold War peace dividend and to foreclose the possibility of a world order based on international justice and commitment to human rights From the perspective of the Third World where ever greater debt leads to ever greater death Nelson Pallmeyer shows how the new world order is only a new way of managing the old world order the misery of the poor will continue to sustain the appetites of the rich Parallel to the increased pauperization of the Third World the 1980s saw the massive transfer of wealth within the United States from the poor to the very wealthy The consequences the decay of our cities and dramatic increases in racial violence drug abuse and crime At the same time the impending ecological crisis has escalated rapidly Finally Nelson Pallmeyer turns his attention to the role of Christians in blessing the new world order Appalled by the abuse of religious rhetoric in justification of the Gulf War he examines how Jesus confronted the world order of his day and calls for a radical discipleship that worships the God of life rather than the idols of power and wealth
