Space Science and Public Engagement Amy Paige Kaminski, 2021-06-04 Space Science and Public Engagement 21st Century

Perspectives and Opportunities critically examines the many dimensions of public engagement with space science by exploring case studies that show a spectrum of public engagement formats ranging from the space science community's efforts to communicate developments to the public to citizenry attempting to engage with space science issues. It addresses why public engagement is important to space science experts, what approaches they take, how public engagement varies locally, nationally, and internationally, and what roles non-experts have played in shaping space science. Space scientists, outreach specialists in various scientific disciplines, policymakers, and citizens interested in space science will find great insights in this book that will help inform their future engagement strategies. Critically examines how expert organizations and the space science community have sought to bring space science to the public. Examines how the public has responded and in some cases self-organized to opportunities to contribute to space science. Outlines future engagement interests and possibilities.

The Healing Heart—Families Allison M. Cox, David H. Albert, 2009-03-01. Stories and narratives aimed at helping families work through an array of subjects like health, illness, grief, adoption, sexual identity, and school. The Healing Heart provides powerful examples of the use of stories and storytelling in encouraging resiliency, empathy, respect, and healing. These engaging books contain stories and narratives about the use of the stories in activities with different populations: children, teens, those with disabilities, seniors, inmates, etc., or which address specific social or community problems: addictions, poverty, violence, racism, environmental degradation, homelessness, abuse. The books are a collective effort containing the expertise of more than 60 storytellers and health professionals who illustrate the power of story in moving others to commitment and action in building self-esteem and mutual respect. The Healing Heart Families focuses on families dealing specifically with healing through story, health promotion, disease prevention, early childhood intervention, children with medical problems, adopting families, schools, sexual identities, grief, and spiritual healing. The Healing Heart Communities focuses on community building with sections on youth violence prevention, poverty, domestic violence, substance abuse, and addiction, racism, elders, culture, environmental protection, homelessness, and community development. Praise for The Healing Heart Families: Both children and adults, sick or well, need the embrace of soulful storytelling. They need to witness and be witnessed for it is in this state that healing occurs. If newscasters were to read aloud each night to their listeners for 1,001 nights, one of the stories from this treasury, we would all be healed and lose our fear, recapturing real security in our homeland. N. Michael Murphy, MD, author of The Wisdom of Dying. An extraordinary work. Hit the bull's eye by providing both process and practice. Thought-provoking and insightful theory is intertwined with appropriate stories for direct application. It makes clear that story can be a powerful catalyst for change, giving eloquent voice to what many of us have known for some time but have been unable to express. What a gift for those who work with families. Elizabeth Ellis, co-author of Inviting the Wolf In Thinking about Difficult Stories.

Future Has Other Plans Jon Kohl, Steve McCool, 2016-12-01. Crisis has enveloped the more than 200,000 nationally and regionally protected natural and cultural heritage sites around the world.

Heritage managers those who manage natural sites such as national parks wilderness areas and biosphere reserves as well as those who manage cultural sites including historic monuments battlefields heritage cities and ancient rock art sites face an urgent need to confront this crisis and each day that they don't more of our planet's common heritage disappears Although heritage management and implementation suffer from a lack of money time personnel information and political will The Future Has Other Plans argues that deeper causes to current problems lurk in the discipline itself Drawing on decades of practical experience in global heritage management and case studies from around the world Jon Kohl and Steve McCool provide an innovative solution for conserving these valuable protected areas Merging interdisciplinary and evolving management paradigms the authors introduce a new kind of holistic planning approach that integrates the practice of heritage management and conservation with operational realities Where the Rain Children Sleep ,2010-05-01 Written in the tradition of Edward Abbey and Terry Tempest Williams this collection of essays inspired by a year spent hiking 120 desert canyons explores the sacred geography of the West discussing a wide range of issues from bears to spatial intelligence *Journal of Interpretation Research* ,2001 *Interpretation of Cultural and Natural Resources* Douglas M.
