ten even twenty and more years They have bucked the trend that has seen so many teachers leaving the profession after three years or fewer The authors sought to discover why these teachers chose to stay in the profession The emerging answer to the question is that these teachers learned and employed practices of passionate teachers and honed the practices until they became a habit a habit of passionate teaching The authors highlight the importance of practices that veteran teachers shared during interviews and focus group sessions One practice is reflecting Teachers reported the importance of reflecting before during and after teaching in order to help them focus on student learning Another practice is nurturing relationships Teachers shared that building positive relationships with their students was an essential practice The practice of engaging in an action research mindset was also listed as an important practice Teachers were clear that having a question or wondering about student learning was crucial Yet another practice is seeking the perspective of their own students in their journey to the habit of passionate teaching Seeking the student perspective was an essential element of their teaching practice Teachers shared how they sought and acted on the student perspective in both formal and informal ways Finally the practices of listening and questioning were described as being threaded throughout these teachers professional lives Listening was crucial in understanding the student perspective and helped create a classroom culture that led to teachers and students being partners in learning Questioning was described in a very specific way in the context of this book Teachers explained the importance of asking questions they did not know the answer to as an important way to emphasize that answers lay in exploration not in the teacher s head Learning and employing practices of passionate teachers is not an easy process Teacher anecdotes and examples clearly demonstrated a commitment of these veteran teachers to being lifelong learners The teachers whose words are shared throughout this book were clear that being a good teacher means always inquiring about what is working and what isn t and making the necessary adjustments This book is built around stories and insights of teachers who have made a commitment to the habit of passionate teaching This book includes important ideas that teachers reported were key to filling them with hope and helping them understand what it means to be a good teacher In addition the teachers and authors share specific strategies practices and protocols that can be adapted for elementary secondary and post secondary classrooms This book describes the craft knowledge of the authors and veteran teachers in hopes that other educators can build on the ideas and in the future share their own craft knowledge

Authority, Passion, and Subject-Centered Teaching Christopher J. Richmann,2024-08-27 This book asserts that authority is a contested category and explores why traditional notions of authority are increasingly in tension with progressive and postmodern claims devolving into stalemate schizophrenia or power plays Offering a Christian framework as a philosophically coherent and practical alternative for teachers the author argues that Jesus provides a pattern from which to reconstruct our conception of teaching authority in ways that align with evidence informed teaching practices and cultivate intellectual virtues Rather than examine Jesus as teacher the book instead applies the central insight on authority that Jesus embodies This authority with which Jesus taught it argues stemmed from his passion that is passive even suffering experience The author aligns this to a subject centered conception of teaching as opposed to student centered or teacher centered in which the subject is the authority and knowing is identified with being acted upon by the subject Teaching with authority thereby becomes a matter of unveiling suffering with students and inviting them into their own suffering encounter with the subject Building on the work on Parker Palmer and exploring pedagogical practice from a Christian perspective this book will appeal to scholars and researchers with interests in higher education evidence based teaching educational theory religion and education and Christian history and thought

Resilient Teachers, Resilient Schools Christopher Day, Qing Gu, 2013-12-17 This book unpicks the complex dynamic blend of individuals psychological and professional assets workplace conditions and leadership support which enable teachers who stay in teaching to continue to make a difference in their careers regardless of shifts in policy workplace professional and personal circumstances Whilst much has been written over the years about teacher stress and burnout there is very little research which reports on the conditions which are essential for teachers to sustain their commitment and effectiveness over their professional lives in contexts of challenge and change Drawing upon a range of educational psychological socio cultural and neuro scientific research together with vivid accounts from teachers in a variety of primary and secondary schools internationally and from their own research on teachers work and identities the authors discuss the dynamic nature forms and practices of teacher resilience They argue that resilience in teachers is not only their ability to bounce back in extremely adverse circumstances but that it is the capacity of teachers for everyday resilience which enables them to sustain their commitment and effectiveness in responding positively to the unavoidable uncertainties inherent of their professional lives The authors conclude that resilience in teachers can be nurtured by the intellectual social and organisational environments in which teachers work and live rather than being simply a personal attribute or trait determined by nature Resilient Teachers Resilient Schools will be of key interest to policy makers head teachers teachers and training and development organisations who wish to improve quality and standards in schools
