**The Passions** Robert C. Solomon,1993-01-01 An abridged reprint of the Doubleday edition of 1976 with new preface and conclusion by the author      *The Passions* Robert C. Solomon,1976 An abridged reprint of the Doubleday edition of 1976 with new preface and conclusion by the author      **From Passions to Emotions** Thomas Dixon,2003-06-05 Today there is a thriving emotions industry to which philosophers psychologists and neuroscientists are contributing Yet until two centuries ago the emotions did not exist In this path breaking study Thomas Dixon shows how during the nineteenth century the emotions came into being as a distinct psychological category replacing existing categories such as appetites passions sentiments and affections By examining medieval and eighteenth century theological psychologies and placing Charles Darwin and William James within a broader and more complex nineteenth century setting Thomas Dixon argues that this domination by one single descriptive category is not healthy Overinclusivity of the emotions hampers attempts to argue with any subtlety about the enormous range of mental states and stances of which humans are capable This book is an important contribution to the debate about emotion and rationality which has preoccupied western thinkers throughout the eighteenth and nineteenth centuries and has implications for contemporary debates      *Religion and the Meaning of Life* Clifford Williams,2020-04-09 As humans we want to live meaningfully yet we are often driven by impulse In *Religion and the Meaning of Life* Williams investigates this paradox one with profound implications Delving into felt realities pertinent to meaning such as boredom trauma suicide denial of death and indifference Williams describes ways to acquire meaning and potential obstacles to its acquisition This book is unique in its willingness to transcend a more secular stance and explore how one's belief in God may be relevant to life's meaning *Religion and the Meaning of Life's* interdisciplinary approach makes it useful to philosophers religious studies scholars psychologists students and general readers alike The insights from this book have profound real world applications they can transform how readers search for meaning and consequently how readers see and exist in the world      *The Mind's Affective Life* Gemma Fiumara Corradi,2014-06-11 *The Mind's Affective Life* is a refreshing and innovative examination of the relationship between feeling and thinking Our thoughts and behaviour are shaped by both our emotions and reason yet until recently most of the literature analysing thought has concentrated largely on philosophical reasoning and neglected emotions This book is an original and provocative contribution to the rapidly growing literature on the neglected affective dimensions of modern thought The author draws on contemporary psychoanalysis philosophy feminist theory and recent innovations in neuroscience to argue that in order to understand thought we need to consider not only both emotional and rational aspects of thought but also the complex interactions between these different aspects Only through such a rich and complicated understanding of modern thought can we hope to avoid what the author identifies as a significant contemporary problems for individuals and cultures that is suppression or denial of intolerable states of feeling *The Mind's Affective Life* will appeal to and inspire students and practitioners of philosophy psychoanalysis psychotherapy

and women's studies It will also be of great interest to anyone interested in the interaction of feeling and thinking

**Meaning in Life** Thaddeus Metz, 2013-11-07 What makes a person's life meaningful Thaddeus Metz offers a new answer to an ancient question which has recently returned to the philosophical agenda He proceeds by examining what if anything all the conditions that make a life meaningful have in common The outcome of this process is a philosophical theory of meaning in life He starts by evaluating existing theories in terms of the classic triad of the good the true and the beautiful He considers whether meaning in life might be about such principles as fulfilling God's purpose obtaining reward in an afterlife for having been virtuous being attracted to what merits attraction leaving the world a better place connecting to organic unity or transcending oneself by connecting to what is extensive He argues that no extant principle satisfactorily accounts for the three-fold significance of morality enquiry and creativity and that the most promising theory is a fresh one according to which meaning in life is a matter of intelligence contoured toward fundamental conditions of human existence **The**

Garrett Thomson, Scherto Gill, Ivor Goodson, 2020-09-24 Well-being studies is an exciting and relatively new multi-disciplinary field with data being gathered from different domains in order to improve social policies In its reliance on a truncated account of well-being based implicitly on neoclassical economic assumptions however the field is deeply flawed Departing from reductive accounts of well-being that exclude the normative or evaluative aspect of the concept and so impoverish the

attendant conception of human life this book offers a new perspective on what counts normatively as being well In reconceptualising well being holistically it presents a fresh vista on how we can consider the meanings of human life in a manner that also serves as a source of constructive social critique The book thus undertakes to invert the usual approach to the social sciences in which the research is required to be objective in terms of methodology and subjective with regard to evaluative claims Instead the authors are deliberately objective about values in order to be more open to the subjectivities of human life Happiness Flourishing and the Good Life thus seeks to move away from economic considerations domination of all social spaces in order to understand the possibilities of well being beyond instrumentalisation or commodification A radical new approach to the human well being this book will appeal to philosophers social theorists and political scientists and all who are interested in human happiness Literature and Transformation Thor Magnus Tanagerås,2020-02-19 This book develops a method called intimate reading to investigate how ordinary readers are deeply moved by what they read and the transformative impact such experiences have on their sense of self The book presents unique narratives of such experiences and suggests a theory of transformative affective patterns that may form the basis of an affective literary theory **English**

Fischer,Iris K. Schneider,2016-08-11 Emotion is a defining aspect of the human condition Emotions pervade our social and professional lives they affect our thinking and behavior and they profoundly shape our relationships and social interactions Emotions have traditionally been conceptualized and studied as individual phenomena with research focusing on cognitive and expressive components and on physiological and neurological processes underlying emotional reactions Over the last two decades however an increasing scholarly awareness has emerged that emotions are inherently social that is they tend to be elicited by other people expressed at other people and regulated to influence other people or to comply with social norms Fischer Keltner Parkinson 1996 Van Kleef 2009 Despite this increasing awareness the inclusion of the social dimension as a fundamental element in emotion research is still in its infancy Fischer Doosje Branscombe Spears Fischer Hess Mesquita Tiedens 2001 The third set of questions has to do with the ways in which people respond to the emotional expressions of others and how such responses are shaped by the social

context Studies have shown that emotional expressions can influence the behavior of others for instance in group settings Barsade 2002 Cheshin Rafaeli Heerdink Van Kleef Homan Van Kleef De Dreu Van Kleef Homan Beersma Van Knippenberg 2010 This Research Topic centers around these and related questions regarding the social nature of emotions thereby highlighting new research opportunities and guiding future directions in the field We bring together a collection of papers to provide an encyclopedic open access snapshot of the current state of the art of theorizing and research on the social nature of emotion The state of the art work that is presented in this e book helps advance the understanding of the social nature of emotions It brings together the latest cutting edge findings and thoughts on this central topic in emotion science as it heads toward the next frontier

**Moral Markets** Paul J. Zak, 2010-12-16 Like nature itself modern economic life is driven by relentless competition and unbridled selfishness Or is it Drawing on converging evidence from neuroscience social science biology law and philosophy Moral Markets makes the case that modern market exchange works only because most people most of the time act virtuously Competition and greed are certainly part of economics but Moral Markets shows how the rules of market exchange have evolved to promote moral behavior and how exchange itself may make us more virtuous Examining the biological basis of economic morality tracing the connections between morality and markets and exploring the profound implications of both Moral Markets provides a surprising and fundamentally new view of economics one that also reconnects the field to Adam Smith's position that morality has a biological basis Moral Markets the result of an extensive collaboration between leading social and natural scientists includes contributions by neuroeconomist Paul Zak economists Robert H Frank Herbert Gintis Vernon Smith winner of the 2002 Nobel Prize in economics and Bart Wilson law professors Oliver Goodenough Erin O'Hara and Lynn Stout philosophers William Casebeer and Robert Solomon primatologists Sarah Brosnan and Frans de Waal biologists Carl Bergstrom Ben Kerr and Peter Richerson anthropologists Robert Boyd and Michael Lachmann political scientists Elinor Ostrom and David Schwab management professor Rakesh Khurana computational science and informatics doctoral candidate Erik Kimbrough and business writer Charles Handy

*From Aldersgate to Azusa Street* Henry H. Knight, 2010-08-11 Historians have noted the connections between the Wesleyan Methodist movement that began in the eighteenth century the emergence of African American Methodist traditions and an interdenominational Holiness movement in the nineteenth century and the birth of Pentecostalism in the twentieth century This volume written by historians theologians and pastors builds on that earlier work The contributors present a diverse array of key figures denominational leaders and mavericks institutional loyalists and outsiders clergy and laity who embodied these movements The authors show that in spite of

their differing historical and cultural contexts these movements constitute a distinct theological family whose confident and expectant faith in the transforming power of God has significant implications for the renewal of the contemporary church and its faithfulness to God's mission in the world today Contributors Corky Alexander Estrela Alexander Kimberly Ervin Alexander Leslie D Callahan Barry L Callen Douglas R Cullum Dennis C Dickerson D William Faupel Philip Hamner David Aaron Johnson J C Kelley Henry H Knight III William C Kostlevy Diane K Leclerc Joshua J McMullen Rodney McNeall Stephen W Rankin Harold E Raser Douglas M Strong Matthew K Thompson Wallace Thornton Jr L F Thuston Arlene Sanchez Walsh Steven J Land Laura Guy John H Wigger

The Emotional Life of Postmodern Film Pansy Duncan, 2015-11-19 Emotion and Postmodernism is it possible to imagine an odder couple stranger bedfellows less bad company The Emotional Life of Postmodern Film brings this unlikely pair into sustained dialogue arguing that the interdisciplinary body of scholarship currently emerging under the rubric of affect theory may be unexpectedly enriched by an encounter with the field that has become its critical other Across a series of radical re appraisals of canonical postmodern texts from Fredric Jameson's Postmodernism to David Cronenberg's Crash Duncan shows that the same postmodern archive that has proven resistant to strongly subject based and object oriented emotions like anger and sadness proves all too congenial to a series of idiosyncratic borderline emotions from knowingness fascination and bewilderment to boredom and euphoria The analysis of these emotions in turn promises to shake up scholarly consensus on two key counts On the one hand it will restructure our sense of the place and role of emotion in a critical enterprise that has long cast it as the stodgy subjective sister of a supposedly more critically interesting and politically productive affect On the other it will transform our perception of postmodernism as a now historical aesthetic and theoretical moment teaching us to acknowledge more explicitly and to name more clearly the emotional life that energizes it

**Emotional Self-Knowledge** Alba Montes Sánchez, Alessandro Salice, 2023-04-13 This volume sheds light on the affective dimensions of self knowledge and the roles that emotions and other affective states play in promoting or obstructing our knowledge of ourselves It is the first book specifically devoted to the issue of affective self knowledge The relation between self knowledge and human emotions is an often emphasized but poorly articulated one While philosophers of emotion tend to give affectivity a central role in making us who we are the philosophical literature on self knowledge focuses overwhelmingly on cognitive states and does not give a special place to the emotions Currently there is little dialogue between both fields or with other philosophical traditions that have important contributions to make to this topic such as phenomenology and Asian philosophy This volume brings together philosophers from the relevant fields to explore two related sets of questions First do philosophers of emotion exaggerate the importance of our affective lives in making us who we are Or is it philosophers of self knowledge who misunderstand emotions Second what is the role of emotions in self knowledge What sort of self knowledge can be secured by paying attention to our emotions Emotional Self Knowledge is an essential resource for researchers and advanced students working on philosophy of

emotion philosophy of mind epistemology philosophical psychology and phenomenology Chapter 1 and Chapter 10 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

*Philosophy, Humor, and the Human Condition*  
Lydia Amir, 2019-12-19

This book presents an original worldview Homo risibilis wherein self-referential humor is proposed as the path leading from a tragic view of life to a liberating embrace of human ridicule. Humor is presented as a conceptual tool for holding together contradictions and managing the unresolvable conflict of the human condition till Homo risibilis resolves the inherent tension without epistemological cost. This original approach to the human condition allows us to effectively address life's ambiguities without losing sight of its tragic overtones and brings along far-ranging personal and social benefits. By defining the problem that other philosophies and many religions attempt to solve in terms we can all relate to, Homo risibilis enables an understanding of the Other that surpasses mere tolerance. Its egalitarian vision roots an ethic of compassion without requiring metaphysical or religious assumptions and liberates the individual for action on others' behalf. It offers a new model of rationality which effectively handles and eventually resolves the tension between oneself, others, and the world at large. Amir's view of the human condition transcends the field of philosophy of humor. An original worldview that fits the requirements of traditional philosophy, Homo risibilis is especially apt to answer contemporary concerns. It embodies the minimal consensus we need in order to live together and the active role philosophy should responsibly play in a global world. Here developed for the first time in a complete way, the Homo risibilis worldview is not only liberating in nature but also illuminates the shortcomings of other philosophies in their attempts to secure harmony in a disharmonious world for a disharmonious human being.
