**Spinoza in Twenty-First-Century American and French Philosophy** Jack Stetter, Charles Ramond, 2019-02-07 Over recent decades Spinoza scholarship has significantly developed in both France and the United States shedding new light on the work of this major philosopher Spinoza in Twenty First Century American and French Philosophy systematically unites for the first time American and French Spinoza specialists in conversation with each other illustrating the fecundity of bringing together diverse approaches to the study of Early Modern philosophy Spinoza in Twenty First Century American and French Philosophy gives readers a unique opportunity to discover the most consequential and sophisticated aspects of American and French Spinoza research today Featuring chapters by American scholars with French experts responding to these the book is structured according to the themes of Spinoza's philosophy including metaphysics philosophy of mind moral philosophy and political philosophy The contributions consider the full range of Spinoza's philosophy with chapters addressing not only the Ethics but his lesser

known early works and political works as well. Issues covered include Spinoza's views on substance and mode, his conception of number, his account of generosity as freedom, and many other topics. Persons and Passions Joyce Jenkins, Jennifer Whiting, Christopher Williams, 2005. The essays in this collection, written in honor of noted philosopher Annette Baier, reflect the influence of her work in the area of philosophical naturalism. Naturalism has ethical and epistemological implications that often run contrary to the rationalist tendencies of academic philosophy. These essays collectively examine the four main themes of Baier's naturalism: a general resistance to thinking of persons atomistically; the importance of trust between persons and the mutual dependence of persons; the positive role of emotions in human judgment; and the modes of self-correction available to persons so conceived. Many of the contributors to this volume take a historical approach, dealing particularly with Descartes and Hume. Others develop Baier's naturalistic themes for feminist philosophical purposes. All of these essays offer original and sometimes polemical insights into the history of philosophy. This collection will be welcomed by philosophers, ethicists, feminists, and political theorists. **Fatima : a Dream of Passion** Abi S. Jackman, 1889
