Passions And Constraints On The Theory Of Liberal Democracy

Richard J. Ellis

Passions And Constraints On The Theory Of Liberal Democracy:

Passions and Constraint Stephen Holmes, 1995-06 Holmes argues that the aspirations of liberal democracy including individual liberty the equal dignity of citizens and a tolerance for diversity are best understood in relation to two central themes of classical liberal theory the psychological motivations of individuals and the necessary constraints on individual passions provided by robust institutions Paradoxically Holmes argues such institutional restraints serve to enable rather than limit or dilute effective democracy

Liberal Democracies and the Torture of Their Citizens Cynthia Banham, 2017-02-09 This book analyses and compares how the USA's liberal allies responded to the use of torture against their citizens after 9/11 Did they resist tolerate or support the Bush Administration's policies concerning the mistreatment of detainees when their own citizens were implicated and what were the reasons for their actions Australia the UK and Canada are liberal democracies sharing similar political cultures values and alliances with America yet they behaved differently when their citizens caught up in the War on Terror were tortured How states responded to citizens human rights claims and predicaments was shaped in part by demands for accountability placed on the executive government by domestic actors This book argues that civil society actors in particular were influenced by nuanced differences in their national political and legal contexts that enabled or constrained human rights activism It maps the conditions under which individuals and groups were more or less likely to become engaged when fellow citizens were tortured focusing on national rights culture the domestic legal and political human rights framework and political opportunities

Poisoning the Minds of the Lower Orders Donald Herzog, 2021-04-13 Conservatism was born as an anguished attack on democracy So argues Don Herzog in this arrestingly detailed exploration of England's responses to the French Revolution Poisoning the Minds of the Lower Orders ushers the reader into the politically lurid world of Regency England Deftly weaving social and intellectual history Herzog brings to life the social practices of the Enlightenment In circulating libraries and Sunday schools deferential subjects developed an avid taste for reading in coffeehouses alehouses and debating societies they boldly dared to argue about politics Such conservatives as Edmund Burke gaped with horror fearing that what radicals applauded as the rise of rationality was really popular stupidity or worse Subjects insisted conservatives ought to defer to tradition and be comforted by illusions Urging that abstract political theories are manifest in everyday life Herzog unflinchingly explores the unsavory emotions that maintained and threatened social hierarchy Conservatives dished out an unrelenting diet of contempt But Herzog refuses to pretend that the day's radicals were saints Radicals he shows invested in contempt as enthusiastically as did conservatives Hairdressers became newly contemptible even a cultural obsession Women workers Jews and blacks were all abused by their presumed superiors Yet some of the lowly subjects Burke had the temerity to brand a swinish multitude fought back How were England's humble subjects transformed into proud citizens And just how successful was the transformation At once history and political theory absorbing and disquieting Poisoning the Minds of the Lower Orders challenges our own

commitments to and anxieties about democracy Routledge Handbook of Illiberalism András Sajó, Renáta Uitz, Stephen Holmes, 2021-11-29 The Routledge Handbook of Illiberalism is the first authoritative reference work dedicated to illiberalism as a complex social political cultural legal and mental phenomenon Although illiberalism is most often discussed in political and constitutional terms its study cannot be limited to such narrow frames This Handbook comprises sixty individual chapters authored by an internationally recognized group of experts who present perspectives and viewpoints from a wide range of academic disciplines Chapters are devoted to different facets of illiberalism including the history of the idea and its competitors its implications for the economy society government and the international order and its contemporary iterations in representative countries and regions The Routledge Handbook of Illiberalism will form an important component of any library s holding it will be of benefit as an academic reference as well as being an indispensable resource for practitioners among them journalists policy makers and analysts who wish to gain an informed understanding of this complex phenomenon

The Dark Side of the Left Richard J. Ellis, 1998 Political correctness idealizing the oppressed and an affinity for authoritarian and charismatic leaders are all parts of what Ellis calls the dark side of the left **The Oxford Handbook of Populism** Cristóbal Rovira Kaltwasser, Paul A. Taggart, Paulina Ochoa Espejo, Pierre Ostiguy, 2017-11-09 Populist forces are becoming increasingly relevant across the world and studies on populism have entered the mainstream of the political science discipline However so far no book has synthesized the ongoing debate on how to study the populist phenomenon This handbook provides state of the art research and scholarship on populism and lays out not only the cumulated knowledge on populism but also the ongoing discussions and research gaps on this topic The Oxford Handbook of Populism is divided into four sections The first presents the main conceptual approaches on populism and points out how the phenomenon in question can be empirically analyzed The second focuses on populist forces across the world and includes chapters on Africa Australia and New Zealand Central and Eastern Europe East Asia India Latin America the Post Soviet States the United States and Western Europe The third reflects on the interaction between populism and various relevant issues both from a scholarly and political point of view Amongst other issues chapters analyze the relationship between populism and fascism foreign policy gender nationalism political parties religion social movements and technocracy Finally the fourth part includes some of the most recent normative debates on populism including chapters on populism and cosmopolitanism constitutionalism hegemony the history of popular sovereignty the idea of the people and socialism The handbook features contributions from leading experts in the field and is indispensable positioning the study of populism in political science Lord Sumption and the Limits of the Law Richard Ekins, Paul Yowell, NW Barber, 2016-02-25 In Lord Sumption and the Limits of the Law leading public law scholars reflect on the nature and limits of the judicial role and its implications for human rights protection and democracy The starting point for this reflection is Lord Sumption s lecture The Limits of the Law which grounds a wide ranging discussion of questions including the scope and legitimacy of judicial law making the interpretation of the European

Convention on Human Rights and the continuing significance and legitimacy or otherwise of the European Court of Human Rights Lord Sumption ends the volume with a substantial commentary on the responses to his lecture

Prospects for Constitutionalism in Post-Communist Countries Levent Gönenç, 2002-06-18 The last decade of the 20th century saw radical changes in Eastern Europe and the former USSR Most of these countries made a transition from totalitarianism or authoritarianism to democracy and from central planning to a market economy Adding to the latter a number of national entities gained their independence after the disintegration of the federative states of the USSR Yugoslavia and Czechoslovakia Many recent studies have focused on these double in some cases triple transitions and scholars from different fields analyzed the so called 1989 Revolution from different perspectives Rather less scholarly attention has been paid to the future of post communist constitutions and prospects for constitutionalism in these countries The main questions dealt with throughout this study can be formulated as follows Will liberal democratic constitutionalism take root in these countries Will new constitutions in Eastern Europe and the former USSR perish or survive This study also aims at contributing to the construction of a general constitutional theory by studying the causes and dynamics of constitutional change in general Such constitutional change is not only on the East European but also on the West European agenda The purpose of this study is not to introduce a general theory about constitutional in stability but studying post communist constitutions will help us to understand the causes and dynamics of constitutional change from a broader perspective

Global Governmentality Wendy Larner, William Walters, 2004-08-02 Foucault s thoughts on governmentality have made a significant impact on the studies of power and governance in modern societies However most studies of governmentality confine themselves to the exploration of power within nation states Global Governmentality extends Foucault s political thought towards international studies exploring the governance of the global the international the regional and many other extra domestic spaces Combining historical and contemporary outlooks this book offers innovative interdisciplinary explorations of such issues as international peacekeeping refugees political rationalities of security and neoliberalism the spatiality of globalization the genealogy of development and the ethical governance of corporate activity At a time when many of the geopolitical and economic certainties which framed international affairs are in flux Global Governmentality is suggestive of new territories and lines for international analysis It will be of interest to students and researchers of both governmentality and international studies

Eternity Clauses in Democratic Constitutionalism Silvia Suteu, 2021

Comparative constitutional law has a long and distinguished history in intellectual thought and in the construction at public law Political actors and the people who create or modify their constitutional orders often wish to learn from the experience and learning of others This cross fertilization and mutual interaction has only accelerated with the onset of globalization which has transformed the world into an interconnected web that facilitates dialogue and linkages across international and regional structures Oxford Comparative Constitutionalism seeks to publish scholarship of the highest quality in constitutional

law that deepens our knowledge of local national regional and global phenomena through the lens of comparative public law

Book jacket **Michel Foucault** David Owen, 2017-05-15 Michel Foucault was one of the twentieth century's most influential thinkers whose work has unsettled and transformed the field of social philosophy and the social sciences. The essays and articles selected for this volume are written by many of the most important of Foucault's interpreters and interlocutors and show the range of Foucault's influence and the debates it has provoked about Foucault's own approaches and in relation to substantive areas of social philosophy and social science such as power, critique, enlightenment, law, governance, ethics, and truthfulness. This volume provides a comprehensive introduction to and overview of the development of Foucault's thought and demonstrates its enduring significance on our understanding of how we have become what we are.

In the Name of Liberalism Desmond S. King, 1999 Why have British and North American governments adopted illiberal social policies during this century? *In the Name of Liberalism* investigates examples of social policy in Britain and the United States that conflict with liberal democratic ideals. The book examines the use of eugenic arguments in the 1920s and 1930s, the use of work camps in the 1930s as a response to mass unemployment, and the introduction of work for welfare programs since the 1980s. The book argues that existing accounts of American and British political development neglect how illiberal social policies are intertwined in the creation of modern liberal democratic institutions. Such policies are paradoxically justified in terms of the liberal democratic framework itself. In the light of the book's research, the author suggests that there is a need to know more about the internal workings of democracies to justify the claim that liberal democracy represents the most attractive set of political institutions.

Leadership, Populism, and Resistance Kristin M.S. Bezio, George R. Goethals, 2020-02-28 *Leadership, Populism, and Resistance* draws upon the study of history, politics, policy, media, virtue, and heroism to examine the ways in which populism and popular movements have evolved, what we have learned and failed to learn from them, how we depict and discuss them through popular media and the press, and finally how we can understand virtue and heroism as a consequence or reaction to populism and popularity.

Popular Sovereignty in Early Modern Constitutional Thought Daniel Lee, 2016-02-18 Popular sovereignty, the doctrine that the public powers of state originate in a concessive grant of power from the people, is the cardinal doctrine of modern constitutional theory, placing full constitutional authority in the people at large rather than in the hands of judges, kings, or a political elite. This book explores the intellectual origins of this influential doctrine and investigates its chief source in late medieval and early modern thought: the legal science of Roman law. Long regarded the principal source for modern legal reasoning, Roman law had a profound impact on the major architects of popular sovereignty such as Francisco Hotman, Jean Bodin, and Hugo Grotius. Adopting the juridical language of obligations, property, and personality, as well as the classical model of the Roman constitution, these jurists crafted a uniform theory that located the right of sovereignty in the people at large as the legal owners of state authority. In recovering the origins of popular sovereignty, the book demonstrates the importance of the Roman law as a chief source of

modern constitutional thought **Publius and Political Imagination** Jason Frank, 2013-12-05 Jason Frank's *Publius and Political Imagination* is the first volume of the *Modernity and Political Thought* series to take as its focus not a single author but collaboration between political thinkers in this very special case the collective known by the pseudonym Publius Frank's revisionist reading of *The Federalist Papers* perhaps the most canonical text in American political thought counters familiar realist and deliberativist interpretations and demonstrates the neglected importance of political imagination to both Publius's arguments and to the republic he was invented to found *Questions of Tradition* Mark Salber Phillips, Mark Phillips, Gordon J. Schochet, 2004-01-01 Tradition is a central concern for a wide range of academic disciplines interested in problems of transmitting culture across generations Yet the concept itself has received remarkably little analysis A substantial literature has grown up around the notion of invented tradition but no clear concept of tradition is to be found in these writings since the very notion of invented tradition presupposes a prior concept of tradition and is empty without one this debunking usage has done as much to obscure the idea as to clarify it In the absence of a shared concept the various disciplines have created their own vocabularies to address the subject Useful as they are these specialized vocabularies of which the best known include hybridity canonicity diaspora paradigm and contact zones separate the disciplines and therefore necessarily create only a collection of parochial and disjointed approaches Until now there has been no concerted attempt to put the various disciplines in conversation with one another around the problem of tradition Combining discussions of the idea of tradition by major scholars from a variety of disciplines with synoptic synthesizing essays *Questions of Tradition* will initiate a renewal of interest in this vital subject **Lawyers and the Rule of Law** Andrew Boon, 2022-10-20 This book examines lawyers' contributions to creating and maintaining the rule of law one of the pillars of a liberal democracy It moves from the European Enlightenment to the modern day exploring the role of judges government lawyers and private practitioners in creating defining and being defined by the demands of modern society The book is divided into 4 parts representing the big themes The first part considers lawyers' contribution to the growth of constitutionalism the second the formulation of roles and identities and the third the formation of values The fourth part focuses on the challenges faced by lawyers and the rule of law in the past 50 years the neoliberal period and how they challenge both conceptions of lawyers and the rule of law Each part is illustrated by defining events from the execution of Charles I through the Nuremberg Trials to the insurrection by supporters of Donald Trump in January 2021 Although the focus is on England and Wales parallel developments in other jurisdictions Australia Canada New Zealand and the USA are considered This allows analysis of lawyers' historical and contemporary engagement with the rule of law in jurisdictional systems based on the Common Law Each chapter is thematic but the passage through the book is broadly chronological *After Victory* G. John Ikenberry, 2019-04-16 The end of the Cold War was a big bang reminiscent of earlier moments after major wars such as the end of the Napoleonic Wars in 1815 and the end of the World Wars in 1919 and 1945 Here John Ikenberry asks the question what do states that win wars do with

their newfound power and how do they use it to build order In examining the postwar settlements in modern history he argues that powerful countries do seek to build stable and cooperative relations but the type of order that emerges hinges on their ability to make commitments and restrain power The author explains that only with the spread of democracy in the twentieth century and the innovative use of international institutions both linked to the emergence of the United States as a world power has order been created that goes beyond balance of power politics to exhibit constitutional characteristics The open character of the American polity and a web of multilateral institutions allow the United States to exercise strategic restraint and establish stable relations among the industrial democracies despite rapid shifts and extreme disparities in power Blending comparative politics with international relations and history with theory After Victory will be of interest to anyone concerned with the organization of world order the role of institutions in world politics and the lessons of past postwar settlements for today Back Cover

Management Ethics Stewart R. Clegg, Carl Rhodes, 2012-11-12 Ethics has become big business but have businesses become ethical This is a central question for today s managers Managing ethics is critical in an era characterized by unprecedented corporate power and a myriad of competing ethical traditions Giving new insights into the understanding of ethics for today s organization practice and managerial behaviour this timely volume edited by well respected industry authorities provides an overview and critique of ethics as they relate to contemporary challenges and issues such as globalization sustainability consumerism neo liberalism corporate collapses leadership and corporate regulation This book an essential read for postgraduate students of business and ethics is organized around the core question What are the ethics of organizing in today s institutional environment and what does this mean for the practice of management and the organization of business In response to this the contributors examine ethics as it is deeply embedded in the everyday practice of management Interdisciplinary contributions from the fields of sociology philosophy management organization studies and public administration provide unique perspectives while case studies and real life examples illustrate the challenges and dilemmas faced in practice Each chapter has a brief overview and editor s introduction which skilfully summarizes key points and draws connections between the chapters

Courts and Social Transformation in New Democracies Roberto Gargarella, Theunis Roux, 2017-03-02 Using case studies drawn from Latin America Africa India and Eastern Europe this volume examines the role of courts as a channel for social transformation for excluded sectors of society in contemporary democracies With a focus on social rights litigation in post authoritarian regimes or in the context of fragile state control the authors assess the role of judicial processes in altering or perpetuating social and economic inequalities and power relations in society Drawing on interdisciplinary expertise in the fields of law political theory and political science the chapters address theoretical debates and present empirical case studies to examine recent trends in social rights litigation

Passions And Constraints On The Theory Of Liberal Democracy Introduction

In the digital age, access to information has become easier than ever before. The ability to download *Passions And Constraints On The Theory Of Liberal Democracy* has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download *Passions And Constraints On The Theory Of Liberal Democracy* has opened up a world of possibilities. Downloading *Passions And Constraints On The Theory Of Liberal Democracy* provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading *Passions And Constraints On The Theory Of Liberal Democracy* has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download *Passions And Constraints On The Theory Of Liberal Democracy*. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading *Passions And Constraints On The Theory Of Liberal Democracy*. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading *Passions And Constraints On The Theory Of Liberal Democracy*, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download *Passions And Constraints On The Theory Of Liberal Democracy* has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it

offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Passions And Constraints On The Theory Of Liberal Democracy Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Passions And Constraints On The Theory Of Liberal Democracy is one of the best book in our library for free trial. We provide copy of Passions And Constraints On The Theory Of Liberal Democracy in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Passions And Constraints On The Theory Of Liberal Democracy. Where to download Passions And Constraints On The Theory Of Liberal Democracy online for free? Are you looking for Passions And Constraints On The Theory Of Liberal Democracy PDF? This is definitely going to save you time and cash in something you should think about.
