***Meditations for Every Situation and Occasion in Life*** Arnaud Aron, 1856      *Disguised Vices* Michael Moriarty, 2011-09-08 The notions of virtue and vice are vital components of the Western ethical tradition But in early modern France they were called into question as writers such as La Rochefoucauld argued that what appears as virtue is in fact disguised vice *Disguised Vices* analyses the underlying logic of such claims and explores what is at stake in them      *Putting On Virtue* Jennifer A. Herdt, 2012-05-09 This work reveals how a distrust of learned and habituated virtue shaped both early modern Christian moral reflection and secular forms of ethical thought The author's broad historical sweep takes in the Aristotelian tradition as taken up by Thomas Aquinas and has chapters on Luther Bunyan the Jansenists Hume and others

***The Monthly Mirror***, 1807      *The Monthly Mirror: Reflecting Men and Manners*, 1807      **v. 6. Joan of Naples. The man in the iron mask. ***From Thomas the Rhymer to Richard Gall*** James Grant Wilson, 1876      *The Poets and Poetry of Scotland from the Earliest to the Present Time* James Grant Wilson, 1876 Includes poetry ballads and dramatic works from 41 18th and 19th century Scottish authors      ***History as the Story of Freedom*** Clark Butler, 2021-11-15 The purpose of this book is to advance responsible rehabilitation of the speculative philosophy of history It challenges the idea popularized by thinkers such as and Claude Lévi Strauss and Jean-François Lyotard that historical meta-mythology and meta-narrative are philosophically obsolete As long as humanity viewed anthropologically lives by overarching narrative the quest for a version that survives rational criticism remains vital Here human rights serve as the key to unlock such a version Despite the fact that the Hegelian philosophy of history has often been derided something very similar currently functions as the official ideology of the world community the idea of history as the story of freedom This book does not retell the world historical story of

freedom Rather it uncovers it beginning with the current age of human rights and working backward through the great role model civilizations of history Its conclusion is that a forward retelling of the story of freedom as the story of human rights can be justified by dewesternizing the story The book contains critical responses from specialized scholars and representative of selected world cultures The volume includes illustrations and a guest Afterword by Donald Phillip Verene It is a companion volume to the author s Hegel s Logic Between History and Dialectic North western University Press 1996 *The Philosophy of Malebranche* William Curtis Swabey,1921

**Quotations, Prose and Poetical** Charles Noel Douglas,1917 [The Individual without Passions](#) Elena Pulcini,2012-08-09

*The Individual without Passions* Modern Individualism and the Loss of the Social Bond offers an innovative look at an extremely timely and important issue individualism from the point of view of a theory of passions This book underlines the importance of the problem of the passions in both forming individual identity and building the social bond Drawing inspiration from classic authors that represent fundamental milestones along the route of modern individualism from Montaigne to Hobbes from Locke to Smith from Rousseau to Tocqueville *The Individual without Passions* puts forward new hypotheses that contrast with the consolidated views of contemporary reflection both modern and postmodern Elena Pulcini argues that passions are crucial not only when they are strong homo oeconomicus but also when absent or weak homo democraticus in both cases producing pathological effects on the Self and the social bond Finally this book underlines that the image of the modern individual does not end with the egoistical passions and that it is possible to reactivate empathetic and solidaristic passions furthermore it proposes the hypothesis that the solidaristic passions go to fight the egoistical passions This hypothesis seems confirmed and is most evident in the phenomenon of the gift as interpreted by Marcel Mauss and his contemporary heirs the hidden testimony of a desire for belonging which enables us to propose a new figure of the individual homo reciprocus **Boundaries of Violence in Early Modern England** Samantha Dressel,Matthew

Carter,2023-08-25 This book explores the possibilities and limitations of violence on the Early Modern stage and in the Early Modern world This collection is divided into three sections Historical Violence Un-Comic Violence and Revenge Violence

This division allows scholars to easily find intertextual materials comic violence may function similarly across multiple comedies but is vastly different from most tragic violence While the source texts move beyond Shakespeare this book follows the classic division of Shakespeare's plays into history comedy and tragedy Each section of the book contains one chapter engaging with modern dramatic practice along with several that take textual or historical approaches This wide ranging approach means that the book will be appropriate both for specialists in Early Modern violence who are looking across multiple perspectives and for students or scholars researching texts or approaches

**Passion Is the Gale** Nicole Eustace, 2012-12-01 At the outset of the eighteenth century many British Americans accepted the notion that virtuous sociable feelings occurred primarily among the genteel while sinful and selfish passions remained the reflexive emotions of the masses from lower class whites to Indians to enslaved Africans Yet by 1776 radicals would propose a new universal model of human nature that attributed the same feelings and passions to all humankind and made common emotions the basis of natural rights In *Passion Is the Gale* Nicole Eustace describes the promise and the problems of this crucial social and political transition by charting changes in emotional expression among countless ordinary men and women of British America From Pennsylvania newspapers pamphlets sermons correspondence commonplace books and literary texts Eustace identifies the explicit vocabulary of emotion as a medium of human exchange Alternating between explorations of particular emotions in daily social interactions and assessments of emotional rhetoric's functions in specific moments of historical crisis from the Seven Years War to the rise of the patriot movement she makes a convincing case for the pivotal role of emotion in reshaping power relations and reordering society in the critical decades leading up to the Revolution As Eustace demonstrates passion was the gale that impelled Anglo Americans forward to declare their independence collectively at first and then finally as individuals

**Milton and the Reformation Aesthetics of the Passion** Erin Henriksen, 2009-11-23 Scholarship on Milton's view of God the Father and the Son has focused on the author's theological beliefs For Milton these are equally artistic questions and to address them this study considers the precedents in Christian art that provide models for portraying the divine within a reformed context Milton's revision of the passion tradition in his short poems of 1645 and his later epic poems substitutes a living obedient and subservient Son in place of late medieval representations of the crucifixion His alternative passion unfolds through a poetic vocabulary of fragmentation omission and restoration drawing on iconoclasm as an artistic strategy This study addresses the long standing question about Milton's avoidance of the crucifixion and contributes to the broader study of his reformed poetics

*Falsehood Disguised* Richard G. Hodgson, 1995 *Falsehood Disguised* analyzes La Rochefoucauld's ideas on truth and falsehood in the context of his views on self love on the passions and on vice and virtue It also explores his views on the subject in relation to what he sees as the extremely fragile foundations of the social contract It examines these thorny ethical problems first in the context of the Baroque culture that directly influenced his thought and then in the light of the work of other moralists including Gracian Daniel Dyke Descartes and the Jansenists Blaise Pascal and

Pierre Nicole Through close textual analysis of La Rochefoucauld's writings Richard Hodgson studies the moralist's use of metaphors such as the mask as well as his very personal concept of what constitutes an *être vrai* or genuine person The study then traces the impact of La Rochefoucauld's ideas on thinkers from Vauvenargues and Chamfort to Nietzsche Lautreamont and Lacan It concludes by suggesting reasons why La Rochefoucauld's concept of truth continues to have such enormous appeal to the modern reader
