Past In Contemporary Society:

The Past in Contemporary Society Peter J. Fowler, 1995 **The Past in Contemporary Society: Then, Now** Peter Fowler, 2017-06-30 First published in 2002 Routledge is an imprint of Taylor and Francis an informa company Invisible Crisis of Contemporary Society Bernard S Phillips, Louis C. Johnston, 2015-12-03 Is there a growing gap in today's world between cultural aspirations and their fulfillment a gap that is increasing social problems of all kinds If so what forces are producing that gap How can these forces be changed To answer these questions Phillips and Johnston employ a very broad approach to the scientific method drawing evidence from a wide variety of data and sources including sociologists psychologists political scientists historians philosophers educators psychiatrists and novelists They find substantial evidence for a widening gap suggesting an invisible crisis throughout contemporary society They also find substantial evidence that a simplistic and static metaphysical stance or worldview is largely responsible for that gap and that an alternative worldview can work to close that gap People and their Pasts P. Ashton, H. Kean, 2008-12-11 In this innovative and original collection people are seen as active agents in the development of new ways of understanding the past and creating histories for the present Chapters explore forms of public history in which people's experience and understanding of their personal national and local pasts are part of their current lives **Currents of Archival Thinking** Heather MacNeil, Terry Eastwood, 2017-01-09 With new technologies and additional goals driving their institutions archives are changing drastically This book shows how the foundations of archival practice can be brought forward to adapt to new environments while adhering to the key principles of preservation and access Archives of all types are experiencing a resurgence evolving to meet new environments digital and physical and new priorities To meet those changes professional archivist education programs now one of the more active segments of LIS schools are proliferating as well This book identifies core archival theories and approaches and how those interact with major issues and trends in the field The essays explore the progression of archival thinking today discussing the nature of archives in light of present day roles for archivists and archival institutions in the preservation of documentary heritage Examining new conceptualizations and emerging frameworks through the lenses of core archival practice and theory the book covers core foundational topics such as the nature of archives the ruling concept of provenance and the principal functions of archivists discussing each in the context of current and future environments and priorities Several new essays on topics of central importance not treated in the first edition are included such as digital preservation and the influence of new technologies on institutional programs that facilitate archival access advocacy and outreach the changing legal context of archives and archival work and the archival collections of private persons and organizations Readers will also learn how communities of various kinds intersect with the archival mission and how other disciplines perspectives on archives can open new avenues Dissidents among Dissidents Ilya Budraitskis, 2022-01-18 How have the fall of the USSR and the long dominance of Putin reshaped Russian politics and culture

Ilya Budraitskis one of the country's most prominent leftist political commentators explores the strange fusion of free market ideology and postmodern nationalism that now prevails in Russia and describes the post Soviet evolution of its left. He incisively describes the twists and contradictions of the Kremlin's geopolitical fantasies which blend up to date references to information wars with nostalgic celebrations of the tsars of Muscovy. Despite the revival of aggressive Cold War rhetoric he argues the Putin regime takes its bearings not from any Soviet inheritance but from reactionary thinkers such as the White migr Ivan Ilyin. Budraitskis makes an invaluable contribution by reconstructing the forgotten history of the USSR's dissident left mapping an entire alternative tradition of heterodox Marxist and socialist thought from Khrushchev's Thaw to Gorbachev's perestroika. Doubly outsiders within an intelligentsia dominated by liberal humanists they offer a potential way out of the impasse between condemnations of the entire Soviet era and blanket nostalgia for Communist Party rule suggesting new paths for the left to explore.

Essays on Wittgenstein and Weininger Allan Janik, 2021-11-01 **Commemorative**

Identities Mary B. Spaulding, 2009-04-09 Commemorative Identities represents a significantly new approach to the issue of replacement abrogation vs continuation of Jewish thought patterns and practices among Jewish Christ followers as they are addressed by the Johannine author. Previous studies have been unable to elucidate a comprehensible argument to support continuation of commemoration in the face of explicit Temple replacement terminology in the Gospel. This study provides that argument based upon known sociological observations and models and direct comparative analysis with Jewish practices pre and post 70. Mary Spaulding's study will further invigorate scholarly debate concerning identity issues in the Fourth Gospel, a topic of significant interest among Johannine scholars today. More generally the origins of Christianity as portrayed in the Gospel of John are understood as a gradual unfolding of and differentiation among various Jewish groups post Second Temple rather than as an abrupt break from an established normative Judaism.

Developing Faithful Ministers Tim

Ling, 2013-01-25 *Developing Faithful Ministers* aims to support the work of all those involved in supervision and training relationships within the Church. The Church recognising its call to serve God and the nation seeks to equip and develop its ministers to face the challenge of ministry in a society at the threshold of Christendom that is in a mission context. It is a context where both the general public and the institutional church have significant expectations of those in ministry. Indeed there is now an expectation of demonstrable capability prior to being licensed to any form of permanent tenure. The demand for more professional demonstrably capable mission able and collaborative licensed ministers places particular weight on the efficacy of the initial training relationship. *Developing Faithful Ministers* seeks to support those who find themselves in these relationships by offering both models of good practice and sustained theological reflection on what these drivers mean for developing ministry.

Puppets of Nostalgia Jane Marie Law, 2015-03-08 *Puppets of Nostalgia* is the first major work in any Western language to examine the ritual origins and religious dimensions of puppetry in Japan. In a lucid and engaging style accessible to the general reader Jane Marie Law describes the life, death and rebirth of awaji ningyo shibai, the unique form of

puppet theater of Awaji Island that has existed since the sixteenth century Puppetry rites on Awaji helped to maintain rigid ritual purity codes and to keep dangerous spiritual forces properly channeled and appeased Law conducted fieldwork on Awaji located in Japan's Inland Sea over a ten year period In addition to being a detailed history and ethnography of this ritual tradition Law's work is at a theoretical level a study of the process and meaning of tradition formation reformation invention and revitalization It will interest scholars in a number of fields including the history of religions anthropology cultural studies ritual and theater studies Japanese studies and social history Focusing on the puppetry tradition of Awaji Island Puppets of Nostalgia describes the activities of the island's ritual puppeteers and includes the first English translation of their performance texts and detailed descriptions of their rites Because the author has lived on Awaji during extended periods of research the work includes fine attention to local detail and nuanced readings of religious currents in Japan that affect popular religious expression Illustrated throughout with rare photographs the book provides an in depth view of a four hundred year old tradition never so thoroughly revealed to Western readers Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Romanticism and Ideology David Aers,Jonathan Cook,David Punter,2016-03-31 First published in 1981 The primary purpose of this book is to serve as an introduction to writing in the late eighteenth and early nineteenth centuries In addition to major Romantic poets Blake Wordsworth Coleridge and Shelly the authors discuss writers such as Austen Hazlitt and Burke who are usually studied in a different context and genres such as fiction and political writing which are often cut off from the central body of poetry An original and highly stimulated study this book will appeal to all those who are dissatisfied with the conventional categories into which writers and literary movements are usually placed

Re-constructing Archaeology Michael Shanks,Christopher Tilley,2016-09-17 InRe Constructing Archaeology Shanks and Tilley aim to challenge the disciplinary practices of both traditional and the new archaeology and to present a radical alternative a critically self conscious archaeology aware of itself as practice in the present and equally a social archaeology that appreciates artefacts not merely as objects of analysis but as part of a social world of past and present that is charged with meaning It is a fresh and invigorating contribution to the emergence of a philosophically and politically informed archaeology

The Memorial Ethics of Libeskind's Berlin Jewish Museum Arleen Ionescu,2017-02-20 This book is a detailed critical study of Libeskind's Berlin Jewish Museum in its historical architectural and philosophical context Emphasizing how the Holocaust changed our perception of history memory witnessing and representation it develops the notion of memorial ethics to explore the Museum's difference from more conventional post World War Two commemorative

sites The main focus is on the Museum as an experience of the materiality of trauma which engages the visitor in a performative duty to remember Arleen Ionescu builds on Levinas's idea of ethics as optics to show how Libeskind's Museum becomes a testimony to the unrepresentable Other Ionescu also extends the Museum's experiential dimension by proposing her own subjective walk through Libeskind's space reimagined as a literary museum Featuring reflections on texts by Beckett Celan Derrida Kafka Blanchot Wiesel and Selma Meerbaum Eisinger Celan's cousin this virtual tour concludes with a brief account of Libeskind's analogous healing project for Ground Zero

The European Union and the Middle East Soren von Dosenrode, Anders Stubkjaer, 2002-08-06 The European Union and the Middle East presents a concise but thorough historical analysis of the relationship between the European Union and its predecessors and the Middle East from the early 1950s to the present day The authors provide a survey of the evolution of the foreign policy mechanisms of the EU and an outline of the relevant aspects of modern Middle East history They examine the relationship between the two regions from 1950 to the end of the Cold War with special emphasis on the period following the 1973-4 oil crisis They go on to look at the post Cold War era discussing the conflict with Iraq and examining the EU's continuing involvement in the Middle East peace process

Engineers within a Local and Global Society Caroline Baillie, 2022-05-31 Engineers Technology and Society presents topics intended to aid the practicing engineer in reflecting upon the nature and purpose of their own practice within the engineering profession and how that is related to and implicated in social economic and political issues The series will include external relations between engineering economic systems and social and political practices as well as power structures and working conditions within the organisation In an increasingly competitive and hostile environment in which practicing engineers are forced to spend their lives fighting for higher profit margins many engineers become despondent and often leave the profession just a few years after graduation They do not feel they are engineering for those in need in the world but for a small minority who can pay There are an increasing number of engineers in the workplace who feel dissatisfied with these issues but do not know where to begin to address them It is hoped that these books will start a conversation in many parts of the world where diverse engineers are working This introductory book of the series presents an overview of the key issues at stake I consider how as engineers we might decide what is the right thing to do by exploring rights and notions of freedom and what these might mean in a world where we are according to some training for compliance I consider engineering in the past and how it has been used to contribute to social contexts in the Western world as well as in developing countries I look at our responsibility as engineers to learn from the past to enhance our understanding and take appropriate action related to contemporary industrial development and globalization Finally I present a case study of my own engineering for others to critique Practicing what you preach is never easy and living as a just engineer presents many challenges As Ursula Franklin states clearly in her Massey lectures which I discuss in chapter 1 engineers have choices it is up to us to ensure that we are aware of the way in which our engineering practice contributes to global social economic and

political issues so that we are able to make response able choices **Political Ideologies in Contemporary Russia** Elena Chebankova,2020-11-18 In the realm of political discourse there is a distinct gap in understanding between Russia and the West To an outsider the ideas that animate the actions of Russia s ruling elite opposition and civil society from the motivations driving Russia s political actors to the class structure and international and domestic constraints that shape Russia s political thinking remain shrouded in mystery Contrary to the view that a bleak discursive uniformity reigns in Vladimir Putin s Russia *Political Ideologies in Contemporary Russia* shows that the country is engaging in serious theoretical debates across a wide spectrum of modern ideologies including liberalism nationalism feminism and multiculturalism Elena Chebankova argues that the nation is fragmented and the state seeks to balance the various ideological movements to ensure that none dominates She shows that each of the main ideological trends is far from uniform but the major opposition is between liberalism and traditionalism The pluralistic picture she describes contests many current portrayals of Russia as an authoritarian or even totalitarian state Offering an alternative to the Western lens through which to view global politics *Political Ideologies in Contemporary Russia* is a major contribution to our understanding of this world power **The Rise of the Image, the Fall of the Word** Mitchell Stephens,1998-10-08 Stephens sees in video s complexities simultaneities and juxtapositions new ways of understanding and perhaps even surmounting the tumult and confusions of contemporary life

The World between Empires Blair Fowlkes-Childs,Michael Seymour,2019-03-18 *The World between Empires* presents a new perspective on the art and culture of the Middle East in the years 100 B C A D 250 a time marked by the struggle for control by the Roman and Parthian Empires For the first time this book weaves together the cultural histories of the cities along the great incense and silk routes that connected southwestern Arabia Nabataea Judaea Syria and Mesopotamia It captures the intricate web of influence and religious diversity that emerged in the Middle East through the exchange of goods and ideas And for our current age when several of the archaeological sites featured here including Palmyra Dura Europos and Hatra have been subject to deliberate destruction and looting it addresses the crucial subject of preserving what has been lost and contextualizes the significance of these works on a local and global scale This essential volume features 186 objects of exceptional importance from Europe the Middle East and the United States Readers are taken on a fascinating journey that explores sites of intense political and religious struggles against Roman rule as well as important religious centers and military bulwarks of the Parthian Empire Reaching across two millennia *The World between Empires* brings vividly to life how individuals and cities in ancient times defined themselves and how these factors continue to resonate today p p1 margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana *Sons of the Gods, Children of Earth* Peter W. Rose,2019-03-15 In this ambitious and venturesome book Peter W Rose applies the insights of Marxist theory to a number of central Greek literary and philosophical texts He explores major points in the trajectory from Homer to Plato where the ideology of inherited excellence beliefs about descent from gods or heroes is elaborated and challenged Rose offers subtle

and penetrating new readings of Homer's Iliad and Odyssey Pindar's Tenth Pythian Ode Aeschylus's Oresteia Sophocles Philoktetes and Plato's Republic Rose rejects the view of art as a mere reflection of social and political reality a view that is characteristic not only of most Marxist but of most historically oriented treatments of classical literature He applies instead a Marxian hermeneutic derived from the work of the Frankfurt School and Fredric Jameson His readings focus on illuminating a politics of form within the text while responding to historically specific social political and economic realities Each work he asserts both reflects contemporary conflicts over wealth power and gender roles and constitutes an attempt to transcend the status quo by projecting an ideal community Following Marx Rose maintains that critical engagement with the limitations of the utopian dreams of the past is the only means to the realization of freedom in the present Classicists and their students literary theorists philosophers comparatists and Marxist critics will find Sons of the Gods Children of Earth challenging reading

Handbook of Dynamics in Parent-Child Relations Leon Kuczynski, 2002-12-23 This is a truly exceptional collection of contributions on the dynamics of family relationships The authors not only provide thoughtful state of the art reviews of relevant bodies of literature and methods but also grapple with thorny conceptual issues and present novel theoretical insights In doing so they demonstrate the tremendous progress in thinking about families in the past decade or two and provide guideposts for future theory and research on parent child relationships Nancy Eisenberg Regents Professor of Psychology Arizona State University This forward looking volume will be invaluable to all concerned with parent child relationships With chapters written by leading researchers in the field it focuses on process and on the agency of both parent and child The approach is therefore dialectical changes in either partner continuously leading to change in the other A must for teachers researchers and graduate students Robert A Hinde St John's College Cambridge United Kingdom Handbook of Dynamics in Parent Child Relations provides an innovative interdisciplinary perspective on theory research and methodology of dynamic processes in parent child relations Edited by distinguished scholar Leon Kuczynski this accessible volume is divided into six parts Part I concerns dyadic processes in parent child relationships and provides the conceptual grounding for the volume as a whole Parts II and III examine the agency of the child and the agency of the parent respectively Part IV considers dynamics in the parent child dyad as they are mediated by or impact on various lifespan cultural and ecological contexts Part V addresses the methodological implications of adopting a dynamic process view of parent child relations Part VI weighs future directions for theory research and practice An eminent group of scholars and researchers present a comprehensive exploration of parent child relationships that includes the nature of change in parent child interactions cognitive behavior and relational processes that govern parent child relationships what makes such interactions and relationships work the way they do the dynamics of parent child relations including bidirectional influence and human agency quantitative and qualitative methodology in the context of theory verification and discovery Handbook of Dynamics in Parent Child Relations focuses on process rather than outcomes bi directional influence rather than parent effects or child effects

and parents and children as agents and actors rather than as static traits or variables This concern with dynamics represents an emerging research perspective that complements a long standing alternative tradition primarily concerned with the products of parenting Interdisciplinary in scope Handbook of Dynamics in Parent Child Relations will appeal to academics professionals graduate students and senior level undergraduates involved with Developmental Psychology Family Science Human Ecology and Family Sociology
