The Representation of the Past Kevin Walsh, 2002-09-11 The 1980s and early 1990s have seen a marked increase in public interest in our historic environment The museum and heritage industry has expanded as the past is exploited for commercial profit In The Representation of the Past Kevin Walsh examines this international trend and questions the packaging of history which serves only to distance people from their own heritage A superficial unquestioning portrayal of the past he feels separates us from an understanding of our cultural and political present Here Walsh suggests a number of ways in which the museum can fulfill its potential by facilitating our comprehension of cultural identity

Levels of Organic Life and the Human Helmuth Plessner, 2021-05-20 The groundbreaking classic of twentieth century German philosophy now available in English with an introduction by J M Bernstein Helmuth Plessner's Levels of Organic Life and the Human draws on phenomenological biological and social scientific sources to offer a systematic account of nature life and human existence

The book considers non living nature plants non human animals and human beings a sequence of increasingly complex modes of boundary dynamics simply put interactions between a thing s insides and the surrounding world Living things are classed and analyzed by their positionality or orientation to and within an environment According to Plessner s radical view the human form of life is excentric that is the relation between body and environment is something to which humans themselves are positioned and can take a position This excentric positionality enables human beings to take a stand outside the boundaries of their own body a possibility with significant implications for knowledge culture religion and technology A powerful and sophisticated account of embodiment the Levels shows with reference both to science and to philosophy how life can be seen on its own terms to establish its own boundaries and how from the standpoint of life the human establishes itself in relation to the nonhuman As such the book is not merely a historical monument but a source for invigorating a range of vital current conversations around the animal posthumanism the material turn and the biology and sociology of cognition

The Poetic Character of Human Activity Wendell John Coats Jr., Chor-yung Cheung, 2012-07-21 The Poetic Character of Human Activity is a collection of essays by two Oakeshott scholars most of which explores the meaning of Oakeshott s pregnant phrase the poetic character of human activity by comparing and contrasting this idea with similar and opposing ones in particular those of the Taoist thinker Zhuangzi Chuang Tzu and his Western interpreter A C Graham Oakeshott s deep appreciation of the poetic and non instrumental character of human activity led him to develop an interest in the works of Zhuangzi and Confucius Comparison of shared themes between Oakeshott and

these two Chinese thinkers facilitates appreciation of his elegant analytic style and his resort to use of metaphors and story telling when conveying some of his most profound insights The collection also contains essays contrasting Oakeshott's idea of the creative in human experience with views of among others Plato Leo Strauss and Eric Voegelin Oakeshott used the phrase the poetic character of human activity arguably the animating center of his entire thought to refer to the creative character of human experiential reality that is to the fact that the form the how and content the what of all human experience and activity arise simultaneously and fluidly and can be separated only at the expense of theoretical coherence and practical skill The various essays in this collection explore the meaning of this claim and its ramifications for the proper role of critical intellect in especially philosophy morality learning and governance There is also some brief contrast of Oakeshott with John Rawls Alasdair MacIntyre Charles Taylor and Quentin Skinner

The Past Is Always Present Tore Tvarnø Lind, 2012 In The Past Is Always Present Tore Tvarn Lind examines the musical revival of Greek Orthodox chant at the monastery of Vatopaidi within the monastic society of Mount Athos Greece In particular Lind focuses on the musical activities at the monastery and the meaning of the past in the monks efforts at improving their musical performance practice through an emphasis on tradition Based on a decade of intense fieldwork and extensive interviews with members of Athos monastic community Lind covers a vast array of topics From musical notation and the Greek oral tradition to CD covers and music production the tension between tradition and modernity in the musical activity of the Athonite community raises a clear challenge to the quest to bring together Orthodox spirituality and quietude with musical production The Past Is Always Present addresses all of these matters by focusing on the significance and meaning of the local chanting style As Lind argues Byzantine chant cannot be fully grasped in musicological terms alone outside the context of prayer Yet because chant is fundamentally a way of communicating with God the sound generated must be exactly right pushing issues of music notation theory and performance practice to the forefront Byzantine chant Lind ultimately argues is a modern phenomenon as the monastic communities of Mount Athos negotiate with the realities of modern Orthodox identity in Greece By reporting on the musical revival activities of this remarkable community through the topics of notation musical theory drone singing and spiritual silence Lind looks at the ways in which Athonite heritage is shaped touching upon the Byzantine chant s contemporary relationship with practice of pilgrimage and the phenomenon of religious tourism Offering unique insights into the monastic culture at Mount Athos The Past Is Always Present is for those especially interested in sacred music past and present Greek culture monastic life religious tourism and the fields of ethnomusicology and anthropology

Burning Center, Porous Borders Eleazar S. Fernandez, 2011-10-17 Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church s spiritual center burns

mightily Conversely it can burn mightily in the spirit of Christ only if its borders are porous and allows the fresh air spirit of change to blow in and out While there is much rhetoric about change the most common response to change is to continue doing business as usual This is particularly the case in the face of perceived global threats In spite of the hoopla and euphoria of the global village walls of division and exclusion are rising hearts are constricting and moral imagination shrinking In response to this context Burning Center Porous Borders proposes alternative ways or images of being a church burning center and porous borders wall buster and bridge builder translocal glocal mending healer radical hospitality community of the earth spirit household of life abundant dialogians of life and community of hope In Burning Center Porous Borders congregational vitality and progressive praxis kiss and embrace

Kuki Shuzo Michael F. Marra,2004-04-30 Kuki Sh z 1888 1941 one of Japan s most original thinkers of the twentieth century is best known for his interpretations of Western Continental philosophy His works on and of poetry are less well known but equally illuminating During his eight years studying in Europe in the 1920s Kuki spent time in Paris where he wrote several collections of poetry and many short poems in the tanka style Included in this volume are these Paris poems as well as other verses that Kuki appended to a long essay on poetry Rhymes in Japanese Poetry written in 1931 Included as well are translations of two of Kuki s major critical essays on poetry The Genealogy of Feelings A Guide to Poetry 1938 and The Metaphysics of Literature 1940 Michael Marra one of the West s foremost authorities on modern Japanese aesthetics

prefaces his translations with an important essay that gives an account of the current state of Kuki studies in English and presents an intriguing and original interpretation of Kuki's writings. Marra argues that there is an unresolved tension in Kuki's thought between a desire to overcome the rigid schemes of metaphysics garnered from his knowledge of French and German philosophy on the one hand and a constant hesitation to let those schemes go which is expressed in his verse.

The Dark Abyss of Time Laurent Olivier, 2024-01-09 The field of archaeology continues to face a major crisis of interpretation. The traditional view is that the basic business of archaeology is to reconstruct the history of cultures and civilizations through their material productions. Olivier challenges this view with a new approach to archaeological remains based on the works of French theorists such as Foucault, de Certeau, and Derrida with insight from Darwin and Freud. His thesis is that archaeology does not study the past itself but rather what materially remains of the past in our present. Olivier also develops an interpretation of material culture based on Aby Warburg's and Walter Benjamin's work in the anthropology of art. With wider implications for history and all social sciences, *The Dark Abyss of Time* is a major contribution to the theory of time, memory, heritage, and archaeology. This flawless translation makes Olivier's elegantly written work available in English for the first time.

The Gospel of John Rudolf Bultmann, 2014-08-15 As the first volume in the Johannine Monograph Series, *The Gospel of John: A Commentary* by Rudolf Bultmann well deserves this place of pride. Indeed, this provocative commentary is arguably the most important New Testament monograph in the twentieth century, perhaps second only to *The Quest of the Historical Jesus* by Albert Schweitzer. In contrasting Bultmann's and Schweitzer's paradigms, however, we find that Bultmann's is far more technically argued and original, commanding hegemony among other early Christianity paradigms. Ernst Haenchen has described Bultmann's commentary as a giant oak tree in whose shade nothing could grow, and indeed, this reference accurately describes its dominance among Continental Protestant scholarship over the course of several decades.

George Herbert Mead on Social Psychology George Herbert, 2024-05-31 One of the most brilliantly original of American pragmatists, George Herbert Mead published surprisingly few major papers and not a single book during his lifetime. Yet his influence on American sociology and social psychology since World War II has been exceedingly strong. This volume is a revised and enlarged edition of the book formerly published under the title *The Social Psychology of George Herbert Mead*. It contains selections from Mead's posthumous books *Mind, Self, and Society*, *Movements of Thought in the Nineteenth Century*, *The Philosophy of the Act*, and *The Philosophy of the Present*, together with an incisive, newly revised introductory essay by Anselm Strauss on the importance of Mead for contemporary social psychology. Required reading for the social scientist.
