Investigative Forensic Hypnosis Joe Niehaus,1998-07-29 Historically viewed as a vehicle for entertainment or the occult hypnosis has slowly gained recognition as an effective tool in the medical arts sports programs and stress seminars Gradually law enforcement specialists also have used hypnosis specifically forensic hypnosis as a powerful tool when collecting information from the witness Hypnosis serves police and prosecutors by enabling the witness to recall minute details that they had previously forgotten due to momentary excitement or fear Investigative Forensic Hypnosis presents the practical application and scientific side of this subject explaining forensic hypnosis in an understandable way answering many common questions and identifying its practical use in the courtroom The author with 22 years of experience in law enforcement and 14 years experience in forensic hypnosis brings his outstanding law enforcement background and valued expertise to this important informative handbook dissolving misconceptions or doubts and illuminating forensic hypnosis as a valuable advantage in any case Two parts divide the discussion The Essence of Hypnosis covers the origins of hypnosis to its current uses o explains hypnosis from a scientific approach o clarifies misleading information o provides a logical approach to this unusual phenomenon o illustrates its potential in law enforcement Investigative Forensic Hypnosis arms its reader with a clear understanding of hypnosis o discusses applications to the criminal justice system o outlines essential guidelines for correctly using forensic hypnosis o identifies specific procedures for determining the facts of a case The information presented assists the hypnotist performing this investigative technique the investigator considering hypnosis lawyers and judges determining the appropriate application of hypnosis in a case This book provides the framework for hypnosis as a successful and dependable tool to assist in investigations not to solve crimes by magic but to provide useful indispensable clues and details This technique improves information gained from that most important asset in a case the witness Understanding the proper guidelines provided in Investigative Forensic Hypnosis can make a good witness a great witness

The Third Path Bud Carroll,2013-08-01 When I finished reading this book all I could say was WOW What a stunning piece of literary work It is concise brilliantly written backed by scientific findings with clear human logic and intelligence If this doesn t awaken the masses to delve into who and what they truly are I can t imagine what will Jerry Issa teacher of metaphysics Trenton Michigan This book will change your life if you let it If we are accidental beings on a remote planet in a vast universe existing for merely a blip in cosmic time what s the point of living at all Until we learn life is too significant to be a short lived brilliance that rises out of nothing and ends in nothing we will continue to live out our lives in what Thoreau saw as quiet desperation We sense the materialistic wall when we ask the question Is that all there is Without resorting to

miracles or magic this book provides compelling evidence of life beyond the physical world by logically investigating the limitations of matter in the universe by examining the gaps in scientific theories and by analyzing what the mystics already know about a spiritual existence It takes a dedicated seeker with no preconceived ideas and no intent on arriving to see beyond the materialistic wall This book is intended to expand your awareness of life here and hereafter hopefully providing the spark that will start you on your own personal pilgrimage The mystics tell us we will be guided to the next step along our spiritual path when we are ready Are you ready AWARENESS The following might be the thoughts of those at different levels of awareness as they walk through a rose garden I want I wonder how much I could get for these roses I believe God created roses when He created the world and everything in it I doubt Roses evolved from wild flowering shrubs but most garden varieties are hybrids I seek How could anything as beautiful as a rose happen purely by chance I know Roses like all life on Earth are physical manifestations of spirit

Trance-Migrations Lee Siegel, 2014-10-09 Listen to what I am about to tell you do not read this book alone You really shouldn't In one of the most playful experiments ever put between two covers every other section of Trance Migrations prescribes that you read its incantatory tales out loud to a lover friend or confidant in order to hypnotize in preparation for Lee Siegel's exploration of an enchanting India To read and hear this book is to experience a particular kind of relationship and that's precisely the point hypnosis the book will demonstrate is an essential aspect of our most significant relationships an inherent dimension of love religion medicine politics and literature a fundamental dynamic between lover and beloved deity and votary physician and patient ruler and subject and indeed reader and listener Even if you can't read this with a partner and I stress that you certainly ought to you will still be in rich company There is Shambaraswami an itinerant magician hypnotist and storyteller to whom villagers turn for spells that will bring them wealth or love Jos Custodio de Faria a Goan priest hypnotizing young and beautiful women in nineteenth century Parisian salons James Esdaile a Scottish physician for the East India Company in Calcutta experimenting on abject Bengalis with mesmerism as a surgical anesthetic and Lee Siegel a writer traveling in India to learn all that he can about hypnosis yoga past life regressions colonialism orientalism magic spells and above all the power of story And then there is you descending through these histories these tales within tales trances within trances dreams within dreams toward a place where the distinctions between reverie and reality dissolve Here the world within the book and that in which the book is read come startlingly together It's one of the most creative works we have ever published a dazzling combination of literary prowess scholarly erudition and psychological exploration all tempered by warm humor and a sharp wit It is informing entertaining and above all mesmerizing

Artificial Intelligence, Reincarnation, and Resurrection Ernest M. Valea, 2021-04-29 This book explores old and new hopes that have emerged in the human quest to defeat death On the one hand it answers questions such as Are we just physical machines of great complexity with the brain as the hardware on which consciousness operates as its software If so can we speculate on ways in which the mind could be uploaded to a machine and no longer

suffer the frailty of this biological body And could an android robot or a mindfile in a computer simulation be conscious On the other hand the book examines the hope of survival through reincarnation according to the teachings of Eastern religions and New Age thought All these topics are discussed from the perspectives of Christian theology and the philosophy of mind This dual investigation will help Christians formulate a coherent response to old and new challenges to their faith **Soul Mates, Karma and Reincarnation** Jaime T. Licauco, 2017-12-02 Is it true we have lived before this lifetime Why was the concept of reincarnation removed from the teachings of the Christian Church What is karma What are the rules governing it Why did Edgar Cayce define karma as simply meeting yourself Does each of us have a soul mate How do we recognize our soul mate when we meet him or her Why do we seldom meet our soul mate Can we invoke or pray for a soul mate to appear in our life These and many other fascinating questions about human relationships universal justice and multiple rebirth are discussed in this much awaited book on Soul Mates Karma and Reincarnation This is the only local book on this subject written by JAIME T LICAUCO the country's foremost authority on mind development paranormal phenomena and Philippine mysticism Drawing on his vast knowledge of esoteric sciences Mr Licauco provides the reader with an in depth explanation of soul mates karma and reincarnation **A Practical Guide to Death and Dying** John White, 2004-01-01 Many people are so afraid of death that they don't want to think about it hear about it or plan for it But death must be understood and prepared for otherwise we will live in fear and burden our loved ones with unanswered questions and unnecessary responsibilities In *A Practical Guide to Death and Dying* consciousness researcher John White provides a thorough compassionate look at death and explores the biology psychology and metaphysics of one's own demise In addition to recounting the personal stories of those who have developed a healthy attitude toward death White also offers a program for personal action He provides information about the evidence of life after death how to eliminate fears about death how to plan for it practical exercises for learning how to die and where to find more help *A Practical Guide to Death and Dying* will benefit readers who are ill and those who are healthy readers who care for the dying and readers who are curious about what lies ahead **Super Mind, Super Body** Jaime T. Licauco, Cory Quirino, 2017-10-12 Ancient wisdom originally believed that the body mind and spirit were interconnected Today more than ever modern medical experts consider this ancient wisdom as a gospel A new era of consciousness is slowly but surely emerging Long time friends Jimmy Licauco and Cory Quirino combined their individual expertise into one concise book that may very well become the ultimate guide for living well and looking good *Signs of Reincarnation* James G. Matlock, 2019-06-15 *Signs of Reincarnation* provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research Matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology This book offers students

scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives **The Conscious Mind and the Material World** Douglas M. Stokes,2015-01-24 What makes us who we are From a scientific viewpoint any individual s existence is improbable at best Consciousness as an actuality is inarguable its nature however remains elusive This work argues the view of self as a field of pure consciousness debating the existence of a continuing self and drawing conclusions about this entity and its relation to the physical body and the physical world Beginning with an exploration of the relationship between mind and matter it discusses ostensible psi phenomena such as extra sensory perception and psychokinesis and their implications for our understanding of the mind and the cosmos Additional topics include the perennial mind body problem the role of consciousness in quantum mechanics and conversely the role of quantum mechanics in the study of consciousness the anthropic principle and evidence for Intelligent Design Quasi religious questions such as the survival of consciousness after death are also addressed **Spirituality and Human Psyche** Nandita Chaube,2015-11-30 This book represents an introduction to spirituality and various psychic phenomena such as reiki dj vu dreams religion and spiritual healing etc This book also attempts to establish comprehensive understanding of these complex phenomena which are usually linked with spiritual experiences While trying to unfold some mysteries this book serves as a chance for the contemporary researchers to explore the research areas to fulfill the gap Written by substantial writers this book puts these less focused aspects altogether to provide them a platform for further research
