Leakey,John Michael Harris,2003 Few aspects of American military history have been as vigorously debated as Harry Truman s decision to use atomic bombs against Japan In this carefully crafted volume Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons surveys the major debates related to that decision and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945 He then provides a historical overview of thye events in question beginning with the decision and program to build the atomic bomb Detailing the sequence of events leading to Japan s surrender he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders Finally Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents scholarly books and articles **The Publishers Weekly** ,1920 **British Medical Journal** ,1897 The Temporal

Gender Differences and the Making of Liturgical History Professor Teresa Berger,2013-06-28 Mapping uncharted territory in the study of liturgy s past this book offers a history to contemporary questions around gender and liturgical life Teresa Berger looks at liturgy s past through the lens of gender history understood as attending not only to the historically prominent binary of men and women but to all gender identities including inter sexed persons ascetic virgins eunuchs and priestly men Demonstrating what a gender attentive inquiry is able to achieve Berger explores both traditional fundamentals such as liturgical space and eucharistic practice and also new ways of studying the past for example by asking about the

developing link between liturgical presiding and priestly masculinity Drawing on historical case studies and focusing particularly on the early centuries of Christian worship this book ultimately aims at the present by lifting a veil on liturgy's past to allow for a richly diverse notion of gender differences as these continue to shape liturgical life Historical Outlook, 1922 **The history of England, by D. Hume, continued by T. Smollett, and to the 23rd year of the reign of queen Victoria by E. Farr and E.H. Nolan. 3 vols. [in 12 pt.]**. problems in teaching health education curriculum making health education pedagogies and porous classrooms the book offers a knowledge base from which educators can consider how theories and models can sit together to shape curriculum and influence practice School Health Education in Changing Times will be of key interest to postgraduate students researchers and academics in the field of health education It will also be a valuable resource for teacher educators current teachers and those on professional development courses who want to navigate the moral minefield surrounding health education
