Past Promises:

Past Promises N.J. Walters, 2017-08-21 Linda Fletcher moved to Jamesville to get away from her manipulative family and start her new life and antique business Past Promises She has friends in Jamesville and when one of them recommends a handyman who ll do the renovations on her building in exchange for rent it seems like the perfect setup She knows Levi s just passing through and she s never contemplated a no strings affair before but she s more than willing to have one with Levi Levi Mann originally came to Jamesville to help a friend but he stayed because he likes the town and the people especially Linda the woman whose building he s working on He knows he s not good enough for her but the chemistry between them is too intense to ignore When Linda s family tries to manipulate her into returning to the fold she s in danger of losing everything including her new relationship with Levi the one neither of them thought would last but now don t want to live without Each book in the Jamesville series is a standalone story that can be enjoyed in any order Book 1 Discovering Dani Book 2 The Way Home Book 3 The Return of Patrick O Rourke Book 4 The Seduction of Shamus O Rourke Book 5 A Legal Affair Book 6 By the Book Book 7 Past Promises *The Economy of Promises* Bruce G. Carruthers, 2024-08-20 A comprehensive and illuminating account of the history of credit in America and how it continues to divide the haves from the have nots *The Economy of Promises* is a far reaching study of credit in nineteenth and twentieth century America Synthesizing and surveying economic and social history Bruce Carruthers examines how issues of trust stitch together the modern U S economy In the case of credit that trust involves a commitment by debtors to repay money they have borrowed from lenders Each promise poses a fundamental question why does the lender trust the borrower The book tracks the dramatic shift from personal qualitative judgments to the impersonal quantitative measurements of credit scores and ratings which make lending on a much greater scale possible It discusses how lending is shaped by the shadow of failure and the possibility that borrowers will break their promises and fail to repay their debts It reveals how credit markets have been shaped by public policy regulatory changes and various political factors And crucially it explains how credit interacts with economic inequality contributing to vast and enduring racial and gender differences which are only exacerbated by the widespread use of credit scores and ratings for big data and algorithmic decision making Bringing to life the complicated and abstract terrain of human interaction we call the economy *The Economy of Promises* is an important study of the tangle of indebtedness that for better or worse shapes and defines American lives **The Promise of Memory** Matthias Fritsch, 2012-02-01 Rereading Marx through Walter Benjamin and Jacques Derrida *The Promise of Memory* attempts to establish a philosophy of liberation Matthias Fritsch explores how memories of injustice relate to the promises of justice that democratic societies have inherited from the Enlightenment Focusing on the Marxist promise for a classless society since it contains a political promise whose institutionalization led to totalitarian outcomes Fritsch argues that both memories and promises if taken by themselves are one sided and potentially justify violence if they do not reflect on the implicit relation

between them He examines Benjamin's reinterpretation of Marxism after the disappointment of the Russian and German revolutions and Derrida's messianic inheritance of Marx after the breakdown of the Soviet Union The book also contributes to contemporary political philosophy by relating Marxist social goals and German critical theory to debates about deconstructive ethics and politics

Eschatology in Genesis Jonathan Huddleston, 2012 In this study Jonathan Huddleston examines Genesis as a rhetorical whole addressing Persian era Judean expectations While some have contrasted Genesis account of origins with prophetic accounts of the future literary and historical evidence suggests that Genesis narrates Israel's origins precisely in order to ground Judea's hopes for an eschatological restoration Promises to the ancestors semiotically apply to those who preserved composed and received the text of Genesis Judea imagines its mythic destiny as a great nation exemplifying and spreading blessing among the families of the earth Genesis vision of Israel's destiny coheres with the postexilic prophetic eschatology identifying Israel as a precious seed to carry forward promises of a yet to be realized creation fruitfulness

After Pomp and Circumstance Vered Vinitzky-Seroussi, 1998-06-08 Menacing nerve racking uncomfortably intrusive the high school reunion has become a dreaded encounter with past and present for many Americans It is a moment of both heightened self awareness and public presentation insisting that we account for ourselves not merely to our own satisfaction but to the satisfaction of others as well For sociologist Vinitzky Seroussi the high school reunion presents an ideal forum in which to explore the ongoing construction of identity in American society and perhaps to ascertain just how we have managed to make sense of our lives from then to now As autobiographical occasions reunions prompt us to examine our own life narratives the stories we tell ourselves about who we are and how we have come to be that person But at the same time they can threaten the integrity of those very stories subjecting them to the scrutiny of others whose memories of the past and ourselves may be altogether different from our own Reunions then engender a fragile community held together by the resources of a shared past yet imperiled by the tensions of competing histories Inevitably for both those who attend and those who choose not to the reunion forces a kind of biographical confrontation an unavoidable and often pivotal engagement between a carefully constructed personal identity and the socially prevalent standards of success and accomplishment

Though many see in today's culture the gradual demise of personal identity Vinitzky Seroussi's carefully researched study reveals something quite different After Pomp and Circumstance explores a struggle we all experience the desire to resolve the tension between public conceptions and internal understandings to maintain a sense of continuity between past and present lives and to lay claim to both an integrated self and a unified life history God Is Not Fair, Thank God! George E. Thompson, 2014-02-05 Life is not fair What does this reality imply about the nature of God and the destiny of human beings In this engaging book Thompson asserts that fairness is not an expectation of the faithful within the Judeo Christian Scriptures Biblical narrative discloses the mystery of a paradoxical deity that indwells with the suffering of creation and thereby provides a mercy that exceeds the evasive goal of fairness The process of healing and redemption of this cracked creation occurs through the tears and suffering of the biblical God whose authentic power is revealed within divine vulnerability and weakness The Jesus of history truly manifested the fullness of this paradoxical God for he disclosed the richness of the divine Being by emptying himself and taking the form of a redemptive servant When the church grasps for power and control avoids compassionate and costly ministries among the poor and powerless and renders primary focus upon gaining heavenly rewards it rejects its Christ centered mission relinquishes its paradoxical purpose and ceases to strive toward becoming an extension of the incarnation Thompson explores various paradoxical facets of each person of the Trinity and richly illustrates with stories from his vast experience as a parish theologian Negative Political Advertising Karen S. Johnson-Cartee, Gary Copeland, 2013-12-16 This volume provides a unique synthesis of the relevant literature from academic studies in the fields of political science marketing advertising speech communication telecommunication and public relations combined with the practical wisdom of professional consultants Offering the reader both the theory and practical applications associated with negative political advertising this is the first book devoted exclusively to the various forms of negative campaigning in the United States After developing a typology of negative political spots for greater clarity in explaining and evaluating them the book addresses effectiveness questions such as What works When Why and How **Idiosyncratic Deals between Employees and Organizations** Matthijs Bal, Denise Rousseau, 2015-09-16 Idiosyncratic deals or i deals are the individualised working arrangements negotiated by employees with the organizations for which they work Such deals represent an emerging area of study into the effects they have on both parties as well as co workers and the wider working world Do i deals signify a further breakdown of collectivism within the workplace or should they be seen as empowering to those employees able to find themselves the best deal Is the growth of i deals an inevitable response to the need for more flexible working relationships or do they erode concepts of equality and fairness In this important new collection i deals are discussed from a comprehensive range of viewpoints The book examines how i deals alter the psychological relationship between employee and employer as well as the notion of career development in an aging and technologically literate workforce The issue of group relationships is also discussed in relation to leadership theories organizational justice and

perceived fairness Finally the impact on organizational and individual effectiveness is assessed Are i deals a good thing for employers looking to maximise productivity within an organization Do employees work more effectively and efficiently as a consequence of i deals Very much a hot topic this volume represents a key contribution in the area of i deals from the most active researchers in the field It will be important reading for all students of work and organizational psychology human resource management and business management **A Political Theory of Money** Anush Kapadia,2024-01-04

Understanding money s nature as political institutional and material answers today s big money questions Money remains a foundational question of social theory What is money Why does something so insubstantial have value How do money systems make promises function like valuable things Why are money systems always hierarchical yet variable The answer the book argues is politics Money is institutionalised social power Politics generates institutions that differentially lock into the future product of political and economic collectives Money emerges from the institutionalisation of social antagonisms to encapsulate a collective s productive potential in a flexible tradable instrument This takes a system Money is built in hierarchical layers out of the inherently variable material of politics and at various economic scales This book outlines these variable processes theoretically and through case studies **Politics and International Law** Leslie Johns,2022-06-09

Teaches how and why states make break and uphold international law using accessible explanations and contemporary international issues **The Way of the Kenotic Christ** Samuel J. Youngs,2019-10-25 Despite his vast importance to twentieth century theology J rgen Moltmann s Christology has yet to receive the same level of in depth exploration as other topics in his thought Samuel Youngs addresses this lacuna providing the first exhaustive analysis of Moltmann s doctrine of Christ including its key developments and controversial elements Youngs argues that Moltmann s doctrine of Christ is best understood as a unique variation of kenotic Christology This vision of Christ encapsulates not only a series of vibrant ethical and eschatological points but also serves Moltmann s overarching theological goal of empowering a church that lives and ministers under the cross Part I highlights key facets of Moltmann s theological method before unfolding the range of diverse themes that characterize his Christology Part II explores Moltmann s use of the kenosis hymn of Philippians 2 before interrogating Moltmann s relationship to christological tradition Part III engages in an original systematization of Moltmann s Christology centered on the theme of manifold relational kenosis **Synthetic Biology** A. Balmer,K. Bulpin,S.

Molyneux-Hodgson,2016-06-01 This book explores the emergence of a new scientific field synthetic biology and the many bold promises its proponents have made to change the future of science industry humanity and the global environment It explores how people including academics students industrialists and governance actors tried to change their practices to bring engineering and biology together and to realise such promises from within their everyday lives It focuses on an ethnographic case study of an academic project that aimed to demonstrate the field s promise for solving water industry problems from leaky pipes to climate change In doing so the book weaves together stories of barriers bacteria and bodies

examining how they were entangled as people tried to make connections between academia and industry It also reflects on the authors attempts to work collaboratively with natural scientists and engineers reflecting on current debates about the role of sociology in such interdisciplinary projects The book contributes to contemporary studies of science and technology by highlighting issues such as ontology practices failure and time **Navigations** Richard Kearney,2006-07-13 This collection contains writings on Irish politics literature drama and visual arts along with a series of dialogues with important cultural and intellectual figures Previously unpublished pieces include essays on Joyce and on the Irish Hunger Memorial in New York City and a dialogue with Georges Dumzil on myth **The Formation of the Hebrew Bible** David M. Carr,2011-10-12 David Carr rethinks both the methods and historical orientation points for research into the growth of the Hebrew Bible into its present form The One Year Holy Land Moments Devotional Yechiel Eckstein,Tremper Longman III,2013-08-16 This year learn to see Scripture in a whole new way as you embark on a deeper understanding of its history and your faith s deep roots in the land events people and faith of Israel The One Year Holy Land Moments Devotional contains 52 weeks of reflections from both a Jewish rabbi and a Christian theologian demonstrating the timeless and universal themes in both the Hebrew Bible Old Testament and New Testament Each day offers a fascinating glimpse into the Jewish faith history and perspective while exploring the Christian interpretation of beloved biblical verses places people and events Spend a reflective moment each day contemplating the history of God s work in the world celebrating his word and love for you **Theology of Hope** Jürgen Moltmann,2021-10-08 Causing a considerable stir when it was first published in Germany in 1965 Theology of Hope represents a comprehensive statement of the importance for theology of eschatology and of an eschatological theology which emphasizes the revolutionary effect of Christian hope upon the thought institutions and conditions of life in the here and now Jürgen Moltmann understands Christian faith essentially as hope for the future of humankind and creation as this has been promised by the God of the exodus and the resurrection of the crucified Jesus God s promise is the compulsory force of history awakening hope which keeps human beings unreconciled to present experience sets them in contradistinction to prevailing natural and social powers and makes the church the source of continual new impulses towards in Moltmann s own words the realization of righteousness freedom and humanity in the light of the promised future that is to come This new expanded edition of a theological classic includes his 2020 Charles Gore lecture A Theology of Hope for the 21st Century in which he offers a powerful reflection on the nature of hope in our current times

Imagination Now M. E. Littlejohn, 2020-05-13 The world is increasingly polarized along religious ethnic race gender class and ideological lines But must such diversity necessarily breed suspicion fear or violence Richard Kearney invites us to consider another path He wagers that the cause of our divisions often lies not in difference but in a lack of creative imagination Ever in a spirit of dialogue he shows how poetics and narrative imagination can break the hold of hostility and open new possibilities of reconciliation accomplishing what moral arguments alone cannot Now more than ever there is an urgent need for Kearney s work which addresses our current moment of crisis and division providing pathways of creative response and healing This book follows Kearney s journey through the fields of philosophy of the imagination hermeneutics philosophy of religion ethics psychology practical philosophy and politics The selection of writings in this volume offers to the specialist and the general reader a concise well rounded entry into one of the most prolific and wide ranging thinkers in contemporary philosophy

Architecture, Ethics, and the Personhood of Place Gregory Caicco, 2007 Architecture and environmental design are among the last professional fields to develop a sustained and nuanced discussion concerning ethics Hemmed in by politics and powerful clients on one side and the often unscrupulous practices of the construction industry on the other environmental designers have been traditionally reluctant to address ethical issues head on And yet the rapid urbanization of the world s population continues to swell into new megacities each less healthy welcoming secure or environmentally sustainable than the next Green carbon reduced and sustainable building practices are important ways architects have recently responded to the symptoms of the crisis but are these efforts really addressing the core issues Taking the Dine Navajo Hogan Song a song used to protect and nourish the personhood of newly constructed dwellings as their inspiration the architects philosophers poets and other contemporary scholars contributing to this volume demonstrate that a deeper more radical change in our relationship to the built world needs to occur While offering a careful critique of modernist corporate or techno enthralled design practices these essays investigate an alternative relational ecology whose wisdom draws from ancient and often marginalized voices if not the whisperings of the earth itself Contributors include Richard Kearney Alberto Perez Gomez Juhani Pallasmaa Karsten Harries Edward Casey Susan Stewart David Abram Stacy Alaimo Jace and Laura Weaver Philip Sheldrake and Sebnem Yucel Young
