Draznin,2000-11-30 Through a detailed description of the life and activities of the middle class married woman of London between 1875 and 1900 this study reveals how housewives unwittingly became engines for change as the new century neared In marked contrast to the stereotypical depictions of Victorian women in literature and on television Draznin reveals a woman seldom seen the stay at home housewife whose activities were not much different than those of her counterparts today By exploring her daily activities how she cleaned her home disciplined her children managed her servants stretched a limited budget and began to indulge herself one discovers the human dimension of women who lived more than a century ago While most studies of this period consider values aspirations and attitudes this book concentrates on actions what these women did all day to provide readers with a new perspective on Victorian life Late Victorian London was a surprisingly modern city with a public face of well lit streets an excellent underground railway system and extended municipal services In the home gas stoves were replacing coal ranges and household appliances were becoming more common Having both money

to spend and a strong incentive to buy the new laborsaving devices ready to wear clothing and other manufactured products the middle class matrons resistance to change gave way to a rising consumer culture Despite her nearly exclusive preoccupation with home and family these urban women became agents for the modernization of Britain *Tempting All the Gods* Jane Karoline Vieth, 2021-09-01 *Tempting All the Gods* is a detailed study of Joseph P Kennedy's diplomatic career in London It examines Kennedy's role as ambassador to the Court of St James's from 1938-1940 a crucial time in world history It describes his attitudes toward American foreign policy before the outbreak of war and after the war began explains why he held those views and assesses their impact on Anglo American relations It also looks at the diplomatic background against which he worked at the political philosophies and personalities of the statesmen with whom he dealt and at his relations with them particularly President Franklin Roosevelt and British Prime Ministers Neville Chamberlain and Winston Churchill Here the reader will find a meticulously researched account of Kennedy's career based on the latest evidence available providing a current and balanced historical reassessment Scholars will be able to study Kennedy's diplomatic career within the broader context of international relations and also to gain a fuller understanding of his view of his own motives and policies including an understanding of why the ambassadorship was the greatest achievement with the poorest outcome in the varied life of an intensely ambitious man who was dedicated foremost to family friends and fortune This book will prove significant to students of Anglo American relations and of World War II and to the general public with its enduring fascination with the Kennedy family

Speaking of History Roger Adelson, 1997 What is of particular significance about this set of interviewees is the fact that each has approached the process of research and historical writing by applying a variety of techniques from the broad spectrum of the humanities liberal arts and social and natural sciences each has avoided narrow specialization by comparing the particular contexts they study with other times and places Collectively they see the study of history in a global perspective *The Past Speaks: To 1688*, 1981
