Khlebnikova, 2019-07-22 No detailed description available for The Conjunctive Mood in English as a Problem in General Linguistics *Systemic Functional Grammar & Natural Language Generation* Elke Teich, 1999-04-01 This volume deals with the computational application of systemic functional grammar SFG for natural language generation In particular it describes the implementation of a fragment of the grammar of German in the computational framework of KOMET PENMAN for multilingual generation The text also presents a specification of explicit well formedness constraints on syntagmatic structure which are defined in the form of typed feature structures It thus achieves a model of systemic functional grammar that unites both the strengths of systemics such as stratification functional diversification and the orientation to context and the kind of syntactic generalizations that are typically found in modern syntagmatically focused computational grammars **The Mineral Industry** ,1925 *The Mineral Industry, Its Statistics, Technology, and Trade ...* Richard Pennefather Rothwell, Joseph Struthers, David Hale Newland, Edward K.
