**Lost Causes** Jason B. Jones, 2006 What if we didn't always historicize when we read Victorian fiction *Lost Causes* shows that Victorian writers frequently appear to have a more supple and interesting understanding of the relationship between history causality and narrative than the one typically offered by readers who are burdened by the new historicism As a return to these writers emphasizes the press of modern historicism deforms Victorian novels encouraging us to read deviations from strict historical accuracy as ideological bad faith By contrast Jason B Jones argues through readings of works ranging from *The French Revolution* to *Middlemarch* that literature's engagement with history has to be read otherwise Perhaps perversely *Lost Causes* suggests simultaneously that psychoanalysis speaks pressingly to the vexed relationship between history and narrative and that the theory is neither a nor anti historical Through his readings of Victorian fiction addressing the recent past Jones finds in psychoanalysis not a set of truths but rather a method for rhetorical reading ultimately revealing how its troubled account of psychic causality can help us follow literary language's representation of the real Victorian narratives of the recent past and psychoanalytic interpretation share a fascination with effects that persist despite baffling inexplicable or absent causes In chapters focusing on Thomas Carlyle Charles Dickens Charlotte Bront and George Eliot *Lost Causes* demonstrates that history can carry an ontological as well as an epistemological charge one that suggests a condition of being in the world as well as a way of

knowing the world as it really is From this point of view Victorian fiction that addresses the recent past is not a failed realism as it is so frequently claimed but rather an exploration of possibility in history

**Writing African History** John Edward Philips, 2006 A comprehensive evaluation of how to read African history Writing African History is an essential work for anyone who wants to write or even seriously read African history It will replace Daniel McCall's classic Africa in Time Perspective as the introduction to African history for the next generation and as a reference for professional historians interested readers and anyone who wants to understand how African history is written Africa in Time Perspective was written in the 1960s when African history was a new field of research This new book reflects the development of African history since then It opens with a comprehensive introduction by Daniel McCall followed by a chapter by the editor explaining what African history is and is not in the context of historical theory and the development of historical narrative the humanities and social sciences The first half of the book focuses on sources of historical data while the second half examines different perspectives on history The editor's final chapter explains how to combine various sorts of evidence into a coherent account of African history Writing African History will become the most important guide to African history for the 21st century Contributors Bala Achi Isaac Olawale Albert Diedre L Badjo Dorothea Bedigian Barbara M Cooper Henry John Drewal Christopher Ehret Toyin Falola David Henige Joseph E Holloway John Hunwick S O Y Keita William G Martin Daniel McCall Susan Keech McIntosh Donatien Dibwe Dia Mwembu Kathleen Sheldon John Thornton and Masao Yoshida John Edwards Philips is professor of international society Hirosaki University and author of Spurious Arabic Hausa and Colonial Nigeria Madison University of Wisconsin African Studies Center 2000

**Christian Examiner and Theological Review**, 1844

The City Andrew Lees, 2015 The City A World History tells the story of the rise and development of urban centers from ancient times to the twenty first century It begins with the establishment of the first cities in the Near East in the fourth millennium BCE and goes on to examine urban growth in the Indus River Valley in India as well as Egypt and areas that bordered the Mediterranean Sea Athens Alexandria and Rome stand out both politically and culturally With the fall of the Roman Empire in the West European cities entered into a long period of waning and deterioration But elsewhere great cities among them Constantinople Baghdad Chang an and Tenochtitlan thrived In the late Middle Ages and the Early Modern period urban growth resumed in Europe giving rise to cities like Florence Paris and London This urban growth also accelerated in parts of the world that came under European control such as Philadelphia in the nascent United States As the Industrial Revolution swept through in the nineteenth century cities grew rapidly Their expansion resulted in a slew of social problems and political disruptions but it was accompanied by impressive measures designed to improve urban life Meanwhile colonial cities bore the imprint of European imperialism Finally the book turns to the years since 1914 guided by a few themes the impact of war and revolution urban reconstruction after 1945 migration out of many cities in the United States into growing suburbs and the explosive growth of megacities in the developing world

**The Misiri Legend Explored** araap Sambu,

Kipkoech,2015-03-16 How can a black people who do not even profess to Islam claim to have originated from Egypt which is such an Arabic and Islamic geographical setting But the Kalenjiin people of Kenya have held on fast to a tradition that their ancestors in antiquity were part of ancient Pharaonic Egypt which they variously call Tto and Misiri As unlikely as it may sound the persistence in keeping this oral tradition alive does not seem to be dying with time and distance from the claimed place of origin The Misiri Legend Explored A Linguistic Inquiry into the Kalenjiin People s Oral Tradition of Ancient Egyptian Origin establishes the Kalenjin oral tradition of Misirian origin on the basis of linguistic evidence a genuine tool which Egyptology scholars and researchers need to have relied on much more to bring greater and more final results to their investigations Students of ancient Egypt willing to accept that there is an irrational prejudice against the concept of ancient black African ingenuity will upgrade their stock of knowledge regarding ancient Egypt with the numerous discoveries laid out here They will discover a powerful new tool for their trade in the form of the African languages and cultures that now lie South of the Sahara
