Pastoral And The Poetics Of Self Contradiction:

Pastoral and the Poetics of Self-contradiction Judith D. Haber,1990 Pastoral and the Poetics of Self-Contradiction Judith Haber,2006-12-14 The traditional view of pastoral as a static genre aimed at the recreation of an idyllic past has recently been challenged by historicist critics Here Judith Haber complicates the opposition between humanist and historicist perspectives by examining ways in which pastoral poets themselves interrogate the contradictory relations inherent in their genre Focusing on texts by Theocritus Virgil Sidney and Marvell Haber revises current understanding of pastoral and raises wider questions about literature in society and the establishment of literary tradition

Pastoral and the Poetics of Self-contradiction Judith Deborah Haber,1988 **Pastoral and the Poetics of Self-Contradiction** Judith Deborah Haber,1994 Traditionally critics of the English Renaissance have viewed pastoral as a static idealizing genre aimed at the recreation of an idyllic past More recently these idealizing humanist approaches have been forcefully challenged by studies written from historicist perspectives In *Pastoral and the Poetics of Self Contradiction* first published in 1995 Judith Haber complicates the conventional opposition between humanist and historicist criticism by examining the ways in which pastoral poets themselves interrogate the contradictory relations inherent in their genre Haber explores problems of representation self representation and imitation in classical and Renaissance pastoral focusing on texts by Theocritus Virgil Sidney and Marvell Her approach revises current understanding of pastoral as a genre and raises wider questions about the place of literature in society and the difficulties involved in constituting literary traditions **Anna**

Letitia Barbauld and Eighteenth-Century Visionary Poetics Daniel P. Watkins,2012-04-16 In this first critical study of Anna Letitia Barbauld s major work Daniel P Watkins reveals the singular purpose of Barbauld s visionary poems to recreate the world based on the values of liberty and justice Watkins examines in close detail both the form and content of Barbauld s Poems originally published in 1773 and revised and reissued in 1792 Along with careful readings of the poems that situate the works in their broader political historical and philosophical contexts Watkins explores the relevance of the introductory epigraphs and the importance of the poems placement throughout the volume Centering his study on Barbauld s effort to develop a visionary poetic stance Watkins argues that the deliberate arrangement of the poems creates a coherent portrayal of Barbauld s poetic political and social vision a far sighted sagacity born of her deep belief that the principles of love sympathy liberty and pacifism are necessary for a secure and meaningful human reality In tracing the contours of this effort Watkins examines in particular the tension in Barbauld s poetry between her desire to engage directly with the political realities of the world and her equally strong longing for a pastoral world of peace and prosperity Scholars of British literature and women writers will welcome this important study of one of the eighteenth century s foremost writers The Cambridge Companion to English Literature, 1500-1600 Arthur F. Kinney,1999-12-02 This is the first comprehensive account of English Renaissance literature in the context of the culture which shaped it the courts of Henry VIII and Elizabeth I the tumult of

Catholic and Protestant alliances during the Reformation the age of printing and of New World discovery In this century courtly literature under Henry VIII moves toward a new more personal poetry of sentiment narrative and romance The development of English prose is seen in the writing of More Foxe and Hooker and in the evolution of satire and popular culture Drama moves from the churches to the commercial playhouses with the plays of Kyd Marlowe and the early careers of Shakespeare and Jonson The Companion tackles all these subjects in fourteen newly commissioned essays written by experts for student readers A detailed chronology of major literary achievements concludes with a list of authors and their dates

The Oxford Handbook of British and Irish War Poetry Tim Kendall, 2007-02-22 Thirty seven chapters written by leading literary critics from across the world describe the latest thinking about twentieth century war poetry The book maps both the uniqueness of each war and the continuities between poets of different wars while the interconnections between the literatures of war and peacetime and between combatant and civilian poets are fully considered The focus is on Britain and Ireland but links are drawn with the poetry of the United States and continental Europe The Oxford Handbook feeds a growing interest in war poetry and offers in toto a definitive survey of the terrain It is

intended for a broad audience made up of specialists and also graduates and undergraduates and is an essential resource for both scholars of particular poets and for those interested in wider debates about modern poetry This scholarly and readable assessment of the field will provide an important point of reference for decades to come *The Cambridge Companion to Virgil* Charles Martindale,1997-10-02 Virgil became a school author in his own lifetime and the centre of the Western canon for the next 1800 years exerting a major influence on European literature art and politics This Companion is designed as an indispensable guide for anyone seeking a fuller understanding of an author critical to so many disciplines It consists of essays by seventeen scholars from Britain the USA Ireland and Italy which offer a range of different perspectives both traditional and innovative on Virgil's works and a renewed sense of why Virgil matters today The Companion is divided into four main sections focussing on reception genre context and form This ground breaking book not only provides a wealth of material for an informed reading but also offers sophisticated insights which point to the shape of Virgilian scholarship and criticism to come *Cultivating Peace* Melissa Schoenberger,2019-05-17 Like Virgil who depicted a farmer's scythe suddenly recast as a sword the poets discussed here imagine states of peace and war to be fundamentally and materially linked In distinct ways they dismantle the dream of the golden age renewed proposing instead that peace must be sustained by constant labor

Reading Green in Early Modern England Leah Knight,2016-04-08 Green in early modern England did not mean what it does today but what did it mean Unveiling various versions and interpretations of green this book offers a cultural history of a color that illuminates the distinctive valences greenness possessed in early modern culture While treating green as a panacea for anything from sore eyes to sick minds early moderns also perceived verdure as responsive to their verse sympathetic to their sufferings and endowed with surprising powers of animation Author Leah Knight explores the physical and figurative potentials of green as they were understood in Renaissance England including some that foreshadow our paradoxical dependence on and sacrifice of the green world Ranging across contexts from early modern optics and olfaction to horticulture and herbal health care this study explores a host of human encounters with the green world both the impressions we make upon it and those it leaves with us The first two chapters consider the value placed on two ways of taking green into early modern bodies and minds by seeing it and breathing it in while the next two address the manipulation of greenery by Orphic poets and medicinal herbalists as well as grafters and graffiti artists A final chapter suggests that early modern modes of treating green wounds might point toward a new kind of intertextual ecology of reading and writing *Reading Green in Early Modern England* mines many pages from the period not literally but tropically metaphorically green that cultivate a variety of unexpected meanings of green and the atmosphere and powers it exuded in the early modern world

Andrew Marvell A. D. Cousins,2016-03-02 This monograph studies how across the Folio of 1681 Marvell's poems engage not merely with different kinds of loss and aspiration but with experiences of both that were in mid seventeenth century England disturbingly new and unfamiliar It particularly examines Marvell's preoccupation with the search for home

and with redefining the homeland in times of civil upheaval In doing so it traces his progression from being a poet who plays sophisticatedly with received myth to being one who is a national mythmaker in rivalry with his poetic contemporaries such as Waller and Davenant Although focusing primarily on poems in the Folio of 1681 this book considers those poems in relation to others from the Marvell canon including the Latin poems and the satires from the reign of Charles II It closely considers them as well in relation to verse by poets from the classical past and the European especially English present

Renaissance Romance Dr Nandini Das,2013-05-28 Romance was criticized for its perceived immorality throughout the Renaissance and even enthusiasts were often forced to acknowledge the shortcomings of its dated narrative conventions Yet despite that general condemnation the striking growth in English fiction in the late sixteenth and early seventeenth centuries is marked by writers who persisted in using this much maligned narrative form In Renaissance Romance Nandini Das examines why the fears and expectations surrounding the old genre of romance resonated with successive new generations at this particular historical juncture Across a range of texts in which romance was adopted by the court by popular print and by women Das shows how the process of realignment and transformation through which the new prose fiction took shape was driven by a generational consciousness that was always inherent in romance In the fiction produced by writers such as Sir Philip Sidney Robert Greene and Lady Mary Wroth the transformative interaction of romance with other emergent forms from the court masque to cartography was determined by specific configurations of social groups drawn along the lines of generational difference What emerged as a result of that interaction radically changed the possibilities of fiction in the period

The Form of Love James Kuzner,2021-08-03 Can poetry articulate something about love that philosophy cannot The Form of Love argues that it can In close readings of seven metaphysical poems the book shows how poets of the early modern period and beyond use poetic form to turn philosophy to other ends in order not to represent the truth about love but to create a virtual experience of love in all its guises The Form of Love shows how verse creates love that can't exist without poetry's specific affordances and how poems can in their impossibility prompt love's radical reimagining Like the philosophies on which they draw metaphysical poems imagine love as an intense form of non-sovereignty of giving up control They even imagine love as a liberating bondage to a friend a beloved a saint a God or a garden Yet these poems create strange striking versions of such love made in rather than through the devices structures and forces where love appears Tracing how poems think Kuzner argues requires an intimate form of reading close even too close attention to and thinking with the text Showing how poetry thinks of love otherwise than other fields the book reveals how poetry and philosophy can nevertheless enter into a relation that is itself like love

The Reformation of Romance Christina Wald,2014-08-27 This study takes a fresh look at the abundant scenarios of disguise in early modern prose fiction and suggests reading them in the light of the contemporary religio-political developments More specifically it argues that Elizabethan narratives adopt aspects of the heated Eucharist debate during the Reformation including officially renounced notions like transubstantiation to

negotiate culturally pressing concerns regarding identity change Drawing on the rich field of research on the adaptation of pre Reformation concerns in Anglican England the book traces a cross fertilisation between the Reformation and the literary mode of romance The study brings together topics which are currently being strongly debated in early modern studies the turn to religion a renewed interest in aesthetics and a growing engagement with prose fiction Narratives which are discussed in detail are William Baldwin's *Beware the Cat* Robert Greene's *Pandosto* and *Menaphon* Philip Sidney's *Old and New Arcadia* and Thomas Lodge's *Rosalind and A Margarite of America* George Gascoigne's *Steele Glas* John Lyly's *Euphues An Anatomy of Wit* and *Euphues and his England* Barnabe Riche's *Farewell* Greene's *A Quip for an Upstart Courtier* and Thomas Nashe's *The Unfortunate Traveller*

Theocritus: A Selection Theocritus, 1999-02-04 This is the first full scale commentary on poems by Theocritus since Gow's edition of 1950 and the first to exploit the recent revolution in the study of Hellenistic and Roman poetry the poems included in this volume *Idylls* 1 3 4 6 7 10 11 and 13 are principally the bucolic poems which through their influence on Virgil established the Western pastoral tradition The focus of the commentary is literary both on how Theocritus exploited the classical heritage for a new type of poetry and on what that poetry meant in the third century BC The commentary together with the introductory essays to each poem makes a major contribution to the understanding of this extraordinary poetic form The Introduction explores the meaning of bucolic the presentation of a stylised countryside the importance of eros in the bucolic world and Theocritus verbal and metrical style

Green Worlds of Renaissance Venice Jodi Cranston, 2019-03-04 From celebrated gardens in private villas to the paintings and sculptures that adorned palace interiors Venetians in the sixteenth century conceived of their marine city as dotted with actual and imaginary green spaces This volume examines how and why this pastoral vision of Venice developed Drawing on a variety of primary sources ranging from visual art to literary texts performances and urban plans Jodi Cranston shows how Venetians lived the pastoral in urban Venice She describes how they created green spaces and enacted pastoral situations through poetic conversations and theatrical performances in lagoon gardens discusses the island utopias found invented and mapped in distant seas and explores the visual art that facilitated the experience of inhabiting verdant landscapes Though the greening of Venice was relatively short lived Cranston shows how the phenomenon had a lasting impact on how other cities including Paris and London developed their self images and how later writers and artists understood and adapted the pastoral mode Incorporating approaches from eco criticism and anthropology *Green Worlds of Renaissance Venice* greatly informs our understanding of the origins and development of the pastoral in art history and literature as well as the culture of sixteenth century Venice It will appeal to scholars and enthusiasts of sixteenth century history and culture the history of urban landscapes and Italian art
