## **Pastoral Development Planning:**

**Pastoral Development Planning** Julian Prior, 1994      **Perspectives on Pastoral Development** Isobel Birch, Halima A. O. Shuria, 2001 An objective account of a major Oxfam initiative the Wajir pastoral development project in northeast Kenya with its distinctive emphasis on community participation It explains how marginalized groups are developing their own pastoral associations to represent their interests and Oxfam's role in facilitating that process It describes an integrated approach to pastoral development supporting the livelihoods of livestock keepers and those who have lost their animals devising strategies to address drought and conflict as part of a longer term agenda for sustainable development and working to influence key decisions made by high level policy makers      **Pastoralist Perspectives in Nigeria** Jerome O. Gefu, 1992

**A Field Manual for the Preparation of a Participatory Community Development Plan**, *ILCA Bulletin No. 28 - September 1987* International Livestock Centre for Africa, *Planning African Development* Glen Norcliffe, Tom Pinfold, 2012-08-06 First published in 1981 this book concerns specifically the Kenyan experience with regards to development planning but given that the problems of hunger poverty and underdevelopment manifest themselves in slightly different forms across all African countries this book has considerable relevance to development planning across the African continent The first set of essays in this collection address the question of development which is undoubtedly Africa's highest development priority The second grouping of essays considers issues in project planning and asks questions concerning cost method outcome and evaluation of various projects in Kenya      **Sustainable Development and Planning III A.** Kungolos, 2007 In recent years in many countries there has been an increase in spatial problems that has led to planning crisis Planning problems often connected with uneven development deterioration of the quality of urban life and destruction of the environment The increase urbanisation of the world coupled with global issues of the environmental pollution resource shortage and economic restructuring demand that we make our cities places worth living in Problems of environmental management and planning are not restricted to urban areas Environments such as rural areas forests coastal regions and mountains face their own problems that require urgent solutions in order to avoid irreversible damages The use of modern technologies in planning gives us new potential to monitor and prevent environmental degradation Effective strategies for management should consider planning and regional development two closely related disciplines and emphasise the demand to handle these matters in an integrated way Containing papers presented at the Third International Conference on Sustainable Development and Planning this book addresses the subjects of regional development in an integrated way as well as in accordance with the principles of sustainability Notable topics include Regional Planning City Planning Rural Development Environmental Impact Assessment Environmental Management Environmental Legislation and Policy Integrated Territorial and Environmental Risk Analysis Ecosystems Analysis Protection and Remediation Social and Cultural Issues Environmental Economics Geo Informatics Urban Landscapes Transportation Waste Management and Resources

*Transforming Education and Development Policies for Pastoralist Communities in Kenya* Ibrahim Oanda Ogachi,2011  
This study is a contribution towards exploring alternative but sustainable education policies for pastoralist societies and sets out to explore how pastoralist IKSs Indigenous Knowledge Systems can be integrated or used as an entry point to provide formal schooling to pastoralist communities in Kenya Pastoralists constitute the majority of the socially and economically vulnerable groups in the country Children among pastoralist communities face detrimental hardships that compromise their growth and development One of these hardships is the imposition of an education and development paradigm that is irrelevant to their existence and which compounds their problems This study therefore sought to explore how through better government policies the indigenous knowledge IK of pastoralists could be integrated into the curriculum of formal schooling Specifically the study discusses the following issues Gaps in policies for schooling provision for pastoralist groups with particular reference to the content of the curriculum and methods of delivery Aspects of pastoralist IKS that can be integrated into the context of national education policy to enrich their schooling within and General recommendations regarding the use of participatory and social engineering approaches in designing education and development policies affecting pastoralist communities in Kenya      **Monitoring and Evaluation for School Improvement** Mazda Jenkin,Jeff Jones,Sue Lord,2000 This work explains the background and context to increased accountability in secondary schools It offers practical help with structures and techniques for monitoring and evaluation within subject departments and pastoral areas      Green Development Bill Adams,2008-07-30 The third edition retains the clear and powerful argument of previous editions but has been updated to reflect advances in ideas and changes in international policy Greater attention has been given to political ecology environmental risk and the environmental impacts of development      **Green Development** W. M. Adams,2003-09-02 This revised and updated new edition retains the clear and powerful argument which characterized the original It gives a valuable analysis of the theory and practice of sustainable development and suggests that at the start of the new millennium we should think radically about the challenge of sustainability Fully revised this latest edition includes further reading chapter outlines chapter summaries and new discussion topics and explores the roots of sustainable development thinking and its evolution in the last three decades of the twentieth century the dominant ideas within mainstream sustainable development the nature and diversity of alternative ideas about sustainability the problems of environmental degradation and the environmental impacts of development strategies for building sustainability in development from above and below Offering a synthesis of theoretical ideas on sustainability based on the industrialized economies of the North and the practical applied ideas in the South which tend to ignore First World theory this important text gives a clear discussion of theory and extensive practical insights drawn from Africa Latin America and Asia      **The Oxfam Handbook of Development and Relief** Deborah Eade,Suzanne Williams,1995 This slipcase of three volumes offers

an expression of Oxfam's fundamental principles that everyone has the right to an equitable share in the world's resources. It analyzes policy procedure and practice in health, human rights, emergency relief and agricultural production. Does Commons Grabbing Lead to Resilience Grabbing? The Anti-Politics Machine of Neo-Liberal Development and Local Responses Tobias Haller, Fabian Käser, Mariah Ngutu, 2021-01-06. This Special Issue contributes to the debate on land grabbing as commons grabbing with a special focus on how the development of state institutions, formal laws and regulations for agrarian development and compensations and voluntary corporate social responsibility (CSR) initiatives have enabled the grabbing process. It also looks at how these institutions and CSR programs are used as development strategies of states and companies to legitimate their investments. This Special Issue includes case studies from Kenya, Morocco, Tanzania, Cambodia, Bolivia and Ecuador, analysing how these strategies are embedded into neo-liberal ideologies of economic development. We propose looking at James Ferguson's notion of the Anti-Politics Machine (1990) that served to uncover the hidden political basis of state-driven development strategies. We think it is of interest to test the approach for analysing development discourses and CSR policies in agrarian investments. We argue based on a New Institutional Political Ecology (NIPE) approach that these legitimize the institutional change from common to state and private property of land and land-related common pool resources, which is the basis of commons grabbing that also grabbed the capacity for resilience of local people. **ILCA Bulletin No. 9** International Livestock Centre for Africa, East African Pastoralism International Livestock Centre for Africa, 1977-01-01. Decentralization and the Social Economics of Development Christopher Brendan Barrett, Andrew G. Mude, John Omiti, 2007. This book focuses on the experience of decentralization in rural Kenya and is presented in two parts under the following themes: i) successes and failures of decentralization (chapters 2-6) and ii) socioeconomic and institutional preconditions for successful decentralization (chapters 7-10). The text will be of interest to researchers and students in social sciences and development studies and to policy makers in international aid agencies, non-governmental development organizations and government ministries. A subject index is included. **Agricultural Marketing in Tropical Africa** H. Laurens van der Laan, Tjalling Dijkstra, Aad van Tilburg, 2018-08-09. First published in 1999, this volume explores how African agriculture has always had a strong appeal for the people of the Netherlands. This is due to 1) a long established interest in tropical agriculture going back to the days when Indonesia was a Dutch colony; 2) a broad-based desire to help the Third World; and 3) the view that Tropical Africa is highly dependent on agriculture. As practical expertise in Africa and systematic research on African agriculture grew, specialization became both possible and necessary. This volume reflects the specialization in marketing which has been welcomed by economists, geographers and scholars of agricultural marketing. In addition to a general introductory chapter, this book includes five contributions on staple food grains, two on export crops, two on cattle and one on horticulture. Nine of the chapters are country-specific, covering Benin, Burkina Faso, Cameroon, Côte d'Ivoire, Ghana, Kenya, Sierra Leone, Tanzania and Zambia. *Livestock Development In Subsaharan Africa* James R.

Simpson,2019-08-22 The nations of Subsaharan Africa experienced declining levels of food production per capita throughout the 1970s and early 1980s particularly in the area of livestock production Addressing that problem the authors of this book assess in a systems context the environmental biological and social constraints on future African livestock development and consider prospects for improving productivity They focus especially on changes needed in production and marketing systems pointing to important policy considerations The book is divided into four parts containing twenty one chapters each authored by one or more respective authorities in his or her field Each section in its own way addresses the entire set of questions topics include aspects of animal breeding and nutrition anthropology economics ecology farming systems governmental policy land tenure marketing modelling and veterinary medicine      **ILCA Bulletin No.8** International Livestock Centre for Africa,
