*Through the Hoop* (1979) Tema Okun,Peter Wood,Bob Hall,Chris Mayfield,Marc Miller,Jim Overton,Joe Pfister,Kathleen Zobel, *Through the Hoop* To arc a jump shot through the orange rim to tap in a rebound putting the ball through the hoop represents a transcendent moment in basketball for player team and crowd Such a moment exists in every sport But to enjoy it fans and athletes alike are often forced through other kinds of hoops Sports can be violent lonely poetic painful uplifting It can breed fitness or injury sufficiency or dependence pride or prejudice friendship or hostility When does the discipline of sport become dangerous obedience When does self mastery become self aggrandizement When does athletic activity cease to be empowering for the participants and fans to become an exercise of power over us Answers to such questions are hard to find Sports unlike most topics previously addressed in special issues of Southern Exposure labor women folk life health prisons has never had a network of informed progressives working outside the established channels posing critical questions offering insightful direction for our thinking and doing Trusted commentators and friends who know where they stand and why with regard to other central aspects of our culture shy away from giving serious thought to sport As a result many of us are left with personal confusions brought on by alternating experiences of frustration and fulfillment How do we talk about a subject that on the one hand can be so easily criticized for abuses and on the other hand remains so compelling How do we effectively criticize the sports establishment that manages ACC basketball or NFL football when we find ourselves glued to the set at playoff time      **Current Catalog** National Library of Medicine (U.S.),1983 First multi year cumulation covers six

years 1965 70      **Texas State Journal of Medicine** ,1919      **Origins of the New South, 1877-1913** C. Vann Woodward,1981-08-01      **The Galveston Era** Earl Wesley Fornell,2011-05-18 The Queen City of Texas they called her or the Octopus of the Gulf Galveston from 1845 to 1860 was the center of culture in Texas or the monster with an economic strangle hold on all Texas trade It was a gracious city with wide paved streets impressive buildings and neat gardens yet it was also a pestilence ridden place where no sanitary code was ever enforced and where one in every two children died before reaching maturity Its citizens avid for culture and knowledge attended concerts and plays in great numbers and exhibited an eager interest in science and history yet they could not be brought to support the school system Galveston was a city where no person in need was ever left uncared for where the sick and needy strangers or friends were succoured yet no free Negro was safe from legalized abduction and forced enslavement and the city served as a center for the revived African slave trade Earl Fornell makes the charming colorful cosmopolitan contradictory city of Galveston the focal point of his study of the Texas Gulf Coast on the eve of the Civil War The years 1845 1860 were crucial for this area during that period the economy became more and more dependent upon slave labor and thus the stage was set for secession Dr Fornell describes with clarity the interrelated events the decisions and the conflicts that went into the development of Galveston and the Texas

Gulf Coast during these years He portrays the people and their way of life He introduces us to some of the notables who helped to shape the destiny of Texas Sam Houston the old general Lorenzo Sherwood the golden tongued propounder of radical economic doctrines Willard Richardson Hamilton Stuart Ferdinand Flake and Edward Cushing the newspapermen whose writing both reflected and guided the thought of their fellow citizens Arthur Lynn the British consul whose observing and compassionate nature brought him onto the stage of Galveston history with striking frequency and whose voluminous letters provide a rich source for historical details and William Ballinger a minor player on the stage but one whose conscience and interests mirrored those of many other thoughtful Galvestonians Always present affecting and affected by virtually every aspect of life on the Coast the slave labor problem grew ever more acute as the expanding railroad system laid more and more of the land open for development Dr Fornell shows with keen insight how it eventually forced Texans into a position where conflict with the federal government was unavoidable and the decision to secede from the Union inevitable The late Earl W Fornell a native of Wisconsin held B A and M A degrees in political science from the New School for Social Research the M A degree in political history from Columbia University and the Ph D degree in political history from Rice University He taught at Columbia Amarillo College Rice and Lamar State College of Technology
