Path Not Taken Reflections On Power And Fear:

The Intellectual Species John Rodden, 2022-01-17 This book explores the prospects for survival of what we have come to know as the intellectual in the post Gutenberg age. It addresses the contemporary history of this species spawned in the print age, meditating on the precarious future of international intellectual life in the digital era of nanosecond soundbites, fake news, smart phones and clicks and scrolls in lieu of reading. The book ponders these issues as it addresses the examples of a diverse group of British, American, French and German intellectuals of the post World War II era. These case histories showcase concretely the state of the culture in the context of particular lives, offering diverse intellectual portraiture featuring a wide range of writers across the ideological spectrum. The key family resemblance of these figures is that most of them are contrarians, regardless of whether they were freelance writers or academic intellectuals, American or British or European and chiefly imaginative writers or non-fiction writers and scholars. Among the intellectuals discussed are George Orwell, Dwight Macdonald, Irving Howe, Camille Paglia, Albert Camus, Robert Havemann and others. Regardless of which intellectual domains occupied their energies, the histories of all of them yield insight into the transformation of cultural life in recent decades and the contrasting challenges faced by intellectuals of earlier eras versus our own. These issues are of paramount significance for all those who care about the life of the mind and the future of homo sapiens. Walls That

Remain John Rodden, 2016-01-08 The Walls That Remain explores the trauma of German reunification in 1990 as it affected ordinary Eastern and Western Germans. Told mainly in their own words, this book features the voices of those Germans who have suffered as well as profited from the transformations in German society since the fall of the Berlin Wall in 1989 and Germany's reunification in October 1990. Truth And Synergism, *Creative Listening and the Psychoanalytic Process*

Fred L. Griffin, 2016-08-25 Contemporary psychoanalytic thinking about the interdependence of subjectivity and intersubjectivity has reenvisioned the analytic process and with it the very nature of creative and engaged psychoanalytic listening. Yet few systematic writings on psychoanalytic listening or technique provide comprehensive instruction that would prepare the analyst for the kind of analytic listening needed to participate imaginatively in this sort of intersubjective experience. Offering a short course in analytic listening, *Creative Listening and the Psychoanalytic Process* provides a guide for the clinical uses of imaginative literature. Outside the psychoanalytic literature, extraordinary pieces of imaginative literature exist that provide the kind of experience in analytic listening that can guide clinicians in their work with patients. Certain works of fiction create textured sensory worlds in which complex characters possessing shifting states of consciousness live within fluid emotional atmospheres. In this book, Fred Griffin demonstrates that by entering the worlds that original writers create in their texts, the psychoanalytic therapist will learn to attend more closely to varying emotional states that generate nuanced multidimensional views of the analysand's internal and relational worlds. He illustrates how these works capture more fully the sensory experience encountered by psychoanalysts when taking in what the patient

communicates within the analytic space Creative Listening and the Psychoanalytic Process presents case material alongside selected passages from works of fiction written by a range of creative writers each of which stimulates analytic sensibility about this clinical experience A conceptual framework is provided that makes these and other original works of fiction more accessible for these purposes This book will be essential reading for psychoanalysts and psychoanalytic psychotherapists as well as professors and graduate students studying psychoanalysis and literature It will also appeal to literary scholars and those teaching and practicing in the field of narrative medicine
