John F. Kennedy and the Politics of Faith Patrick Lacroix, 2021-01-29 In John F Kennedy and the Politics of Faith Patrick Lacroix explores the intersection of religion and politics in the era of Kennedy s presidency In doing so Lacroix challenges the established view that the postwar religious revival disappeared when President Eisenhower left office and that the contentious election of 1960 which carried John F Kennedy to the White House struck a definitive blow to anti Catholic prejudice Where most studies on the origins of the Christian right trace its emergence to the first battles of the culture wars of the late 1960s and early 1970s echoing the Christian right s own assertion that the secular sixties was a decade of waning religiosity in which faith based groups largely eschewed political engagement Lacroix persuasively argues for the Kennedy years as an important moment in the arc of American religious history Lacroix analyzes the numerous ways in which faith based engagement with politics and politicians efforts to mobilize denominational groups did not evaporate in the early 1960s Rather the civil rights

movement major Supreme Court rulings events in Rome and Kennedy's own approach to recurrent religious controversy reshaped the landscape of faith and politics in the period Kennedy lived up to the pledge he made to the country in Houston in 1960 with a genuine commitment to the separation of church and state with his stance on aid to education his willingness to reverse course with the Peace Corps and the Agency for International Development and his outreach to Protestant and Jewish clergy The remarks he offered at the National Prayer Breakfast and in countless other settings had the cumulative effect of diminishing long standing anxieties about Catholic power In his own way Kennedy demanded of Protestants that they live up to their own much vaunted commitment to church state separation This principle could not mean one thing for Catholics and something entirely different for other people of faith American Protestants could not consistently oppose public funding for religious schools because those schools were overwhelmingly Catholic while defending religious exercises in public schools Lacroix reveals how close the country came during the Kennedy administration to a satisfactory solution to the fundamental religious challenge of the postwar years the public accommodation of pluralism as Kennedy came to embrace a nascent religious left that supported his civil rights bill and the nuclear test ban treaty

Interruptions J. Matthew Ashley, 1998-12-08 Johann Baptist Metz is one of the most important Roman Catholic theologians in the post Vatican II period however there is no comprehensive overview of his theological career This book fills that gap It offers careful analyses and summaries of Metz's work at the various stages of his career beginning with his work on Heidegger and his collaboration with Karl Rahner It continues with his work in the nineteen sixties when he moved off in a radically different direction to found a new political theology culminating in his seminal work Faith in History and Society Metz addresses themes ranging from the situation of the Church after Auschwitz the future of religious life in the Church and the relationship between religion and politics after the end of the cold war J Matthew Ashley covers all of Metz's writings along with his crucial relationships to figures like Karl Rahner Martin Heidegger Ernst Bloch Walter Benjamin and the social critics of the early Frankfurt School Interruptions shows that despite the dramatic turn in the nineteen sixties there is an underlying continuity in Metz's thought Ultimately however the underlying continuity in Metz's career is defined by a spirituality a spirituality that is painfully yet hopefully open to the terrible suffering that characterizes our century a spirituality founded in the Prophets in Lamentations and in the figures of Job and the Jesus of Mark's Gospel This book shows how Metz has tried to find theological concepts adequate for expressing this spirituality which he calls a Mysticism of open Eyes or of suffering unto God and to work out its political implications To this end the book has an opening chapter on the relationship between spirituality and theology and a closing chapter that shows that the most fundamental difference between Rahner and Metz is rooted in the different Christian spiritual traditions out of which the two operate Interruptions is essential reading for anyone interested in Spirituality and Mysticism and in their relation to political philosophy

established religion but as one who cannot subscribe to the Economic Myth of Rational Humanism Fosco's text which he dubs *My Reality* is republished in this volume accompanied by six exploratory essays ranging from the supportive to the dismissive which seek to open up debate on the issues which he poses Can we work towards a society in which humane values prevail or must we accept that ours is for lack of a better the best of possible worlds Saints and Signs Massimo Leone, 2010-08-31 *Saints and Signs* analyzes a corpus of hagiographies paintings and other materials related to four of the most prominent saints of early modern Catholicism Ignatius of Loyola Philip Neri Francis Xavier and Therese of Avila Verbal and visual documents produced between the end of the Council of Trent 1563 and the beginning of the pontificate of Urban VIII 1623 are placed in their historical context and analyzed through semiotics the discipline that studies signification and communication in order to answer the following questions How did these four saints become signs of the renewal of Catholic spirituality after the Reformation How did their verbal and visual representations promote new Catholic models of religious conversion How did this huge effort of spiritual propaganda change the modern idea of communication The book is divided into four sections focusing on the four saints and on the particular topics related to their hagiologic identity early modern theological debates on grace Ignatius of Loyola cultural contaminations between Catholic internal and external missions Philip Neri the Christian identity in relation to non Christian territories Francis Xavier the status of women in early modern Catholicism Therese of Avila Mediating Catholicism Eric Hoenes del Pinal, Marc Roscoe Loustau, Kristin Norget, 2022-03-10 This book focuses on the ethnographic study of Catholicism and media Chapters demonstrate how people engage with the Catholic media scape and analyse the social cultural and political processes that underlie Catholic media and mediatization Case studies examine Catholic practices in North America Western and Eastern Europe Latin America South East Asia and Africa providing a truly comparative de centred representation of global Catholicism Illustrating the vibrancy and heterogeneity of Catholicism world wide the book also examines how media work to sustain larger global Catholic imaginaries **The Official Catholic Directory for the Year of Our Lord ...**, 1996 Satan's Rhetoric Armando Maggi, 2001-09 Reading innumerable treatises on demonology written during the Renaissance including *Thesaurus exorcismorum* the most important record of early modern exorcisms Maggi finds repeated attempts to define the language exchanged between the fallen progeny of Adam and the most notorious fallen angel of them all Satan Using points of departure taken from de Certeau and Lacan Maggi shows that Satan articulates his language first and foremost in the mind More than speaking the devil tries to make human beings understand his language and speak it themselves *Authentically Black and Truly Catholic* Matthew J. Cressler, 2017-11-14 Chicago has been known as the Black Metropolis But before the Great Migration Chicago could have been called the Catholic Metropolis with its skyline defined by parish spires as well as by industrial smoke stacks and skyscrapers This book uncovers the intersection of the two Authentically Black and Truly Catholic traces the developments within the church in Chicago to show how Black Catholic activists in the 1960s and 1970s

made Black Catholicism as we know it today The sweep of the Great Migration brought many Black migrants face to face with white missionaries for the first time and transformed the religious landscape of the urban North The hopes migrants had for their new home met with the desires of missionaries to convert entire neighborhoods Missionaries and migrants forged fraught relationships with one another and tens of thousands of Black men and women became Catholic in the middle decades of the twentieth century as a result These Black Catholic converts saved failing parishes by embracing relationships and ritual life that distinguished them from the evangelical churches proliferating around them They praised the quiet dignity of the Latin Mass while distancing themselves from the gospel choirs altar calls and shouts of amen increasingly common in Black evangelical churches Their unique rituals and relationships came under intense scrutiny in the late 1960s when a growing group of Black Catholic activists sparked a revolution in U S Catholicism
