Principles of International Environmental Law Philippe Sands,Jacqueline Peel,Adriana Fabra,Ruth MacKenzie,2012-05-03 Philippe Sands text on international environmental law provides a clear authoritative introduction to the subject This edition has been updated to

include relevant new topics including the Kyoto Protocol genetically modified organisms and oil pollution **Protecting the Oceans Beyond National Jurisdiction** Robin Warner, 2009 Knowledge of the marine environment beyond national jurisdiction and its unique biodiversity is still developing Simultaneously traditional uses of these areas including fishing and shipping are intensifying and new uses are emerging such as bio prospecting for marine genetic resources and climate change mitigation activities This volume examines the threats to the marine environment beyond national jurisdiction from existing and emerging human uses and the adequacy of current international law provisions to protect this major part of the global environment An analysis of key provisions in the 1982 United Nations Law of the Sea Convention and complementary principles of international environmental law reveals significant tensions between the concept of high seas freedoms and the international law obligation to protect and preserve the marine environment beyond national jurisdiction The book compares the lack of comprehensive environmental regulation for marine resource exploitation and shipping activities beyond national jurisdiction with the best practice standards for environmental protection being developed by the International Seabed Authority for deep seabed mining exploration Recent initiatives by the international community to study issues relating to conservation of high seas biodiversity are discussed and a range of soft and hard law options to strengthen the international law framework for protection of the marine environment beyond national jurisdiction are considered *Selected International Agreements* United States. Department of the Army, 1976 **Selected Chinese Cases on the UN Sales Convention (CISG) Vol. 4** Peng Guo, Haicong Zuo, Shu Zhang, 2025-05-02 This book focuses on Chinese cases on the CISG decided by Chinese courts of all levels focusing on those decided from 2013 to 2016 During this period the number of cases grew fast compared to 2010 to 2012 covered in volume 3 The growth in the total number reflects that parties might become more familiar with the CISG and therefore decided not to opt out of it in addition the case collection and report systems in China at that time were developing very fast rendering many cases easily accessible This book provides a comprehensive and detailed analysis of selected cases The analysis of those cases will be on a case by case basis For each case an English summary of the judgment will be provided In the comment the People's Courts approach to the interpretation and application of the CISG will be discussed Comments of the individual case will be written either by scholars or judges or lawyers from international and comparative perspectives to discuss the successes and pitfalls of the interpretation and application of the CISG in China These selected cases reflect how People's Court of all levels started to deal with various issues arising from the CISG and will help understand whether and how the People's Courts change their approaches to the interpretation and application of the CISG in the future The Vienna Conventions on the Law of Treaties, 2025-10-29 The 1969 and 1986 Vienna Conventions on the Law of Treaties are essential components of the contemporary international legal order Codifying to a significant extent the customary rules that pre-existed in the field they aim at regulating what has become the main source of public international law and a crucial tool in inter-state relations This fully updated second edition provides both

international and national lawyers with an in depth analysis of each provision of both Conventions taking into account the substantial developments of the last decade The structure of each commentary is essentially uniform the first part is dedicated to the exposition of that provision s object and purpose and to the assessment of its customary status while the second part focuses on the main issues of interpretation raised by the provision in question Extensive reference is made to the travaux pr paratoires of both Conventions including the work of the UN International Law Commission and the proceedings of the 1969 and 1986 diplomatic conferences and to practice both prior to and following the adoption of the Conventions The volume contains contributions from over 120 authors from over thirty different countries including some of the most renowned experts in international law Not only does this ensure the high quality of the analysis but it also provides the reader with a reflection of the wide range of perspectives existing in the international scholarship on the law of treaties
