Selected Poems Maurice Lindsay, 1973 **Selected Poems, 1942-1972** William Henry Hull, 1954 **International Who's Who in Poetry 2004** Europa Publications, 2003 Provides up to date profiles on the careers of leading and emerging poets *Commonwealth Literature* NA NA, 2016-01-03 **Miraculous Simplicity** William V. Davis, 1993-02 Pondering now the being and nature of God now the mystery of time now the assault of contemporary lifestyles on the natural world R S Thomas's poetry and prose reflect his Welsh heritage and his determination to be Welsh Moved by his own personal attraction to the work of Thomas and guided by his careful reading of it William V Davis brings us this excellent collection of essays exploring the distinguished yet controversial poet priest In the autobiographical essay Thomas reveals his passion for his homeland and his ever present hunger for spiritual and natural exploration As I stood in the sun and the sea wind with my shadow falling upon those rocks I certainly was reminded of the transience of human existence and my own in particular As Pindar put it A dream about a shadow is man I began to ponder more the being and nature of God and his relation to the late twentieth century situation which science and technology had created in the western world Where did the ancient world of rock and ocean fit into an environment in which nuclear physics and the computer were playing an increasingly prominent part **Saturday's Silence** Richard McLauchlan, 2016-11-15 R S Thomas is recognised globally as one of the major poets of the twentieth century Such detailed attention as has been paid to the religious dimensions of his work has however largely limited itself to such matters as his obsession with the absent God his appalled fascination with the mixed cruelty and wonder of a divinely created world his interest in the world view of the new physics and his increasingly heterodox stance on spiritual matters What has been largely neglected is his central indebtedness to key features of the classic Christian tradition This book concentrates on one powerful and compelling example of this reading Thomas's great body of religious work in the light of the three days that form the centre of the Gospel narrative the days which tell of the death entombment and resurrection of Christ A Companion to Poetic Genre Erik Martiny, 2011-10-13 A COMPANION TO POETIC GENRE A COMPANION TO POETIC GENRE This eagerly awaited Companion features over 40 contributions from leading academics around the world and offers critical overviews of numerous poetic genres Covering a range of cultural traditions from Britain Ireland North America Japan and the Caribbean among others this valuable collection considers ancient genres such as the elegy the ode the ghazal and the ballad before moving on to Medieval and Renaissance genres originally invented or codified by the Troubadours or poets who followed in their wake The book also approaches genres driven by theme such as the calypso and found poetry Each chapter begins by defining the genre in its initial stages charting historical developments and finally assessing its latest mutations be they structural thematic parodic assimilative or subversive The Writers Directory, 2004 *On the Other Side(s) of 150* Linda M. Morra, Sarah Henzi, 2021-05-20 On the Other Side s of 150 explores the different literary historical and cultural legacies of Canada's sesquicentennial celebrations It asks vital questions about the ways that

histories and stories have been suppressed and invites consideration about what happens once a commemorative moment has passed Like a Cubist painting this modality offers a critical strategy by which also to approach the volume as dismantling reassembling and re enacting existing commemorative tropes as offering multiple conditional and contingent viewpoints that unfold over time and as generating a broader although far from being comprehensive range of counter memorial performances The chapters in this volume are thus provisional interconnected and adaptive they offer critical assemblages by which to approach commemorative narratives or showcase lacunae therein by which to return to and intervene in ongoing readings of the past from the present moment and by which not necessarily to resolve but rather to understand the troubled and troubling narratives of the present moment Contributors propose that these preoccupations are not a means of turning away from present concerns but rather a means of grappling with how the past informs or is shaped to inform them and how such concerns are defined by immediate social contexts and networks
