Serving African American Children:

Serving African American Children Sheryl Brissett-Chapman, 2018-04-27 *Serving African American Children* was initiated to present an African American perspective on child welfare issues affecting African American children. The chapters in this volume challenge the child welfare community to ensure that all African American children receive protection, nurturing, and an improved quality of life to create and sustain mutual communication and support through program development to ensure that African American consultants are involved in the evaluation of agencies where African American populations represent a significant proportion of the service population and to increase African American leadership through education and training opportunities in preparation for executive level positions. Major chapters and contributors to *Serving African American Children* include Family Preservation and Support Services: A Missed Opportunity for Kinship Care by Julia Danzy and Sondra M Jackson; Achieving Same Race Adoptive Placements for African American Children by Ruth G McRoy, Zena Oglesby, and Helen Grape; African American Families and HIV/AIDS: Caring for Surviving Children by Alma J Carten and Ilene Fennoy; A Rite of Passage Approach Designed to Preserve the Families of Substance Abusing African American Women by Vanesta L Poitier, Makini Niliwaambieni, and Cyprian Lamar Rowe; and An Afrocentric Program for African American Males in the Juvenile Justice System by Aminifu R Harvey and Antoinette A Coleman. The chapters reflect a variety of policy, research, and practice issues, clinical techniques, and treatment models, and new perspectives in child welfare. The theme that runs throughout each chapter is the grave concern about the overrepresentation of African American children and families in the child welfare system and about the limited, if not missing, influence of the African American perspective on policy and practice. *Serving African American Children* is a book of vital importance and should be read by all social workers, sociologists, African American studies specialists, and professionals in the field of child welfare. **Serving African American Children**

Culture and Child Development in Early Childhood Programs Carollee Howes, 2010 Early childhood education programs are expected to provide exemplary care for all children poor and affluent children of color and White children while also adapting care to include children s families and cultures These two sets of expectations are often difficult for teachers and programs to meet In this book Carollee Howes shows how high quality programs successfully adapt child development guidelines within cultural contexts and why quality needs to be and can be measured in culturally specific ways This important book Closely examines ECE programs considered exemplary for low income children of color Shows how directors and teachers successfully use practices derived from their cultural communities to implement universal standards of child care Identifies the commonalities in good early childhood programs that are shared across class race and ethnic communities Offers best practices based on extensive assessments interviews and observations Will have immediate relevance for policy debates for understanding the mechanisms of program effects and for educators who wish to deepen their knowledge of practice Robert C Pianta University of Virginia I urge all higher education faculty in service teacher trainers accreditation observers researchers text book writers and policymakers of standards to read this book From the Foreword by Louise Derman Sparks

Child Welfare Revisited Joyce Everett, Sandra Stukes Chipungu, Bogart R. Leashore, 2004 Why are there proportionally more African American children in foster care than white children Why are white children often readily adoptable while African American children are difficult to place Are these imbalances an indication of institutional racism or merely a coincidence In this revised and expanded edition of the classic volume Child Welfare twenty one educators call attention to racial disparities in the child welfare system by demonstrating how practices that are successful for white children are often not similarly successful for African American children Moreover contributors insist that policymakers and care providers look at African American family life and child development from a culturally based Africentric perspective Such a perspective the book argues can serve as a catalyst for creativity and innovation in the

formulation of policies and practices aimed at improving the welfare of African American children Child Welfare Revisited offers new chapters on the role of institutional racism and economics on child welfare the effects of substance abuse homelessness HIV AIDS and domestic violence and the internal strengths and challenges that are typical of African American families Bringing together timely new developments and information this book will continue to be essential reading for all child welfare policymakers and practitioners
