Seventeen Against The Dealer:

Seventeen Against the Dealer Cynthia Voigt, 1989 Dicey struggles to make a go of a boatbuilding business while facing family concerns romantic problems and the uncertainties of a drifter who offers to help her in her work *Seventeen Against the Dealer*, 1989

Fictions of Integration Naomi Lesley, 2017-03-03 This book examines how children's and young adult literature addresses and interrogates the legacies of American school desegregation. Such literature narrates not only the famous battles to implement desegregation in the South in places like Little Rock, Arkansas, but also more insidious and less visible legacies such as re-segregation within schools through the mechanism of disability diagnosis. Novelizations of children's experiences with school desegregation comment upon the politics of getting African American children access to white schools, but more than this, as school stories, they also comment upon how structural racism operates in the classroom and mutates over the course of decades through the pedagogical practices depicted in literature for young readers. Lesley combines approaches from critical race theory, disability studies, and educational philosophy in order to investigate how the educational market simultaneously constrains how racism in schools can be presented to young readers and also provides channels for radical critiques of pedagogy and visions of alternative systems. The volume examines a range of titles from novels that directly engage the Brown v. Board of Education decision, such as Sharon Draper's *Fire From the Rock* and Dorothy Sterling's *Mary Jane*, to novels that engage less obvious legacies of desegregation, such as Cynthia Voigt's *Dicey's Song*, Sharon Flake's *Pinned*, Virginia Hamilton's *The Planet of Junior Brown*, and Louis Sachar's *Holes*. This book will be of interest to scholars of American studies, children's literature, and educational philosophy and history. **Childhood and Innocence in American Culture** James M. Curtis, 2023-08-01

This collection argues that the romanticized conflation of childhood and innocence in American culture has been on a steady decline at least since the 1960s, largely due to postmodern critiques of overarching narratives involving both the child and the innocence of childhood. Additionally, this collection highlights and analyzes examples of children's literature and culture throughout the 20th century and into the 21st, which pointedly defy traditional idealized notions of childhood. Such an analysis serves to reiterate the idea that the romanticized notion of childhood, which has pervaded American culture for over two centuries, is little more than a cultural construction that bears little to no resemblance to the actual lived experience of American children. *Connecting Children with Classics* Meagan Lacy, Pauline Dewan, 2018-03-14 This guide identifies hundreds of books that can help children develop into engaged readers. Children's librarians, collection development specialists in public libraries, as well as K-8 school librarians and teachers will choose from the best in children's titles. This unique readers advisory and collection development guide for librarians and others who work with children focuses on readers and their needs rather than simply categorizing books by their characteristics and features as traditional literature guides do. Taking this unusual perspective brings forth powerful new tools and curricular ideas on how to promote the classics and how to best engage with young readers and meet their

personal and emotional needs to boost interest and engagement The guide identifies seven reader driven appeals or themes that are essential to successful readers advisory awakening new perspectives providing models for identity offering reassurance comfort strength and confirmation of self worth connecting with others giving courage to make a change facilitating acceptance and building a disinterested understanding of the world By becoming aware of and tapping into these seven themes librarians and other educators can help children more deeply connect with books thereby increasing the odds of becoming lifelong readers The detailed descriptions of each book provide plot summaries as well as notes on themes subjects reading interest levels adaptations and alternative formats translations and read alike This informative guide will also aid librarians in collection development and bibliotherapy services
