command to compile and execute code in cobol notepad - Nov 16 2021

web aug 24 2018 for compiling cobol you would use your cobol compiler rather than g and would have to format the

command line appropriately if your compiler is not in your path you will have to do something like c full path to compilecobol.exe if you don't want to also run the program when compiled then you could just remove the npp
