articular y comprender la lógica de la fe preguntándose por el Cristianismo como un todo para desde aquí tratar de mostrar cuáles es su realidad más específica y singular que la distingue y a su vez la pone en relación con otras ciencias humanas y con otras tradiciones religiosas. La síntesis más antigua y normativa para el Cristianismo ha sido el Símbolo de la fe. Desde su estructura trinitaria y bajo el entramado de la historia de la salvación se van exponiendo desde su lógica interna y su referencia a la totalidad los contenidos esenciales de los tratados de teología: Credo en Dios Padre, Trinidad y Antropología, Credo en Cristo, Cristología, Soteriología, Mariología, Credo en el Espíritu Santo, Eclesiología, Sacramentos, Escatología y Existencia cristiana precedidos por la reflexión en torno al acto de creer en la revelación de Dios en la historia testimoniada en la Escritura y la Tradición. Teología fundamental. Esta obra es el fruto del trabajo compartido de los profesores del departamento de Teología Dogmática y Fundamental de la Universidad Pontificia Comillas de Madrid. Para su exposición hemos seguido la fórmula clásica de las tesis que expresan de forma objetiva el contenido esencial que ha de saber un alumno de teología y que debe conocer todo aquel que quiera acercarse a la comprensión del misterio cristiano desde un rigor y una profundidad a la altura de la conciencia histórica y de la vida de la Iglesia.

En buena lógica Humberto Marraud González, 2020-11-06. No hay buenos y malos argumentos sino argumentos mejores y peores. Hubert Marraud, autor de este libro, nos presenta su enfoque de la argumentación en dos partes principales: la analítica y la crítica. En la primera, entre otras cosas, nos muestra la definición de argumentar, la importancia de los conectores y operadores argumentativos y la adopción de un modelo descriptivo. En la segunda, describe de manera sistemática los estándares implícitos en nuestras prácticas argumentativas. Esta publicación busca ser un paso más en la consolidación de una comunidad hispanohablante de teóricos de la argumentación.
