Lost Lunar Baedeker Poems Of Mina Loy:

The Lost Lunar Baedeker Mina Loy, 1996 There was a time when it was common to couple Mina Loy's name with that of W C Williams or Marianne Moore her advanced contemporaries considered her a literary and artistic genius a descendant of Sappho by way of Emily Dickinson But the public was scandalized by her work and some critics openly scorned it Not only were her Futurist inspired techniques unlike anything most readers had encountered before but her subjects procreation parturition prostitution suicide addiction retardation were considered shocking even by some modernists Mina Loy vanished from the literary scene just as dramatically as she arrived on it and for most of the century her bold experiments have remained a well kept secret But in recent years Loy's work has been discovered by a new generation of poets and critics and has begun to surface in revisionist anthologies What has been needed is a reliable text of the essential Loy poems To assemble The Lost Lunar Baedeker Roger Conover has rescued Loy's poems and prose works from the Dada magazines and other ephemeral publications where they first appeared All of Loy's notorious Futurist and feminist satires are included as are many poems from her Paris and New York periods the complete cycle of Love Songs and several previously unknown texts Detailed notes accompany the text BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Transformations of Trauma in Women's Writing Laura Alexander,2023-01-10 This volume examines the ways in which trauma alters women s identities While some of the chapters look deeply at individual experiences many of the contributions look to national traumas and the consequences of political abuses including colonial subjugation and genocide for women The book shows that language has a transformative power to change us to give us a great capacity for inner and outer dialogues and for healing and self love As shown here women have historically employed autobiography and memoir to free themselves and others rather than seeing the limit of form they reinvent the parameters to offer a new relationship with language

Pockets of Change Jane Stadler,Peta Mitchell,Adam Atkinson,Tricia Hopton,2011-04-29 The twelve essays collected in Pockets of Change locate adaptation within a framework of two overlapping if not simultaneous creative processes on the one hand adaptation is to be understood as an acknowledged transposition of an existing source that is the process of adapting from on the other hand adaption is also a process of purposeful shifting and evolving of creative practices in response to external factors including but not limited to other creative works in other words the process of adapting to This book explores adaptation then as an

active practice of repetition and as a reactive process of development or evolution The essays also extend beyond the production transformation and interpretation of texts to interrogate the values and practices at work in cultural transition and transformation during periods of social and historical change Collectively the papers theorize adaptation by taking on three tasks first to examine the conditions under which the two processes of adaptation operate second to give an account of the space and moment in which the processes unfold the pockets of the title and finally to examine what emerges from pockets of adaptation While adapting from and adapting to are both processes that appear to preclude innovation in the way that they acknowledge and depend on external sources Pockets of Change demonstrates that adaptation is productive It not only references prior texts attitudes practices and media but it also invites us to re visit the past and to re think the present in new ways potentially giving narrative space to muted or occluded voices This book therefore brings together an innovative and varied range of approaches to interpretations and uses of adaptation challenging the assumption that an adaptation is simply either a re make or the act of turning one medium into another Adaptation then names not only the means by which texts are transformed but also the space in which that transformation takes place T **Dynamic Form** Cara L.

Lewis,2020-07-15 Dynamic Form traces how intermedial experiments shape modernist texts from 1900 to 1950 Considering literature alongside painting sculpture photography and film Cara Lewis examines how these arts inflect narrative movement contribute to plot events and configure poetry and memoir As forms and formal theories cross from one artistic realm to another and back again modernism shows its obsession with form and even at times becomes a formalism itself but as Lewis writes that form is far more dynamic than we have given it credit for Form fulfills such various functions that we cannot characterize it as a mere container for content or matter nor can we consign it to ignominy opposite historicism or political commitment As a structure or scheme that enables action form in modernism can be plastic protean or even fragile and works by Henry James Virginia Woolf Mina Loy Evelyn Waugh and Gertrude Stein demonstrate the range of form s operations Revising three major formal paradigms spatial form pure form and formlessness and recasting the history of modernist form this book proposes an understanding of form as a verbal category as a kind of doing Dynamic Form thus opens new possibilities for conversation between modernist studies and formalist studies and simultaneously promotes a capacious rethinking of the convergence between literary modernism and creative work in other media *A Companion to American Literature* Susan Belasco,Theresa Strouth Gaul,Linck Johnson,Michael Soto,2020-04-03 A comprehensive chronological overview of American literature in three scholarly and authoritative volumes A Companion to American Literature traces the history and development of American literature from its early origins in Native American oral tradition to 21st century digital literature This comprehensive three volume set brings together contributions from a diverse international team of accomplished young scholars and established figures in the field Contributors explore a broad range of topics in historical cultural political geographic and technological contexts engaging the work of both well known and non
