Dietary Studies in New Mexico in 1895 Arthur Goss,1897 **Tea** James R. Fichter,2023-12-15 In Tea James R Fichter reveals that despite the so called Boston Tea Party in 1773 two large shipments of tea from the East India Company survived and were ultimately drunk in North America Their survival shaped the politics of the years ahead impeded efforts to reimburse the company for the tea lost in Boston Harbor and hinted at the enduring potency of consumerism in revolutionary politics Tea protests were widespread in 1774 but so were tea advertisements and tea sales Fichter argues The protests were noisy and sometimes misleading performances not clear signs that tea

consumption was unpopular Revolutionaries vilified tea in their propaganda and prohibited the importation and consumption of tea and British goods Yet merchant ledgers reveal these goods were still widely sold and consumed in 1775 Colonists supported Patriots more than they abided by non consumption When Congress ended its prohibition against tea in 1776 it reasoned that the ban was too widely violated to enforce War was a more effective means than boycott for resisting Parliament after all and as rebel arms advanced Patriots seized tea and other goods Britons left behind By 1776 protesters sought tea and objecting to its high price redistributed rather than destroyed it Yet as Fichter demonstrates in *Tea* by then the commodity was not a symbol of the British state but of American consumerism
