Musical Form And Musical Performance:

Musical Form and Musical Performance Edward T. Cone, 1968 3 essays on musical form and performance

Musical Performance Stan Godlovitch, 2002-01-31 Most music we hear comes to us via a recording medium on which sound has been stored Such remoteness of music heard from music made has become so commonplace it is rarely considered Musical Performance A Philosophical Study considers the implications of this separation for live musical performance and music making Rather than examining the composition or perception of music as most philosophical accounts of music do Stan Godlovitch takes up the problem of how the tradition of active music playing and performing has been challenged by technology and what problems this poses for philosophical aesthetics Where does the value of musical performance lie Is human performance of music a mere transfer medium Is the performance of music more expressive than recorded music Musical Performance poses questions such as these to develop a fascinating account of music today musicians but via some recording medium on which sound has been stored

Musical Form, Forms & Formenlehre William Earl Caplin, James Arnold Hepokoski, James Webster, 2009 In *Musical Form Forms and Formenlehre* three eminent music theorists reflect on the fundamentals of musical form They discuss how to analyze form in music and question the relevance of analytical theories and methods in general They illustrate their basic concepts and concerns by offering some concrete analyses of works by Mozart Idomeneo Overture Jupiter Symphony and Beethoven First and Pastoral Symphony Egmont Overture and Die Ruinen von Athen Overture The volume is divided into three parts focusing on Caplin's theory of formal functions Hepokoski's concept of dialogic form and Webster's method of multivalent analysis respectively Each part begins with a basic essay by one of the three authors Subsequently the two opposing authors comment on issues and analyses they consider to be problematic or underdeveloped in a style that ranges from the gently critical to the overtly polemical Finally the author of the initial essay is given the opportunity to reply to the comments and to further refine his own fundamental ideas on musical form

Musical Performance John Rink, 2002-12-12 Table of contents [Conceptualizing Music](#) Lawrence M. Zbikowski, 2002-11-14 This book shows how recent work in cognitive science especially that developed by cognitive linguists and cognitive psychologists can be used to explain how we understand music The book focuses on three cognitive processes categorization cross domain mapping and the use of conceptual models and explores the part these play in theories of musical organization The first part of the book provides a detailed overview of the relevant work in cognitive science framed around specific musical examples The second part brings this perspective to bear on a number of issues with which music scholarship has often been occupied including the emergence of musical syntax and its relationship to musical semiosis the problem of musical ontology the relationship between words and music in songs and conceptions of musical form and musical hierarchy The book will be of interest to music theorists musicologists and ethnomusicologists as well as those with a professional or avocational interest in the application of work in cognitive science to humanistic principles [The Romantic](#)

Overture and Musical Form from Rossini to Wagner Steven Vande Moortele, 2017-04-27 The first comprehensive study of musical form in operatic and concert overtures in continental Europe between 1815 and 1850 Investigating Musical Performance Gianmario Borio, Giovanni Giuriati, Alessandro Cecchi, Marco Lutz, 2020-05-21 Investigating Musical Performance considers the wide range of perspectives on musical performance made tangible by the cross disciplinary studies of the last decades and encourages a comparison and revision of theoretical and analytical paradigms The chapters present different approaches to this multi layered phenomenon including the results of significant research projects The complex nature of musical performance is revealed within each section which either suggests aspects of dialogue and contiguity or discusses divergences between theoretical models and perspectives Part I elaborates on the history current trends and crucial aspects of the study of musical performance Part II is devoted to the development of theoretical models highlighting sharply distinguished positions Part III explores the relationship between sign and sound in score based performances finally the focus of Part IV centres on gesture considered within different traditions of musicmaking Three extra chapters by the editors complement Parts I and III and can be accessed via the online Routledge Music Research Portal The volume shows actual and possible connections between topics problems analytical methods and theories thereby reflecting the wealth of stimuli offered by research on the musical cultures of our times **Music, Performance, Meaning** Nicholas Cook, 2017-07-05 This selection of sixteen of Nicholas Cook's essays covers the period from 1987 to 2004 and brings out the development of the author's ideas over these years In particular the two keywords of the title Meaning and Performance represent critical directions that expand to the point that by the end of the book they become coextensive music is seen as social action and meaning as created by that action Within this overall direction a wide variety of topics is explored ranging from Beethoven to Schenker from Chinese qin music to jazz and rock from perceptual psychology to sketch studies and analysis of record sleeves A substantial introduction draws out the links and differences between the essays sometimes critiquing them and always setting them into the developing context of the author's work as a whole **Library of Congress Subject Headings** Library of Congress, 2003 Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office, 2009 **A Style and Usage Guide to Writing About Music** Thomas Donahue, 2010-04-01 In A Style and Usage Guide to Writing About Music Thomas Donahue presents a collection of guidelines to help express through the written word the special notations terms and concepts found in the discipline of music It concentrates on questions of style and format in the interest of good formal writing within the context of United States English so that writers may communicate their ideas clearly and effectively While compiling the guidelines Donahue reviewed content from many other music and general guides He documented the most common formats in order to assist the writer in selecting an appropriate format for the given circumstance when more than one may apply The book draws on profuse musically oriented examples and is arranged by topics both musical and typographic such as the proper use and

spelling of composer names and musical concepts the use of notes pitches and octave delineations letters and numbers employed to describe form and harmony when where and how to apply compound words and hyphenation of terms and names and the proper citation of musical and audiovisual sources The book concludes with a glossary of typographic terms a bibliography and a comprehensive index making this a valuable resource for students scholars teachers and writers

Dialectic of Pop Agnes Gayraud,2020-01-28 A philosophical exploration of pop music that reveals a rich self reflexive art form with unsuspected depths In the first major philosophical treatise on the subject Agn s Gayraud explores all the paradoxes of pop its inauthentic authenticity its mass production of emotion and personal resonance its repetitive novelty its precision engineering of seduction and calls for pop in its broadest sense encompassing all genres of popular recorded music to be recognized as a modern technologically mediated art form to rank alongside cinema and photography In a thoroughgoing engagement with Adorno s fierce critique of standardized light popular music *Dialectic of Pop* tracks the transformations of the pop form and its audience over the course of the twentieth century from Hillbilly to Beyonc from Lead Belly to Drake Inseparable from the materiality of its technical media indifferent and intractable to the perspectives of high culture pop subverts notions of authenticity and inauthenticity original and copy aura and commodity medium and message Gayraud demonstrates that far from being the artless and trivial mass produced pabulum denigrated by Adorno pop is a rich self reflexive artform that recognises its own contradictions incorporates its own productive negativity and often flourishes by thinking against itself *Dialectic of Pop* sings the praises of pop as a constitutively impure form resulting from the encounter between industrial production and the human predilection for song and diagnoses the prospects for twenty first century pop as it continues to adapt to ever changing technological mediations

On The Meta-category Of Chinese Music Aesthetics Sai Yang,2021-07-02 This book opens with the emergence and development of the discipline of aesthetics in western countries specifically the history of Western Music Aesthetics to study and delve into the development of Chinese Music Aesthetics The book provides a clear timeline throughout the writing from the history of Chinese Music Aesthetics to the construction of a theoretical framework and the intersections and conversations between Western and Chinese Music Aesthetics This academic piece is fundamentally consistent with the developing field of Chinese philosophical and literary research This book also discusses important music aesthetic categories of Confucianism Taoism Mohism and metaphysics and uses critical thinking to analyse the relationship between these categories and relevant schools of thought reflecting the author s academic vision and thought process

Subject Headings Used in the Dictionary Catalogs of the Library of Congress [from 1897 Through June 1964] Library of Congress. Subject Cataloging Division,1966 **4000-4999, Arts; 5000-5999, Theology; 6000-6999, Philosophy and education** Princeton University. Library,1920 Anthology of Musical Forms - Structure & Style

(Expanded Edition) Leon Stein, 1999-11-27 *Structure and Style* first published in 1962 and expanded in 1979 fills the need for new ways of analysis that put 20th century music in perspective. It spans forms in use before 1600 through forms and techniques in use today. *Anthology of Musical Forms* provides musical examples of forms treated in *Structure and Style*. Some examples are analyzed throughout. Most are left for the student to analyze. These books reflect Leon Stein's impressive background as student musician and composer. Stein studied composition with Leo Sowerby, Frederick Stock, conductor of the Chicago Symphony, and orchestration with Eric DeLamar, his assistant. He earned M. Mus. and Ph.D. degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works including compositions for orchestra, chamber combinations, two operas, and a violin concerto.
