My Life In Advertising American Biography Series:

My Life in Advertising Claude C. Hopkins, 1917 This book is not written as a personal history but as a business story I have tried to avoid trivialities and to confine myself to matters of instructive interest The chief object behind every episode is to offer helpful suggestions to those who will follow me And to save them some of the midnight groping which I did One night in Los Angeles I told this story to Ben Hampton writer publisher and advertising man He listened for hours without interruption because he saw in this career so much of value to beginners He never rested until he had my promise to set down the story for publication He was right Any man who by a lifetime of excessive application learns more about anything than others owes a statement to successors The results of research should be recorded Every pioneer should blaze his trail That is all I have tried to do When this autobiography was announced as a serial many letters of protest came to me Some of them came from the heads of big businesses which I had served Behind them appeared the fear that I would claim excessive credit to the hurt of others pride I rewrote some of the chapters to eliminate every possible cause for such apprehensions

Fair, Vogue, Woman's Home Companion, World's Work ,1911 **The History of My Life** Samuel Young,1890 Modern Advertising and the Market for Audience Attention Zoe Sherman,2019-12-05 Modern advertising was created in the US between 1870 and 1920 when advertisers and the increasingly specialized advertising industry that served them crafted means of reliable access to and knowledge of audiences This highly original and accessible book re centers the story of the invention of modern advertising on the question of how access to audiences was streamlined and standardized Drawing from late nineteenth and early twentieth century materials especially from the advertising industry s professional journals and the business press chapters on the development of print media billboard and direct mail advertising illustrate the struggles amongst advertisers intermediaries audience sellers and often resistant audiences themselves Over time the maturing advertising industry transformed the haphazard business of getting advertisements before the eyes of the public into a market in which audience attention could be traded as a commodity This book applies economic theory with historical narrative to explain market participants ongoing quests to expand the reach of the market and to increase the efficiency of attention harvesting operations It will be of interest to scholars of contemporary American advertising the history of advertising more generally and also of economic history and theory The Automobile and American Life, 2d ed. John Heitmann,2018-08-14 Now revised and updated this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time It details cars inception as a mechanical curiosity and later a plaything for the wealthy racing and the promotion of the industry Henry Ford and the advent of mass production market competition during the 1920s the development of roads and accompanying highway culture the effects of the Great Depression and World War II the automotive Golden Age of the 1950s oil crises and the turbulent 1970s the decline and then resurgence of the Big Three and how American car culture has been represented in film music and literature Updated notes and a select bibliography serve as valuable resources to those interested in automotive history **Sold American** Charles F. McGovern,2009-01-06 At the turn of the twentieth century an emerging consumer culture in the United States promoted constant spending to meet material needs and develop social identity and self cultivation In *Sold American* Charles F McGovern examines the key players active in shaping this cultural evolution advertisers and consumer advocates McGovern argues that even though these two professional groups invented radically different models for proper spending both groups propagated mass consumption as a specifically American social practice and an important element of nationality and citizenship Advertisers McGovern shows used nationalist ideals icons and political language to define consumption as the foundation of the pursuit of happiness Consumer advocates on the other hand viewed the market with a republican inspired skepticism and fought commercial incursions on consumer independence The result says McGovern was a redefinition of the citizen as consumer The articulation of an American Way of Life in the Depression and World War II ratified consumer abundance as the basis of a distinct American culture and history
