Israel and the Daughters of the Shoah Ronit Lentin, 2000-10-01 The murder of a third of Europe's Jews by the Nazis is unquestionably the worst catastrophe in the history

of contemporary Judaism and a formative event in the history of Zionism and the State of Israel Understandably therefore the Shoah written about analyzed and given various political interpretations has shaped public discourse in the history of the State of Israel The key element of Shoah in the Israeli context is victimhood and as such it has become a source of shame shrouded in silence and subordinated to the dominant discourse which resulting from the construction of a new Hebrew active subjectivity taught the postwar generation of Israelis to reject diaspora Jewry and its alleged passivity in the face of catastrophe This book is the culmination of years of preoccupation with the meaning of the Shoah for the author an Israeli woman with a split subjectivity that of a daughter of a family of Shoah survivors and that of a daughter of the first Israeli born generation the culmination of her need to break the silence about the Shoah in a society which constructed itself as the Israeli antithesis to diaspora Jewry and to excavate a truth from underneath the mountain of Zionist nation building myths These myths the author argues not only had deep implication for the formation of her generation but also a profound impact on the Israeli Palestinian conflict Moreover they are shot through with images of the masculine Israeli contrasted with those of the weak passive non virile Jewish Other of the diaspora This book offers the first gendered analysis of Israeli society and the Shoah The author employs personal narratives of nine Israeli daughters of Shoah survivors writers and film makers and a feminist re reading of official and unofficial Israeli and Zionist discourses to explore the ways in which the relationship between Israel and the Shoah has been gendered in that the Shoah was feminized while Israel was masculinized This new perspective has considerable implications for the analysis of Israeli society a gendered analysis of Israeli construction of nation reveals how the Shoah and Shoah discourse are exploited to justify Israel's i.e. the new Hebrew's self perceived right of occupation Israel thus not only negated the Jewish diaspora but also stigmatized and feminized Shoah victims and survivors all the while employing Shoah discourses as an excuse for occupation both in the past and in the present
