Finely tuned reflections from an award winning author on a small but fully inhabited piece of the backwoods make this an adventure worth savoring Kirkus Reviews At twenty years old Pete Fromm heard of a job babysitting salmon eggs seven winter months alone in a tent in the Selway Bitterroot Wilderness Leaping at this chance to be a mountain man with no experience in the wilds he left the world Thirteen years later he published his beloved memoir of that winter Indian Creek Chronicles Twenty five years later he was asked to return to the wilderness to babysit more fish eggs But no longer a footloose twenty year old at forty five he was the father of two young sons He left again alone straight into the heart of Montana's Bob Marshall wilderness walking a daily ten mile loop to his fish eggs through deer and elk and the highest density of grizzly bears in the lower forty eight states The Names of the Stars is not only a story of a trek through the wilderness but also an account of how an impulsive kid transformed into a father without losing his love for the wilds From loon calls echoing across Northwood lakes to the grim realities of life guarding in the Nevada desert through the isolation of Indian Creek and years spent running the Snake and Rio Grande as a river ranger Pete seeks out the source of this passion for wildness as well as explores fatherhood and mortality and all the costs and risks and rewards of life lived on its own terms Inspiring Jim Lynch author of *Before the Wind* A coming of age book for adults it is a tightrope walk between holding on to who you are and letting go a little for something you love even more Kenyon Review
