**The Ten Commandments** Prof. John C. Holbert, 2011-09-01 Many resources have been written to offer assistance in exploring and

understanding the lectionary texts for the purpose of preaching However few have sought to provide this kind of preaching commentary on texts that do not follow the lectionary s grouping For those whose preaching does not customarily follow the lectionary and for those who depart from the lectionary text during certain periods of the year little guidance has been offered for how to select and preach on important biblical texts The Ten Commandments A Preaching Commentary the first book in The Great Texts series gives guidance to preachers on preaching about this central part of faith The principles by which volumes in The Great Texts series have been chosen are primarily two fold 1 Thematic Texts on certain overarching themes or ideas of the Christian faith are brought together 2 Biblical traditional Texts that have long been recognized as belonging together and as being particularly beneficial to the work of preaching Chaim Potok Edward A. Abramson,1986

*Can These Dry Bones Live?* Frances M. Young,2010-09-01 Frances Young who won high critical acclaim for her deeply committed book *Sacrifice and the Death of Christ* seeks to convey the excitement of the theological quest the excitement of studying the Bible the excitement of wrestling with what might seem outmoded and irrelevant ways of thinking and discovering that there is a chiming with experience She offers a study of atonement as a demonstration of the possibilities It stems from a deep preoccupation with suffering and its meaning the outstretched arms of the crucified Christ the image of the woman in travail But this suffering and pain is the prelude to new birth to vision and hope to the feast of the kingdom New birth and new creation she sees lie at the heart of the Christian message and our own growth depends on the painful but rewarding labor of appropriating the Bible and our Christian heritage through critical reflection
