My Life Of Absurdity:

My Life of Absurdity Chester B. Himes, 1976 *My Life of Absurdity* Chester B. Himes, 1976 **Surrealism and the Art of Crime** Jonathan Paul Eburne, 2008 Corpses mark surrealism's path through the twentieth century providing material evidence of the violence in modern life Though the shifting group of poets artists and critics who made up the surrealist movement were witness to total war revolutionary violence and mass killing it was the tawdry reality of everyday crime that fascinated them Jonathan P Eburne shows us how this focus reveals the relationship between aesthetics and politics in the thought and artwork of the surrealists and establishes their movement as a useful platform for addressing the contemporary problem of violence both individual and political In a book strikingly illustrated with surrealist artworks and their sometimes gruesome source material Eburne addresses key individual works by both better known surrealist writers and artists including Andr Breton Louis Aragon Aim C saire Jacques Lacan Georges Bataille Max Ernst and Salvador Dal and lesser known figures such as Ren Crevel Simone Breton Leonora Carrington Benjamin P ret and Jules Monnerot For Eburne the art of crime denotes an array of cultural production including sensationalist journalism detective mysteries police blotters crime scene photos and documents of medical and legal opinion as well as the roman noir in particular the first crime novel of the American Chester Himes The surrealists collected and scrutinized such materials using them as the inspiration for the outpouring of political tracts pamphlets and artworks through which they sought to expose the forms of violence perpetrated in the name of the state its courts and respectable bourgeois values Concluding with the surrealists quarrel with the existentialists and their bitter condemnation of France's anticolonial wars *Surrealism and the Art of Crime* establishes surrealism as a vital element in the intellectual political and artistic history of the twentieth century **Is Human Life Absurd? A Philosophical Inquiry into Finitude, Value, and Meaning** Raymond Angelo Belliotti, 2019-06-24 In this work Belliotti unravels the paradoxes of human existence The purpose of this philosophical journey is to reveal paths for forging meaningful significant valuable even important lives By examining notions of The Absurd expressed within Search for the Holy Grail The Seventh Seal and The Big Lebowski the author crafts a working definition of absurdity He then investigates the contributions of classical thinkers such as Shakespeare Schopenhauer Nietzsche Kierkegaard Tolstoy Sartre Camus as well as philosophers such as Nagel Feinberg and Taylor After arguing that human life is not inherently absurd Belliotti examines the implications of mortality for human existence the relationship between subjective and objective meaning and the persuasiveness of several challenging contemporary renderings of meaningful human lives The several lives of Chester Himes, 1997 The Writings of Chester Himes are colored by a fascinating blend of hatred and tenderness of hard boiled realism and generous idealism His life was complex his relationships complicated How did this gifted son of a respectable southern black family become a juvenile delinquent How did he acquire self esteem and a new sense of identity by writing short stories while in the Ohio state penitentiary Drawn from his letters notebooks memoirs and fiction this

straightforward account of Himes's varied episodic life attempts to trace the origins of his significant literary gift. It details the socioeconomic familial and cultural background that fed his ambivalent views on race in America. His Deep South childhood, his adolescence in the Midwest, his young manhood in prison, his years as a menial laborer, his struggle as an author in California and New York City, and finally his glory days as an expatriate and celebrity in France and Spain are plumbed deeply for their effects upon his creative urges and his works. In his native country, Himes is recalled more as the author of successful detective novels such as *Cotton Comes to Harlem* than as a practitioner of the art of fiction. In France and Spain, his adopted countries, he is regarded as a literary master. This critical biography is the bittersweet story of a troubled man who found salvation in writing.

Exiled in Paris James Campbell, 2003-02 This is the first book to explore the English language literary scene in Paris after World War II, including the intersecting lives of Richard Wright, Samuel Beckett, James Baldwin, and Maurice Girodias.

Being and Nothingness Jean-Paul Sartre, 2021-09-07 one of the greatest philosophical works of the twentieth century. In it, Sartre offers nothing less than a brilliant and radical account of the human condition. The English philosopher and novelist Iris Murdoch wrote to a friend of the excitement: "I remember nothing like it since the days of discovering Keats and Shelley and Coleridge." What gives our lives significance, Sartre argues, in *Being and Nothingness* is not pre-established for us by God or nature, but is something for which we ourselves are responsible. Combining this with the unsettling view that human existence is characterized by radical freedom and the inescapability of choice, Sartre introduces us to a cast of ideas and characters that are part of philosophical legend: anguish, the bad faith of the memorable waiter in the café, sexual desire, and the look of the other brought to life by Sartre's famous description of someone looking through a keyhole. Above all, by arguing that we alone create our values and that human relationships are characterized by hopeless conflict, Sartre paints a stark and controversial picture of our moral universe, and one that resonates strongly today. This new translation includes a helpful Translator's Introduction, notes on the translation, a comprehensive index, and a foreword by Richard Moran. Provided by publisher.

Hard-boiled Sentimentality Leonard Cassuto, 2009 Leonard Cassuto's cultural history of the hard-boiled crime genre recovers the fascinating link between tough guys and sensitive women.

The Marriage of All and Nothing Barbara Dent, 2001 Edited by Mary Freiburger. Sequel to *My Only Friend is Darkness*, this new offering of Barbara Dent's writings brings together articles already published elsewhere and forty-one previously unpublished poems. The New Zealand author's intensely personal experiential style gives flesh and bones to the notion of the dark night of the soul. In this new book, Barbara Dent goes beyond merely generic expositions of that key concept of Carmelite spirituality to craft her own vivid witness, one that speaks always in tones of our times. This she does as a mother, writer, mystic, and Carmelite secular order member. As she identifies the major events of her adult life in biographical pieces, both by prose and in poetry, she reveals how adept a guide she is to managing the darkness of physical suffering and spiritual progress. The reader will appreciate all the attention she pays in line with modern renewal movements.
