My Scene 2005 Calendar:

Joys and Sorrows of Imaginary Persons Donald Wesling, 2008 Joys and Sorrows of Imaginary Persons is a literary approach to consciousness where Donald Wesling denies that emotion is the scandal or handmaid of reason rather emotion is the co creator with reason of human life in the world Discoveries in neuro science in the 1990s Decade of the Brain have proven that thinking and feeling are wrapped with each other and regulate and fulfill each other Accepting this co creative equality we reveal a new role for literature or a traditional role we've repressed literature as a set of processes in time where we've thought feeling through stories about the lives of imaginary persons We need these stories in order to practice emotions for when we return to the world from reading Donald Wesling argues that to be more accurate in our dealings with stories we require a grammar of this new recognition where we build up traditional stylistics by a more careful tracking of emotion states as these are set into writing The first half of Joys and Sorrows of Imaginary Persons offers a creative stock taking of the current state of scholarship on emotion based on wide reading in several fields The second half gives three focused studies rich in examples of emotion as cognition as story and as historical structure of feeling *Clue Seeker* T. Owens Moore, 2007-10-25 Take this journey with Dr Moore as he courses throughout many regions of the world to search for what it means to have an African consciousness In this exploration the reader will experience the author's interactions with different cultures as he searches for an identity in this global society Although this book is a personal journey it can provide direction inspiration and guidance for those individuals who know there is a greater force directing their own lives The number 13 symbolizes transformation and the number 13 has led Moore to peace and tranquility In your own life you may have recognized that there are special people and intriguing interactions that can enlighten your awareness of a higher consciousness Moore has tapped into his flow and this book will help guide you along your personal journey in life

Gandolfini Jason Bailey, 2025-04-29 A deeply reported perceptive and celebratory biography of beloved actor James Gandolfini from a prominent critic and film historian Named one of the most anticipated books of the year by the AV Club Based on extensive research and original reporting including interviews with friends and collaborators Gandolfini is a detailed and nuanced appraisal of an enduring artist More than a decade after his sudden passing James Gandolfini still exerts a powerful pull on television and film enthusiasts around the world His charismatic portrayal of complex flawed but always human men illuminated the contradictions in all of us as well as our potential for grace and the power of love and family In Gandolfini critic and historian Jason Bailey traces the twinned stories of the man and the unforgettable roles he played Gandolfini's roots were working class raised in northern New Jersey as the son of Italian immigrants and acting was something he loved for a long time before he could see it as a career It wasn't until he was well into his bohemian twenties that he dedicated himself to a life on the stage and screen Bailey traces his rise from bit parts to character roles he enlivened with menace and vulnerability to Tony Soprano the breakout role that would make him a legend and onto a post Sopranos career in which he continued to challenge himself and his audience

The Last Word and the Word after That Brian D. McLaren, 2012-07-05 For all those seeking more authentic ways to hold and practice Christian faith Brian McLaren has been an inspiring compassionate and provocative voice Starting with the award-winning *A New Kind of Christian* McLaren offered a lively wide-ranging fictional conversation between Pastor

Dan Poole and his friend Neil Oliver as they reflected about faith doubt reason mission leadership and spiritual practice in the emerging postmodern world That conversation widened to include several intriguing new characters in the sequel *The Story We Find Ourselves In* as Dan and friends continued to explore faith stretching themes from evolution to evangelism from death to the meaning of life Now in this third installment of their adventures Dan and his widening circle of friends grapple with conventional Christian teachings about hell and judgment and what they mean for our relationship with God and each other Is there an alternative to the usual polar views of a just God short on mercy or a merciful God short on justice Could our conflicted views of hell be symptoms of a deeper set of problems misunderstandings about what God's justice and mercy are about misconceptions about God's purpose in creating the world deep misgivings about what kind of character God is and what the Christian gospel is for
