American Latvians Ieva Zake, 2017-09-08 This book analyzes the political experience of a small and unique American ethnic group American Latvians This community was constituted by post World War II political refugees who fled Communism and arrived in the United States seeking safety and protection For decades they insisted on preserving their ethnic identity and therefore did not call themselves Latvian Americans Instead they formed a distinctive double identity that is they blended into the American society economically and socially but refused to become

assimilated culturally and politically The book offers a detailed look into the life of this community of political refugees which also provides a novel perspective on the Cold War as experienced by certain ethnic groups From a theoretical point of view the book makes two major contributions First it reasserts the need to understand the generalized category of white Americans or white ethnics with more nuance and attention to differences and second it strengthens the so called realist claim that refugees are not like other immigrants In order to achieve these goals the book provides compelling descriptions and interpretations of the most politically relevant moments in the experience of American Latvians in the period between the 1950s and the 1990s Concretely the book deals with topics as the American Latvians anti communist activism the impact of the hunt for Nazis on Latvian emigres the Soviet Union s anti emigre propaganda campaigns and the exiled Latvians involvement in the politics of national liberation in Latvia The author strives to reveal the complexity of the refugee experience in the United States during the Cold War and its aftermath Since such aspects of the life of ethnic groups in the United States have not been sufficiently studied this book makes a substantial contribution to a fuller understanding of American immigration history and sociology of ethnic groups It is well written expertly organized and will be of interest to a large readership at many levels of academia *Writing Ann Arbor* Laurence Goldstein, 2005 A far reaching collection of essays poetry fiction and writing on Ann Arbor by some of the great thinkers and writers of the last two centuries
