Historical Dictionary of Namibia Victor L. Tonchi, William A. Lindeke, John J. Grotper, 2012-08-31 On March 21 1990 Sam Nujoma was sworn in as the first president of independent Namibia This ceremony marked the end of a struggle that lasted more than two decades and a period of colonialism that lasted more than a century Finally after decades long wars over grazing in the 19th century genocidal colonial suppression by Germany at the beginning of the 20th century repressive apartheid racialism throughout the 20th century and a prolonged armed liberation struggle Namibians had the chance to choose their own leaders develop a democratic political process in a free society and to bring economic development and greater equity to their country The Historical Dictionary of Namibia covers the history of Namibia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Namibia

Understanding Namibia Henning Melber, 2015-01-04 he book offers a frank account of an African state that shook off colonial rule but has yet to see the fruits of independence distributed evenly among its people Drawing on inside knowledge of SWAPO the anti colonial liberation movement the author provides a valuable case study of nation building in the modern era

African Industrial Development and European Union Co-operation Francis Matambalya, 2014-08-27 Of the 54 African states only South Africa is categorised by the United Nations Industrial Development Organization UNIDO amongst industrialised countries The economic activities in Africa are still dominated by the production and trade of agricultural and mineral commodities This situation is in spite of the longstanding Africa European Union EU co operation which intends among other things to support Africa s industrialisation endeavours Imperatively a long road to substantive levels of industrialisation still lies ahead of most African countries This raises the question as to what role the international community could and should play in the twenty first century to provide the support needed to expedite Africa s industrial transformation This book argues that to supplement the initiatives of each African country international partnerships of both a North South and South South nature will serve better purposes if they are leveraged to develop productive capacities in African economies In order to enable the African countries to leverage their traditional partnership with the EU for industrialisation a paradigm shift is obligatory A feasible model should emulate the Japanese led flying geese model and the Chinese led bamboo capitalism model

Security and Democracy in Southern Africa Gavin Cawthra, André Du Pisani, Abillah H. Omari, 2007 A study of the ambiguity of democratization and how it can generate violence Southern Africa has embarked on one of the world s most ambitious security co operation initiatives seeking to roll out the principles of the United Nations at regional

levels This book examines the triangular relationship between democratization the character of democracy and its deficits and national security practices and perceptions of eleven southern African states Based on national studies conducted by African academics and security practitioners over three years it includes an examination of the way security is conceived and managed as well as a comparative analysis of regional security co operation in the developing world The study concludes that democratization is ambiguous and uncertain and can in some cases generate violent conflict Building a common security regime in southern Africa will require moving beyond regime solidarity In particular progress will mean building multinational institutions entrenching democratic practices drawing on civil society and integrating the southern African project with that of the African Union The authors conclude with a set of policy recommendations that aim to strengthen both states and civil society within the framework of an emerging common security system The Department of Labor's ...

Russell,Kate Malleson,2006-01-01 The main aim of this volume is to analyse common issues arising from increasing judicial power in the context of different political and legal systems including those in North America Africa Europe Australia and Asia „Little Research Value.“ Ellen Ndeshi Namhila,2017-12-14 Ellen Ndeshi Namhila is intrigued by the question Why can the National Archives of Namibia respond to genealogical enquiries of Whites in a matter of minutes with finding estate records of deceased persons while similar requests from Blacks cannot be served Not satisfied with the sweeping statement that this is the result of colonialism and apartheid she follows the track of so called Native estates through legislation record creation and dispersal records management and administrative neglect authorised and unauthorised destruction transfer and appraisal selective processing and almost final amnesia Eventually she discovers over 11 000 forgotten surviving African estate records but also evidence for the destruction of many others And she demonstrates the potential of these records to interpret the lives of those who otherwise appear in history only as statistics records which were condemned to destruction by colonial archivists stating they had little research value and no functional value This study of memory against forgetting is a call to post colonial archives to re visit their holdings and the systemic colonial bias that continues to haunt them This is the revised version of Ellen Namhila s 2015 doctoral thesis published at the University of Tampere Finland *Namibia Vision 2030* Namibia.
