El análisis histórico integral del fenómeno de la modernización esclarece las relaciones entre las dimensiones jurídica y técnica con los sectores público y privado. Esto permite reconocer el papel director del marco jurídico administrativo en el servicio de los intereses generales, objetivo esencial de la Administración pública. This book examines the effects of administrative modernisation in the legal framework whose displacement or indetermination in public management regardless of any changes in policies impacts on the rule of law and threatens its essential role in the liberal democratic system. The comprehensive historical analysis of the phenomenon of modernisation sheds light on the relationship between the legal and technical dimensions and how this interacts with the public and private sectors. This allows the recognition of the leading role of Administrative Law in the service of common interest, the essential objective of the Public Administration.
