United States Carl Wells, 2010-10-22 The Christian Betrayal of the United States theorizes that 100% of the problems of the United States have their root in the conservative Bible believing Christian church of this country. Countless books by liberal Christians or by non Christians have accused the Christian right of being a dangerous segment of our country. Following the principles of the Christian right will lead to tyranny so the theory goes. The Christian Betrayal of the United States takes a very different tack. According to the author the Bible believing Christians have betrayed their country already by their actions in many distinct arenas of life. Those who have cursed the Bible believing Christians as being too Christian have got it exactly backward. They may curse Christians again when they understand that Christians were not Christian enough. The author far from being a liberal Christian or a humanist is a self professed conservative Bible believing Christian. He strives to show how his own people have betrayed their nation. It is a dark story. On the brighter side the author also tries to grope toward a solution of the problems he and his people have caused.
