Nuptial Mystery:

The Nuptial Mystery Angelo Scola, 2005-05-12 Translated by Michelle K Borrás The idea of love pervades our society yet it is nearly impossible to answer the question What is love especially as we witness the divorce of love from sexuality and of sexuality from procreation Aware that many people today are skeptical about marriage Angelo Cardinal Scola nevertheless suggests that only in the category of nuptial mystery do we find a way to adequately describe the phenomenon of love A bright new leader in the Catholic Church Cardinal Scola argues that the male female relationship lies near the heart of what it means to bear the image of God Scola's book explores the essential sexual differences that both separate and unite men and women and it shows how men and women can realize their purpose in marriage or celibacy Conversant with papal teaching and Catholic writers from Aquinas to von Balthasar Cardinal Scola writes with a deep regard for marriage and the family His Nuptial Mystery will leave readers with a thoroughly Christian appreciation for incarnate love The Nuptial Mystery Angelo Scola, 2002

God and Eros Colin Patterson, Conor Sweeney, 2015-10-12 What can God and eros have to do with each other Against Nietzsche's claim that Christianity poisoned eros God and Eros rereads the mystery of human love as an ecstatic sharing in the mystery of the triune God who is Love Body sex and affectivity far from being locked in a lower order called nature instead belong to a sacramental order that is permeated by the call to love In presentations designed to appeal to a general audience the faculty of the John Paul II Institute for Marriage and Family Melbourne approach this mystery through the lens of St John Paul II's theology of the body with the goal to both introduce and more clearly illumine its major features In particular emphasis is placed on how a theology of the body is not just about sex Rather it is above all about how each and every person no matter what her state of life is stamped by the watermark of being from and being for Working within this broader perspective God and Eros offers the reader a lively engaging and at times challenging tour of the full ethos of the nuptial mystery

Divine Likeness Marc Ouellet, 2006-06-15 Marked by growing freedom and equality today's families are also dogged by brokenness and loss of faith And while the theology of marriage has developed remarkably under the impetus of the Second Vatican Council and Pope John Paul II the theology of the family remains in its infancy only beginning to meet the challenges of contemporary society In Divine Likeness Marc Cardinal Ouellet points the way to a much needed theology of the family grounded in the doctrine of the Trinity Cardinal Ouellet understands family life to be a sacrament of Trinitarian communion a crucial source for revealing and inspiring a new sense of God's presence in the faith community This book will help theologians pastors and believers to develop fruitfully the legacy of Pope John Paul II carrying forward the quest to let the Trinity and the family illuminate each other for the good of today's world

The Voice of the Bridegroom Benjamin A. Roberts, 2021-02-02 Preaching is a relational act This book explores the relationship between the preacher and the assembly as a spousal relationship Written by a parish pastor with a doctorate in preaching and rooted in the Roman Catholic notion of the priest as bridegroom of the church this work examines characteristics of the spousal

relationship between husband and wife and then provides an analysis of the ministerial priesthood through this nuptial lens This nuptial reflection on the ministerial priesthood is then applied to preaching This book presents a nuptial hermeneutic or vision for preaching and the implications of this vision for the assembly the preacher the homily and the homiletical method The appendices include a one page strategy for preaching summarizing the homiletical method a rubric for homily evaluation by members of the assembly and two sample homilies **Human Sexuality and the Nuptial Mystery** Roy R.

Jeal,2010-03-08 This collection of essays was originally presented at the St Margaret s Consultation on Doctrine Liturgy and Preaching held at St Margaret s Anglican Church in Winnipeg Canada in 2008 They consider human sexuality and marriage from a distinctly theological rather than polemical standpoint aiming to avoid frequently polarized debates The interesting commonality indicated in the articles is that sex and marriage are not about self fulfillment but are outwardly directed aimed toward the other person toward growth maturity and deepened spirituality for the benefit of the church for productive good and for children The first section explores theological and ethical issues surrounding human sexuality and aims toward understanding the nature of relationships in these contexts The second section explores the spiritual nature of marriage and the history of thinking on marriage and family within Christian theology For those interested in pursuing truly theological engagement with marriage and sexuality this collection is required reading Theology of the Body Explained Christopher

West,2003 Christopher West makes John Paul II s theology of the body available for the first time to people at all levels within the Christian community Love sexuality and human flourishing are inseparable Those who doubted this will find West s book a transforming experience and those who have been wounded will find liberation and peace A wonderful education on the meaning of being human Christopher West teaches the theology of the body and sexual ethics at St John Vianney Theological Seminary in Denver He is also visiting faculty member of the John Paul II Institute for Studies on Marriage and Family in Melbourne Australia **From Truth and truth** Francis Etheredge,2016-04-26 The final book of this trilogy

explores reason at work in the nature of faith cf Fides et Ratio 43 indeed although faith is of its nature different from reason faith cannot exist except through grace assisted reason Volume One briefly meditated on the metaphysics of meaning which entailed considering the intimate interrelationship of truth and existence In this volume however it becomes clear that there is an intrinsic complementarity in the very nature of created being a complementarity between the literal and spiritual sense of what exists Thus for example a seed is both what actually exists and at the same time it can adequately express the beginning of the supernatural life sown in the sacrament of Baptism This leads to an almost literary argument for there being a single cause of all creation in that there is an incredible coherence of meaning throughout the whole More specifically the book discusses various questions of a bioethical nature and more generally offers a radical investigation of the nature of man male and female for in a word the origin nature and action of the human person require constant reciprocal reflection Thus there are various essays on different aspects of man male and female ranging from a consideration of God expressing the

mystery of the Blessed Trinity through our participation in His own Being to the transition from a Jewish to a Christian understanding of marriage to a marital spirituality Finally faith in action ranges from being open to life to pilgrimages as a family and the slow but real discovery that there is a radical nature to our salvation in Christ that even if natural truth leads inexorably to the trembling outreaches of reason there is nevertheless a gratuitous Revelation which comes to meet and develop the life of us all *Reason, Revelation, and Metaphysics* Montague Brown, 2020-11-06 Any realist metaphysics must include an integrated account of the transcendentals and the analogy of being for an adequate metaphysics must be about everything and all things share in some key metaphysical characteristic being unity truth goodness and beauty However they do not share in them in exactly the same way Therefore there is need to explain the transcendental characteristics in an analogical way By using the phrase transcendental analogies Reason Revelation and Metaphysics claims that there are analogies of unity truth goodness and beauty which are related to but irreducible to the analogy of being As this book is a systematic study of the topic theoretical reason has primacy in the project and metaphysics is given pride of place But reason is practical and aesthetic as well that is our consciences urge us to seek what is good and we are delighted by what is beautiful Although goodness and beauty are not reducible to truth they must be included in any adequate metaphysical account for metaphysics looks to explain everything Although metaphysics is traditionally thought to be a philosophical project involving ontology and natural theology Montague Brown argues that an adequate metaphysics must ultimately be theological including within its scope the truths of revelation Philosophical reason's examination of the transcendental analogies raises questions that it cannot answer We experience a world of many beings truths goods and beauties Recognizing that these many instances have something in common we affirm a transcendent instance of each traditionally called God However although we know that a transcendent instance exists we do not know its nature therefore we cannot say how it is related to the other instances If we try to apply this transcendent instance as the prime analogate to shed light on the other analogates we must fail for the abstractness and universality of the transcendent instance can add nothing to our understanding of the particular instances Wanting to know how the many exist and are related philosophical reason finds no way forward and recognizes its need for help It is the thesis of this book that reason finds this help only in the revelation of the God's covenantal relation with the world The first principle of all things most perfectly revealed in Jesus Christ perfect God and perfect man is really and freely related to us Only by accepting this revealed prime analogate can the transcendental analogies bear fruit in our ongoing quest for understanding Catholic Theology Tracey Rowland, 2017-01-26 Rowland showcases here the dominant contemporary approaches to doing Catholic theology Chapter 1 offers a summary of the two International Theological Commission ITC documents on the discipline of Catholic theology These documents set out the general principles which should govern any approach to Catholic theology at least according to the ITC The subsequent chapters each focus on one of four different approaches frequently found in contemporary Catholic

academies the approach of Thomists members of the Communio milieu members of the Concilium milieu and promoters of different varieties of Liberation Theology Rowland's work is pitched at the level of first time students of theology who are trying to make sense of the methodological choices which undergird the different approaches to Catholic theology Rowland concludes with four appendices a list of all Doctors of the Church a list of all encyclicals since the 19th century a list of the documents of the Second Vatican Council and a list of definitions of the various Christological heresies which were the subject of the debates of the early Church Councils These appendices will provide useful reference tables for young scholars including seminarians
