Handbook of LGBT Elders Debra A. Harley, Pamela B. Teaster, 2015-08-05 This groundbreaking resource presents a wealth of findings and perspectives previously unseen in the LGBT literature Its focus on psychological sociopolitical and care delivery issues affecting LGBT elders reveals both the

nuanced interplay between diverse sources of identity and multiple sources of stigma and discrimination Specific chapters highlight challenges and resiliencies impacting subpopulations e g racial groups veterans immigrants examine employment and advocacy issues discuss later life concerns in context and offer guidelines for relevant ethical practice Contributors represent a wide range of fields from psychiatry and gerontology to public health and public policy reflecting the scope and needs of this diverse and complex population Among the topics in the Handbook Family relationships of older LGBT adults The intersection of identities race age sexuality and care network Bisexuality an invisible community among LGBT elders Implications of the Supreme Court ruling on same sex marriage No money no work and you re old Disabilities among LGBT elders responses of medicine public health rehabilitation and social work Handbook of LGBT Elders is an essential reference for mental health professionals psychologists and social workers who work with the LGBT community and the elderly as well as researchers interested in the LGBT community and aging

Ethics, Law, and Aging Review, Volume 10 Marshall B. Kapp, 2004-12-06 Although the topic of decision making capacity and older persons has been discussed in the literature there still is much to be learned about it theoretically and practically Experts continue to disagree about which standards are important for assessing decision making capacity Questions such as When should a capacity assessment be done on an older person and by whom are covered by the editors Topics included in this volume are the application of an original framework for ethical decision making in long term care an elder s capacity to decide to remain living alone in the community the quest for helpful standardized instruments for evaluating decision making capacity and end of life liability issues

Transforming Palliative Care in Nursing Homes Mercedes Bern-Klug, 2010-02-12 The teacher and gerontological social work scholar Mercedes Bern Klug joins experts on nursing law medicine sociology and social work to provide a thorough understanding of nursing home palliative care Their broad definition of palliative care treats comfort care as appropriate across the illness experience not just at the end of life Because a majority of nursing home residents are older adults facing multiple advanced chronic conditions this book is grounded in the provision of palliative care especially palliative psychosocial care Yet its practice recommendations can also be applied to other long term care settings such as assisted living The contributors combine scholarship with practical wisdom in each chapter mixing reviews of scholarly literature with insights gleaned from clinical practice Chapter topics comply with the eight domains of palliative care developed by the National Consensus Project for Quality Palliative Care Some focus on care of the resident while others concern the resident s family A special section addresses self care for nursing home staff members and another discusses nursing home rituals to mark the death of a resident Bern Klug concludes with an overview of the factors that will shape the future of palliative care for advanced chronic illness

Assessing the Nursing and Care Needs of Older Adults Helen Taylor (PhD.), 2005 Health resources are becoming increasingly constrained So it is essential that professionals and the public recognise the need to work together in establishing local priorities and collaborate in their implementation Priority Setting

and The Public challenges many widely accepted beliefs and perceptions It links together academic literature critical overviews of methods and approaches with practical applications and original research It shows the different approaches to engaging the public challenges and how progress can be achieved A wide number of methods from a range of disciplines are described reviewed and guidance is given on factors to consider for selection This book is essential reading for all health service and primary care organisations especially those responsible for resource allocation clinical governance and public health
