Party Government Elmer Eric Schattschneider, 1977-04-14 **The Nature of Party Government** Jean Blondel, 2000-11-08 The Nature of Party Government examines relationships between governments and supporting parties on a comparative European basis The book does so at the level of principles there is a major conflict between governments which should govern and parties which being representative wish to shape the way governments operate The book studies relationships empirically as well it shows that they occur on three planes appointments policy making and patronage and assesses the extent of two way influence from parties to governments and from governments to parties **The Rise to Power of the Chinese Communist Party** Tony Saich, Benjamin Yang, 2016-09-16 This collection of documents covers the rise to power of the Chinese communist movement They show how the Chinese Communist Party interpreted the revolution how it devised policies to meet changing circumstances and how these policies were communicated to party members and public **The Collected Works of Woodrow Wilson** Woodrow Wilson, Josephus Daniels, 2018-06-05 This meticulously edited collection presents to you the life and works of President Woodrow Wilson Content Essays The New Freedom When A Man Comes To Himself The Study of Administration Leaders of Men The New Democracy Inaugural Addresses First Inaugural Address Second Inaugural Address State of the Union Addresses First State of the Union address Second State of the Union address Third State of the Union address Fourth State of the Union address Fifth State of the Union address Sixth State of the Union address Seventh State of the Union address Eighth State of the Union address Speeches Addresses First Address to Congress Address on the Banking System Address at Gettysburg Address on Mexican Affairs Understanding America Address before the Southern Commercial Congress Trusts and Monopolies Panama Canal Tolls The Tampico Incident In the Firmament of Memory Memorial Day Address at Arlington Closing a Chapter Annapolis Commencement Address The Meaning of Liberty American Neutrality Appeal for Additional Revenue The Opinion of the World The Power of Christian Young Men A Message Address before the United States Chamber of Commerce To Naturalized Citizens Address at Milwaukee The Submarine Question American Principles The Demands of Railway Employees Speech of Acceptance Lincoln s Beginnings The Triumph of Women s Suffrage The Terms of Peace Meeting Germany s Challenge Request for Authority The Call to War To the Country The German Plot Reply to the Pope Labor must be Free The Call for War with Austria Hungary Government Administration of Railways The Conditions of Peace Force to the Utmost Presidential Decisions The State of War The President s Proclamation of April 6 1917 8a Formal U S Declaration of War with Germany 6 April 1917 8b

Institutional Design and Party Government in Post-communist Europe Csaba Nikolenyi, 2014 This book examines the institutional foundations of coalition government in the ten post communist democracies of Eastern and Central Europe for the 1990 2010 period Bulgaria the Czech Republic Estonia Hungary Latvia Lithuania Poland Romania Slovakia and Slovenia Its central argument is that differences in the arrangement of political institutions systematically explain variations in

patterns of multi party government across these states The book starts with the premise that electoral systems and constitutional provisions about the powers the structure and the relationship between parliament and the presidency determine the degree to which political power is dispersed or concentrated in the political system On the basis of these institutional features three groups of states are distinguished with regard to their degree of power concentration the substantive chapters of the book demonstrate how these institutional combinations and differences shape three specific facets of party government which capture the main stages of the lifecycle of coalitions governments the formation of electoral coalitions government formation and government duration Specifically three comparative chapters assess the impact of institutional power concentration on the size of electoral coalitions the likelihood that political parties form a minority government and the number of days that a government lasts in office The main finding of the book is that power concentration matters political parties in those democracies where institutions are designed to concentrate political power tend to form large electoral coalitions they tend to form majority rather than undersized governments and they build more durable cabinets In addition the book contains a detailed case study of government formation in Hungary and a previously unstudied comparison of indirect presidential elections in four states the Czech Republic Estonia Hungary and Latvia Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu

Prime Ministers in Power M. Bennister, 2012-03-20 A study of prime ministerial leadership in Britain and Australia Tony Blair and John Howard were election winning leaders in two similar countries They succeeded in dominating politics for over 10 years but both fell dramatically from office This book asks how these prime ministers established such predominant positions

Breaking the Two-Party Doom Loop Lee Drutman, 2019-12-02 American democracy is at an impasse After years of zero sum partisan trench warfare our political institutions are deteriorating Our norms are collapsing Democrats and Republicans no longer merely argue they cut off contact with each other In short the two party system is breaking our democracy and driving us all crazy Deftly weaving together history democratic theory and cutting edge political science research Drutman tells the story of how American politics became so toxic why the country is trapped in a doom loop of escalating two party warfare and why it is destroying the shared sense of fairness and legitimacy on which democracy depends He argues that the only way out is to have more partisanship more parties to short circuit the zero sum nature of binary partisan conflict American democracy was once stable because the two parties held within them multiple factions which made it possible to assemble flexible majorities and kept the temperature of political combat from overheating But as conservative Southern Democrats and liberal Northeastern Republicans disappeared partisan conflict flattened and pulled apart Once the parties fully separated toxic partisanship took over With

the two parties divided over competing visions of national identity Democrats and Republicans no longer see each other as opponents but as enemies And the more the conflict escalates the shakier our democracy feels Breaking the Two Party Doom Loop makes a compelling case for large scale electoral reform importantly reform not requiring a constitutional amendment that would give America more parties making American democracy more representative more responsive and ultimately more stable

The Limits of Party James M. Curry, Frances E. Lee, 2020-10-10 To many observers Congress has become a deeply partisan institution where ideologically distinct political parties do little more than engage in legislative trench warfare A zero sum winner take all approach to congressional politics has replaced the bipartisan comity of past eras If the parties cannot get everything they want in national policymaking then they prefer gridlock and stalemate to compromise Or at least that is the conventional wisdom In *The Limits of Party* James M Curry and Frances E Lee challenge this conventional wisdom By constructing legislative histories of congressional majority parties attempts to enact their policy agendas in every congress since the 1980s and by drawing on interviews with Washington insiders the authors analyze the successes and failures of congressional parties to enact their legislative agendas Their conclusions will surprise many congressional observers Even in our time of intense party polarization bipartisanship remains the key to legislative success on Capitol Hill Congressional majority parties today are neither more nor less successful at enacting their partisan agendas They are not more likely to ram through partisan laws or become mired in stalemate Rather the parties continue to build bipartisan coalitions for their legislative priorities and typically compromise on their original visions for legislation in order to achieve legislative success
