*The Deaths of Louis XVI* Susan Dunn, 2021-02-09 The public beheading of Louis XVI was a unique and troubling event that scarred French collective memory for two centuries To Jacobins the king's decapitation was the people's coronation To royalists it was deicide Nineteenth century historians considered it an alarming miscalculation a symbol of the Terror and the moral bankruptcy of the Revolution By the twentieth century Camus judged that the killing stood at the crux of our contemporary history In this book Susan Dunn investigates the regicide's pivotal role in French intellectual history and political mythology She examines how thinkers on the right and left repudiated regicide and terror while articulating a compassionate humanitarian vision which became the moral basis for the modern French nation Their credo of fraternity and

unity however strangely depoliticized this supremely political act of regicide Using theoretical insights from Tocqueville Arendt Rawls Walzer and others Dunn explores the transformation of violent regicidal politics into an apolitical cult of ethical purity and an antidemocratic nationalist religion Her book focuses on the fluidity of political myths The figure of Louis XVI was transmuted into a Joan of Arc and a deified nation and the notion of his sacrifice contributed to the disquieting myth of a mystical community of self sacrificing citizens

**The Foreign Burial of American War Dead** Chris Dickon,2011-09-29 Normandy Flanders Field and other overseas cemeteries of the American Battle Monument Commission ABMC are well known However lesser known burial sites of American war dead exist all over the world in Australia and across the Pacific Rim in Canada and Mexico Libya and Spain most of Europe and as far north as the Russian Arctic This is the history of American soldiers buried abroad since the American Revolution It traces the evolution of American attitudes and practices about war dead and provides the names and locations of those still buried abroad in non ABMC locations

The French in the Kingdom of Sicily, 1266-1305 Jean Dunbabin,2011-03-03 Charles of Anjou's conquest of the Sicilian Regno in 1266 transformed relations between France and the kingdom of Sicily This original study of contact and exchange in the Middle Ages explores the significance of the many cultural religious and political exchanges between the two countries arguing that the links were more diverse and stronger than simply the rulers family connections Jean Dunbabin shows how influence flowed as much from south to north as vice versa and that France was strongly influenced by the experiences of those who returned after years of fighting in the Regno As well as considering the experiences of notable crusading families she sheds new light on the career of Robert II d Artois who virtually ruled the Regno for six years before returning to France to remodel the government of Artois This comparative history of two societies offers an important perspective on medieval Western Europe

The Flight of the Angels Alistair Charles Rolls,2023-11-27 It is a close study of four novels by Boris Vian It aims to show how *L'écume des jours* *L'Automne Pâle* *L'Herbe rouge* and *L'Arrache-cœur* form a unified and coherent tetralogy By establishing close links between these four texts it becomes possible to achieve a more comprehensive understanding not only of the significance of the tetralogy in exposing a complex and multi layered novelistic strategy at the heart of the vianesque but of the individual novels as autonomous creations An examination of the novels reveals that they are not merely joined to one another via a superficial network of textual similarities that which I refer to as intratextuality but that this intertwining is emblematic of a common method of narrative construction Each Vian novel is dependent for a thorough understanding of the text to be possible upon the multiple lines of external influence running through it The sources of this influence which I refer to as intertextuality are located in various major texts of twentieth century literature anglophone as well as francophone Thus in each instance the narrative is driven by a complicated interaction of intratextuality and intertextuality

**Wisdom and Apocalypticism in the Dead Sea Scrolls and in the Biblical Tradition** Florentino García Martínez,2003 The volume contains the papers read at the 51st Colloquium Biblicum Lovaniense July 31 August 2

*Death in Fifteenth Century Castile* Laura Vivanco, 2004 Differences in attitudes to death and dying in two distinct social classes the ecclesiastics and the nobility The theory of the three estates made clear distinctions between the functions of the two estates which comprised the elite of medieval society the oradores ecclesiastics and the defensores warriors or nobility They had different lifestyles clothing and ways of thinking about life With regard to death the responses dictated by Christian theology conflicted with the demands of the defensor ideology based on the defence of individual honour the pursuit of fama and the display of earthly power This book charts the progress of the dying from their preparations for death through their good or bad deaths to their burials and otherworldly fates and also analyses the responses of the bereaved Through the use of pre fifteenth century texts it is possible to demonstrate that the conflict between the orador and defensor ideologies did not begin in the fifteenth century but rather had a much older origin and it is suggested that the conflict continued after 1500 Textual sources include the Siete partidas wills chronicles religious works such as the Arte de bien morir and literary works such as C rcel de Amor and Celestina

**The Century Dictionary and Cyclopedia: The century cyclopedia of names**, 1901 **Euthanasia and Physician-Assisted Suicide** Gerald Dworkin, R. G. Frey, Sissela Bok, 1998-08-28 The moral issues involved in doctors assisting patients to die with dignity are of absolutely central concern to the medical profession ethicists and the public at large The debate is fuelled by cases that extend far beyond passive euthanasia to the active consideration of killing by physicians The need for a sophisticated but lucid exposition of the two sides of the argument is now urgent This book supplies that need Two prominent philosophers Gerald Dworkin and R G Frey present the case for legalization of physician assisted suicide One of the best known ethicists in the US Sissela Bok argues the case against

*Chambers's Encyclopaedia*, 1883 **Cancer Pain** Eduardo D. Bruera, Russell K. Portenoy, 2003-06-23 Nearly one in three people will be diagnosed with

cancer and many of these patients will suffer from related cancer pain Cancer associated pain is widely feared by cancer patients but knowledge about the causes and management of cancer pain has increased dramatically in recent years and many new treatment options are available This comprehensive book discusses the unique characteristics of cancer pain including its pathophysiology clinical assessment diagnosis pharmacological management and nonpharmacological treatment The internationally recognized authors are leaders in cancer pain research and they apply their first hand knowledge in summarizing the principal issues in the clinical management of cancer pain This state of the art book cohesively addresses the full range of disciplines regularly involved in cancer pain management including pharmacology communication studies and psychology Cancer Pain is a scholarly but accessible text that will be an essential resource for physicians nurses and medical students who treat patients suffering from cancer pain **The Anticipatory Corpse** Jeffrey P. Bishop, 2011-09-19

In this original and compelling book Jeffrey P Bishop a philosopher ethicist and physician argues that something has gone sadly amiss in the care of the dying by contemporary medicine and in our social and political views of death as shaped by our scientific successes and ongoing debates about euthanasia and the right to die or to live The Anticipatory Corpse Medicine Power and the Care of the Dying informed by Foucault s genealogy of medicine and power as well as by a thorough grasp of current medical practices and medical ethics argues that a view of people as machines in motion people as in effect temporarily animated corpses with interchangeable parts has become epistemologically normative for medicine The dead body is subtly anticipated in our practices of exercising control over the suffering person whether through technological mastery in the intensive care unit or through the impersonal quasi scientific assessments of psychological and spiritual medicine The result is a kind of nihilistic attitude toward the dying and troubling contradictions and absurdities in our practices Wide ranging in its examples from organ donation rules in the United States to ICU medicine to spiritual surveys to presidential bioethics commissions attempting to define death and to high profile cases such as Terri Schiavo s The Anticipatory Corpse explores the historical political and philosophical underpinnings of our care of the dying and finally the possibilities of change This book is a ground breaking work in bioethics It will provoke thought and argument for all those engaged in medicine philosophy theology and health policy Nursing Today - Revised Reprint JoAnn Graham
