Pascal Adversary And Advocate:

Pascal, Adversary and Advocate Robert James Nelson, 1981 The life of the paradoxical seventeenth century philosopher and mathematician is examined here along three axes psychological theological and linguistic to present the first rounded portrayal of the querulous intense ever committed Pascal In drawing this portrait the author restores Pascal to the general reader after twenty years of scholarship that has embroiled this historic thinker in academic quarrels Robert Nelson confronts the contradictions in Pascal's life and personality intensely religious according to the demands of his time yet simultaneously committed to rigorous scientific inquiry no matter where it led fascinated by rebellion yet deeply dependent on the authority of father spiritual adviser church and science Mr Nelson sees the resolution of these personal dilemmas in Pascal's growing interest in language the essential relation between word and object signifier and signified which form a style of Pascalian linguistics different from those of Descartes or Port Royal Through the scrutiny of Pascal's biography and analysis of the entire body of his writing Nelson reveals Pascal the man the scientist the theologian and the literary genius

Pascal Robert J. Nelson, 1981-02-05 The life of the paradoxical seventeenth century philosopher and mathematician is examined here along three axes psychological theological and linguistic to present the first rounded portrayal of the querulous intense ever committed Pascal In drawing this portrait the author restores Pascal to the general reader after twenty years of scholarship that has embroiled this historic thinker in academic quarrels Through the scrutiny of Pascal's biography and analysis of the entire body of his writing Nelson reveals Pascal the man the scientist the theologian and the literary genius *Pascal and Rhetoric* Erec R. Koch, 1997 **Why Read Pascal?** Paul J. Griffiths, 2021-05-07 Blaise Pascal 1623-1662 is known in the English speaking world principally for the wager an argument that it is rational to do what will affect belief in God and irrational not to and more generally for the *Pensées* a collection of philosophical and theological fragments of unusual emotional and intellectual intensity collected and published after his death He thought and wrote however about much more than this mathematics physics grace freedom and predestination the nature of the church the Christian life what it is to write and read the order of things the nature and purpose of human life and more He was among the polymaths of the seventeenth century and among the principal apologists of his time for the Catholic faith against both its Protestant opponents and its secular critics *Why Read Pascal* engages all the major topics of Pascal's theological and philosophical writing It provides discussion of Pascal's literary style his linked understandings of knowledge and of the various orders of things his anthropology with special attention to his presentation of affliction death and boredom his politics and his understanding of the relation between Christianity and Judaism Pascal emerges as a literary stylist of a high order a witty and polemical writer never have the Jesuits been more thoroughly eviscerated and perhaps above all else as someone concerned to show to Christianity's cultured despisers that the fabric of their own lives implies the truth of Christianity if only they can be brought to look at what their lives are like *Why Read Pascal* is the first book in English in a

generation to engage all the principal themes in Pascal's theology and philosophy. The book takes Pascal seriously as an interlocutor and as a contributor of continuing relevance to Catholic thought but it also offers criticisms of some among the positions he takes showing in doing so how lively his writing remains for us now. *The European Philosophers from Descartes to Nietzsche* Monroe Beardsley, 2002-11-12 Between the earliest and the latest of the works included here we have two hundred and fifty years of vigorous and adventurous philosophizing. Monroe Beardsley writes in his Introduction to this collection: If the modern period can be only vaguely or arbitrarily bounded it can at least be studied and we can ask whether any dominant themes, overall patterns of movement or notable achievements can be found within it. This question is one that is best asked by the reader after he has read or read around in these works. This Modern Library Paperback Classic also includes a newly updated Bibliography. Blaise Pascal D. Adamson, 1994-12-19 This chronological survey explores Pascal's 1623-62 achievement as mathematician, physicist and religious thinker; it also has a chapter on his life. His work on conic sections, the probability calculus, number theory, cycloid curves and hydrostatics is considered in detail. Analyses of the *Provincial Letters* and the *Thoughts* bring out the many distinctive features, thematic and technical, of each text. Pascal's lesser-known works are also studied. There is a chapter on the Wager argument. A wide-ranging bibliography completes the book. Pascal's Lettres Provinciales Louis A. MacKenzie, 1988 *Catholic Particularity in Seventeenth-Century French Writing* Richard Parish, 2011-07-28 *le christianisme est étrange* Pascal. Pensées. Pascal's assertion that Christianity is strange provides the theme for Richard Parish's exploration of Catholic particularity as it was expressed in the writing of the French seventeenth century. This was a period of quite exceptional fertility in a range of genres: apologetics, sermons, devotional manuals, catechisms, martyr tragedies, lyric poetry, polemic and spiritual autobiography. Parish examines a broad cross-section of this corpus with reference to the topics of apologetics, physicality, language, discernment, polemics and salvation and draws evidence both from canonical figures: Pascal, Bossuet, Fénelon, St François de Sales, Madame Guyon and from less easily available texts. Parish aims to consider all those distinctive features that the heritage of the Catholic Reformation brought to the surface in France and to do so in support of the numerous ways in which Christian doctrine could be understood as being strange: it is by turns contrary to expectations, paradoxical, divisive, carnal and inexpressible. These features are exploited imaginatively in the more conventional literary forms; didactically in pulpit oratory and empirically in the accounts of personal spiritual experience. In addition, they are manifested polemically in debates surrounding penance, authority, inspiration and eschatology and often push orthodoxy to its limits and beyond in the course of their articulation. This volume provides an unsettling account of a belief system to which early modern France often unquestioningly subscribed and shows how the element of cultural assimilation of Catholic Christianity into much of Western Europe only tenuously contains a subversive and counter-intuitive creed. The degree to which that remains the case will be for the reader to decide. *A Thinking Reed* Stephen N. Williams, 2023-04-28 Blaise Pascal 1623-62 was a provocative and important thinker. Both the range and the

influence of his work is immense His *Pensees* Thoughts unfinished and composed of fragments is widely regarded as a classic of Christian apologetics In this volume the reader is introduced to this work with a view to both describing what Pascal says and assessing its present value After introducing the man and his life Pascal s views on reason and the heart and on human wretchedness and greatness are discussed before asking in a final chapter Would you bet on God An appendix treats Pascal and modernity Four hundred years on Pascal s voice can still be heard Four hundred years on we still need to heed it Pascal does not simply speak from the mind to the mind He speaks as a person to persons

Philosophic Classics, Volume III Forrest Baird,2023-05-31 Esteemed for providing the best available translations *Philosophic Classics Modern Philosophy* features complete works or complete sections of the most important works by the major thinkers as well as shorter samples from transitional thinkers First published in 1961 Forrest E Baird s revision of *Philosophic Classics* continues the tradition of providing generations of students with high quality course material Using the complete works or where appropriate complete sections of works this anthology allows philosophers to speak directly to students

Philosophic Classics: From Plato to Derrida Forrest Baird,2016-05-23 First published in 1961 Forrest E Baird s revision of *Philosophic Classics* continues the tradition of providing generations of students with high quality course material Using the complete works or where appropriate complete sections of works this anthology allows philosophers to speak directly to students Esteemed for providing the best available translations *Philosophic Classics From Plato to Derrida* features complete works or complete sections of the most important works by the major thinkers as well as shorter samples from transitional thinkers

Willa Cather and France Robert James Nelson,1988 [The 17th and 18th Centuries](#) Frank N. Magill,2013-09-13 Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography

The Places of Early Modern Criticism Gavin Alexander,Emma Gilby,Alexander Marr,2021-04-29 What is criticism And where is it to be found Thinking about literature and the visual arts is found in many places in treatises apologies and paragoni in prefaces letters and essays in commentaries editions reading notes and commonplace books in images sculptures and built spaces within or on the thresholds of works of poetry and visual art It is situated between different disciplines and methods Critical ideas and methods come into England from other countries and take root in particular locations the court the Inns of Court the theatre the great house the printer s shop the university The practice of criticism is transplanted to the Americas and attempts to articulate the place of poetry in a new world And commonplaces of classical poetics and rhetoric serve both to connect and to measure the space between different critical discourses Tracing

the history of the development of early modern thinking about literature and the visual arts requires consideration of various kinds of place material textual geographical and the practices particular to those places it also requires that those different places be brought into dialogue with each other This book brings together scholars working in departments of English modern languages and art history to look at the many different places of early modern criticism It argues polemically for the necessity of looking afresh at the scope of criticism and at what happens on its margins and for interrogating our own critical practices and disciplinary methods by investigating their history **In Praise of Wisdom** Kim Paffenroth,2004-01-01

Examines the ways that our rich literary tradition in the West deals with the questions of reason and faith **French Prose and Criticism Through 1789** Harold Bloom,1990 This series is part of an attempt to present a comprehensive selection of modern criticism of Western literature Each volume contains an introductory essay by Harold Bloom Theology for Liberal Protestants Douglas F. Ottati,2013-09-06

A two volume work by Douglas Ottati Theology for Liberal Protestants presents a comprehensive theology for Christians who are willing to rethink and revise traditional doctrines in face of contemporary challenges It is Augustinian claiming that we belong to the God of grace who creates judges and renews It is Protestant affirming the priority of the Bible and the fallibility of church teaching It is liberal recognizing the importance of critical arguments and scientific inquiries a deeply historical consciousness and a commitment to social criticism and engagement This first volume contains sections on method and creation Ottati s method envisions the world and ourselves in relation to God as Creator Judge and Redeemer The bulk of the book offers an in depth discussion of God as Creator the world as creation and humans as good capable and limited creatures To Make the Hands Impure Adam Zachary

Newton,2016-01-01 How can cradling handling or rubbing a text be said ethically to have made something happen What as readers or interpreters may come off in our hands in as we maculate or mark the books we read For Adam Zachary Newton reading is anembodied practice wherein ethics becomes a matter of tact in the doubled sense of touch and regard With the image of the book lying in the hands of its readers as insistent refrain To Make the Hands Impure cuts a provocative cross disciplinary swath through classical Jewish texts modern Jewish philosophy film and performance literature translation and the material text Newton explores the ethics of reading through a range of texts from the Talmud and Midrash to Conrad s Nostromo and Pascal s Le M morial from works by Henry Darger and Martin Scorsese to the National September 11 Memorial and a synagogue in Havana Cuba In separate chapters he conducts masterly treatments of Emmanuel Levinas Mikhail Bakhtin and Stanley Cavell by emphasizing their performances as readers a trebled orientation to Talmud novel and theater film To Make the Hands Impure stages the encounter of literary experience and scriptural traditions the difficult and the holy through an ambitious singular and innovative approach marked in equal measure by erudition and imaginative daring *Badiou's 'Being and Event'* Christopher Norris,2009-05-24 Alain Badiou s Being and Event is the most original and significant work of French philosophy to have appeared in recent decades It is the magnum opus of a thinker who is widely

considered to have re shaped the character and set new terms for the future development of philosophy in France and elsewhere This book has been written very much with a view to clarifying Badiou s complex and demanding work for non specialist readers It offers guidance on philosophical and intellectual context key themes reading the text reception and influence and further reading

A Theology for the Twenty-First Century Douglas F. Ottati, 2020-10-15 Christianity in the United States is in crisis Liberalism is declining evangelicalism is splintering increasing numbers of Christians are slipping away from churches and more and more young people are for various reasons finding Christianity as they conceive it a metaphysical thought system or society of science deniers or an ideology for oppressors not just implausible but repellent At the same time Christians across denominational and ideological divides are rediscovering a moral core especially in the Jesus of the Gospels that reactivates and unites them and this kind of faith appeals to many who consider themselves averse to all traditional organized religion But any revitalized Christian faith is going to need to understand its rootedness in and interpretation of Christianity s foundational texts and traditions Noted theologian Douglas F Ottati steps in to offer a theology for this new era Combining deep learning in texts and traditions with astute awareness of contemporary questions and patterns of thought and life he asks what does it mean in our time to understand the God of the Bible as Creator and Redeemer Distilling the content of Christian faith into seventy concise propositions he explains each in lucid cogent prose *A Theology for the Twenty First Century* will be an essential textbook for those training for ministry in our current climate a wise guide for contemporary believers who wonder how best to understand and communicate their faith and an inviting and intelligent resource for serious inquirers who wonder whether the way of Jesus might help them grasp the real world while remaining open to the transcendent
