IDN-Based Universal System of Information and Discordance Process Malek M. Nazemi, MD, PhD, FACP,2025-05-30 The US
while spending far more of its GDP on health care ranks among the worst performing members of all the western industrial
nations According to CMS that figure was 4 4 trillion dollars in 2022 and is expected to exceed 6 8 trillion by 2030 Despite
these figures 44 percent of all Americans struggle to pay for their health care The purpose of this book is to define most
important sources for this excessive health care costs and inefficiency in the US and describe methods to rectify those
serious shortcomings Human error is one of the leading causes for health care ineffectiveness and wastefulness and is
brought about by factors such as fatigue time pressure workload omission repetition distraction and insufficient knowledge
Among other contributing factors include shortage of staff mostly because of too much paperwork routines administrative
burdens material management and so on The described universal system of information works closely with its users and
substantially lightens all the above alluded to overheavy burdens This system uses an interdepartmental network IDN method
for managing a total patient care in all arenas of care It constantly monitors the entire health care data and interacts with its
users Any piece of information is quantified with a score and used as an option operating factor that must discord compete
with other related options to best satisfy a specific objective core factor This process is called contextual quantification The
system is constantly in touch with the users and if there is a need it continually recommends corrective steps However it is
always the user who ultimately must make the final decision Being a physician in this book my focus has been on health
sciences subgroup A human medicine With some modification however this IDN based universal system of information can be
applicable to other disciplines as well *Holt Spanish Level 1* Nancy A. Humbach,2000 *Ate Adelante, Holt Spanish, LV*
